SWRS Southwest Recovery Services

Providing Creative Solutions to Common Problems

COMMERCIAL & TRADE RECEIVABLES · CAPABILITIES OVERVIEW

Debt Collection for Trade Contractors

Recovering unpaid commercial & customer invoices — warehouses, dealers & net-terms accounts — on pure contingency

Prepared for **Goody Garage Doors** · July 2026

01 — INTRODUCTION

A recovery partner for the invoices that go unpaid after the job's done

To Casey Silva and the Goody Garage Doors team — thank you for requesting a quote. With three Arizona locations and a busy residential and commercial book — overhead and rolling-steel doors, dock levelers, warehouses and distribution centers — the hardest dollars you collect are the commercial net-terms invoices and customer balances that drift once the job is finished and the crew has moved on.

Unpaid invoices aren't a dispatch problem — they're a cash-flow problem. A commercial overhead-door or dock-leveler job billed on net terms, or a stack of residential balances, ties up money you've already earned and quietly ages into a write-off while your trucks stay booked.

Southwest Recovery Services works trade and commercial receivables on **pure contingency since 2004** — licensed and bonded where required, including Arizona, with skip tracing on both the business and its principals when an account goes quiet. You place accounts through a secure portal that takes an A/R aging export, and we work them. No recovery, no fee.

02 — AT A GLANCE

Two decades of commercial recovery — nationwide

A documented, compliant recovery process a busy multi-location contractor can plug in without pulling office staff off dispatch and billing.

2004 Recovering commercial receivables since	**$975M+** Receivables placed (all industries)	**$76M+** Recovered for clients	**800K+** Accounts worked
52% of placed accounts see a recovery	**50** states — nationwide recovery reach	**4.9★** Google client rating	**$0** upfront — no recovery, no fee

- Commercial & B2B collections since 2004
- Nationwide — all 50 states
- 12 offices across 7 states
- Skip tracing on businesses & principals
- Contingency — no recovery, no fee

03 — YOUR QUESTIONS, ANSWERED

The questions a contractor asks — answered directly

Exactly how we work, in plain terms, before a single account is placed.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — $0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. The rate scales with the age and size of the balances; we quote your rate once we see a representative sample of your A/R.
2. "The work's done but they won't pay"	The core of what we do. A dispute pauses recovery — it doesn't end it. We validate the account against your job file (signed work order, invoice, photos, warranty terms) and work both sides. For completed trade work, that documentation is usually decisive.
3. Non-responsive commercial accounts	Persistent multi-channel outreach, plus commercial skip tracing to locate the operating business, its successors and the principals behind an account that's gone silent — and review of legal escalation for balances that still won't engage. A third-party demand on agency letterhead resolves a meaningful share on its own.
4. Residential & commercial	We work both: high-volume residential customer balances and commercial net-terms invoices to warehouses, distribution centers, property managers and general contractors. One partner, one portal, either type of account.
5. Onboarding & placement	Low-lift. Export an A/R aging report from your field / invoicing system (ServiceTitan, Housecall Pro, QuickBooks, or similar) or a simple spreadsheet, and upload it through our secure portal — we map your columns, no re-keying. Outreach begins within 24–48 hours of a documented placement.

THE SWRS CLIENT PORTAL

Billing-system-ready intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your A/R export and give your office live, self-service visibility throughout recovery.

BILLING-SYSTEM-READY PLACEMENT

Upload an A/R aging export from ServiceTitan, Housecall Pro, QuickBooks or your system — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send work orders, invoices and photos safely inside the portal — the documentation that resolves ‘work-not-done’ disputes fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live view of what’s been recovered.

DIRECT-PAYMENT REPORTING

Log payments a customer makes directly to Goody, so balances stay accurate and no one is over-contacted.

04 — CASE STUDIES

SWRS Trade-Contractor Recovery Case Studies

Actual placed-versus-recovered results from Southwest Recovery's **trade-contractor book** — roofing, HVAC, electrical, plumbing and specialty trades — anonymized by trade, individual client names withheld. Real recovered dollars on placed contractor A/R.

ROOFING CONTRACTOR

Commercial & residential roofing

$37K recovered

of ~$43K placed

87% recovered

ELECTRICAL CONTRACTOR

Commercial electrical & cabling

$30K recovered

of ~$37K placed

81% recovered

PLUMBING CONTRACTOR

Service & new-construction plumbing

$35K recovered

of ~$44K placed

79% recovered

FLOORING CONTRACTOR

Commercial flooring

$28K recovered

of ~$35K placed

81% recovered

HVAC / MECHANICAL

Heating & cooling contractor

$68K recovered

of ~$137K placed

49% recovered

OUTDOOR / SITE CONTRACTOR

Landscape & outdoor solutions

$15K recovered

of ~$16K placed

97% recovered

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE COST OF WAITING

Why trade invoices recover best while they're fresh

A trade balance is most collectible while it's fresh — the job is recent, the customer or property is easy to reach, and the paperwork is at hand. Every month it ages, businesses move, principals scatter, and leverage erodes. The highest-leverage change a contractor can make isn't chasing harder — it's placing sooner.

THE AGE CURVE

Fresh balances (under ~90–120 days past due) resolve at materially higher rates — the 80–97% recoveries above — while balances left a year or more collect a fraction of that.

THE STANDING RULE

A simple "place at 90 days" policy recovers materially more than letting invoices drift toward write-off — and on contingency there's no cost to placing.

Real placed-versus-recovered results from SWRS's trade-contractor book, anonymized by trade; individual client names withheld. Results vary by account age, balance size and documentation quality; we give an honest, age-based read on a representative sample before any accounts are worked.

05 — BUILT FOR TRADE CONTRACTORS

We speak your job ledger

A residential-plus-commercial trade book creates a specific receivables profile. Our playbook is built for exactly that.

Commercial net-terms invoices

Warehouses, distribution centers, property managers and general contractors billed on net terms — the B2B accounts that go quiet after the install.

“Work’s done, invoice unpaid”

Completed jobs that stall on a dispute or slow-pay — validated against your work order, invoice and photos, then pursued professionally.

Non-responsive accounts

Commercial skip tracing on the business and its principals, plus persistent multi-channel demand for customers who’ve gone silent.

High-volume residential balances

The steady stream of smaller consumer balances a busy shop can’t chase — worked in bulk, compliantly.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
