Southwest Recovery Services

*Providing Creative Solutions to Common Problems*

WHOLESALE FOOD DISTRIBUTION · COMMERCIAL RECEIVABLES · CAPABILITIES OVERVIEW

# Debt Collection Agency for Businesses

Recovering past-due restaurant and grocery accounts — on pure contingency

Prepared for **Pacific Plus International** · August 2026

01 — INTRODUCTION

# A recovery partner for the invoices that leave on the truck and never come back

To Christy and the Pacific Plus team — the hardest dollars a food importer collects are the ones already delivered: the restaurant that closes between drops, the owner who stops answering once the last order is in the walk-in, the grocery that pays a little later every month until it stops paying at all.

**In importing, past-due receivables are a working-capital problem before they are a customer-service problem.** Your suppliers, freight, customs and cold chain are all paid long before a net-15 or net-30 invoice comes due — so every account that drifts past terms is money you have already spent, financing someone else's kitchen.

Southwest Recovery Services is a commercial, B2B-focused outsourced receivables recovery partner, working business receivables on **pure contingency since 2004**, with recovery reach across all 50 states. You place accounts through a secure portal that takes your AR-aging export, and we work them. No recovery, no fee.

02 — AT A GLANCE

# Two decades of commercial recovery — nationwide

A track record built on high-volume B2B trade receivables and a documented, professional process — the scale a distribution office can plug in without adding a collections desk.

| | | | |
|---|---|---|---|
| **2004** Recovering commercial receivables since | **$975M+** Receivables placed (all industries) | **$76M+** Recovered for clients | **800K+** Accounts worked |
| **52%** of placed accounts see a recovery | **50** states — nationwide recovery reach | **4.9★** Google client rating | **$0** upfront — no recovery, no fee |

- Commercial & B2B collections since 2004
- Nationwide — all 50 states
- 12 offices across 7 states
- Skip tracing on businesses & principals
- Contingency — no recovery, no fee

03 — YOUR QUESTIONS, ANSWERED

# The questions a distributor actually asks

How this works against a wholesale food book — open terms, delivered product, and customers whose businesses turn over fast.

| YOUR QUESTION | SOUTHWEST RECOVERY SERVICES |
|---|---|
| **1. Fee structure** | Pure contingency — $0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. Commercial contingency scales with the age, balance and volume of your placements; we quote your rate once we see a representative sample of your aging. |
| **2. Customers who close or move** | The core of what we do. Commercial skip tracing locates the operating entity, its successors, and the principals behind a restaurant or market that has changed hands, reopened under a new name, or simply gone dark — then works them with persistent, compliant multi-channel outreach. |
| **3. Personal guaranties & credit files** | Where your credit application carries a signed personal guaranty, that document does real work: it lets recovery follow the individual who signed, not just a shell that stopped trading. Send the signed application and guaranty with the placement and we build the file around it from day one. |
| **4. Disputed deliveries & short claims** | A dispute pauses recovery — it doesn't end it. We validate the account against the paper: signed delivery tickets and BOLs, itemized invoices, statements, credit memos, and the communication trail. In food distribution the signed receipt at the door is usually decisive. Dispute investigation typically adds 30–60 days. |
| **5. Onboarding & placement** | Fast and low-lift. Bulk-upload an AR / aging export from QuickBooks or your distribution system through our portal; we map your columns, so nothing gets re-keyed. Outreach begins within 24–48 hours of a documented placement. |

THE SWRS CLIENT PORTAL

## Aging-export-ready intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your AR exports and give your office live, self-service access throughout recovery.

### AGING-EXPORT-READY PLACEMENT

Upload an AR / aging export straight from QuickBooks or your distribution system — we map your columns, no re-keying.

### SECURE DOCUMENT EXCHANGE

Send signed credit applications, personal guaranties, delivery tickets, invoices and statements safely inside the portal — the paper that resolves disputes fast.

### REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live view of your placed book instead of a monthly PDF.

### DIRECT-PAYMENT REPORTING

Log payments a customer makes straight to Pacific Plus, so balances stay accurate and no one is contacted twice.

04 — CASE STUDIES

# SWRS Commercial Recovery Case Studies

Actual placed-versus-recovered results from Southwest Recovery's food, beverage and wholesale-distribution book, anonymized by sector. The spread is the point: recovery tracks account age, documentation and whether the buyer is still trading.

**SPECIALTY FOOD IMPORTER & DISTRIBUTOR**

**National specialty foods**

**$166K** recovered

of ~$276K placed

**60% recovered**

**BEVERAGE DISTRIBUTOR**

**Regional beverage supply**

**$50K** recovered

of ~$50K placed

**100% recovered**

**MULTI-UNIT RESTAURANT OPERATOR**

**Franchise restaurant group**

**$24K** recovered

of ~$36K placed

**67% recovered**

**WHOLESALE DISTRIBUTOR**

**Regional distribution**

**$86K** recovered

of ~$165K placed

**52% recovered**

**FINE-FOODS DISTRIBUTOR**

**Gourmet & specialty supply**

**$127K** recovered

of ~$400K placed

**32% recovered**

**FOODSERVICE DISTRIBUTOR**

**Broadline foodservice**

**$7K** recovered

of ~$126K placed

**6% recovered**

*Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.*

WHY AGE DECIDES THE OUTCOME

## The difference between a 60% file and a 6% file is usually months

Look again at the range above. The strong results came from accounts placed while the buyer was still operating and the paper was still intact. The weak ones came in after the doors had closed. Nothing about the collector changed — only the calendar did.

### THE AGE CURVE

Fresh accounts (under ~90 days past due) often resolve in 30–60 days; balances that sit a year collect a fraction of that, because contact data goes stale and the operating entity may no longer exist.

### THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more than letting balances drift toward write-off — and on contingency there is no cost to placing.

*Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked. We do not publish blended averages and we do not promise a recovery rate.*

05 — BUILT FOR WHOLESALE FOOD DISTRIBUTION

# Every day past terms is DSO you don’t get back

Every invoice that drifts past terms adds to your DSO and ties up working capital you have already spent on product, freight and duty. An open-terms food book compounds it: fast-turning buyers, thin margins, and delivered goods that cannot be repossessed.

### Closed, sold and reopened accounts

Commercial skip tracing on the entity, its successors and its principals — for the operator who closed on Sunday and reopened under a new name on Tuesday.

### Guaranty-backed recovery

Where a signed personal guaranty exists, recovery can follow the individual who signed it. Send it with the placement and it works for you from the first contact.

### Delivered-goods disputes

Signed delivery tickets, BOLs, credit memos and statements — documentation-driven validation that separates a genuine short-ship claim from a stall.

### Nationwide reach

Recovery across all 50 states from 12 offices in 7 states — so a buyer who leaves Texas or Oklahoma does not leave your reach.

06 — AI-POWERED COLLECTIONS

# Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

### AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

### Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

### Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

### Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

### API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

### Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

# Built by a collector with 30 years on the phones — not a CEO with zero collection experience

**Steven Dietz**

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
