SWRS Southwest Recovery Services

Providing Creative Solutions to Common Problems

RENTAL & TENANT RECEIVABLES RECOVERY · CAPABILITIES OVERVIEW

Debt Collection for Property Managers

Recovering former-tenant balances, move-out damage & commercial lease arrears — on pure contingency

Prepared for **Tareb Management** · July 2026

01 — INTRODUCTION

A recovery partner for the balances tenants leave behind

To the Tareb Management team — thank you for reaching out. Managing hundreds of residential and mixed-use units across the Bronx creates a steady stream of receivables that a busy office can only chase so far: former tenants who move out owing a balance, move-out damage beyond the deposit, lease-break fees, and commercial tenants behind on rent or CAM.

Tenant balances aren't a leasing-office problem — they're a cash-flow problem. Once a resident is gone or a commercial account goes quiet, unpaid rent, damage chargebacks and lease-break fees quietly age into write-offs while your team is focused on filling units and running buildings.

Southwest Recovery Services works rental and commercial receivables on **pure contingency since 2004** — an extension of your office for the balances that have stalled. We locate former tenants with skip tracing, pursue commercial guarantors, and do it **reputation-first**: firm, professional and fully compliant. You place accounts through a secure portal that takes a simple rent-roll or A/R export. No recovery, no fee.

02 — AT A GLANCE

Two decades of receivables recovery — nationwide

A documented, compliant recovery process a property-management office can plug in alongside its leasing and bookkeeping team — without adding a collections person or chasing former tenants across the city.

2004 Recovering commercial receivables since	**$975M+** Receivables placed (all industries)	**$76M+** Recovered for clients	**800K+** Accounts worked
52% of placed accounts see a recovery	**50** states — nationwide recovery reach	**4.9★** Google client rating	**$0** upfront — no recovery, no fee

- Commercial & B2B collections since 2004
- Nationwide — all 50 states
- 12 offices across 7 states
- Skip tracing on businesses & principals
- Contingency — no recovery, no fee

03 — YOUR QUESTIONS, ANSWERED

The questions a property manager asks — answered directly

Exactly how we work, in plain terms, before a single account is placed.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — $0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. The rate scales with the age and size of the balances; we quote your rate once we see a representative sample of your A/R.
2. Former tenants who've moved — can you find them?	Yes. Skip tracing on the former resident and any lease guarantor is core to what we do — once a tenant leaves the building, locating them is exactly where an outside agency outperforms an in-house office.
3. Move-out damage, lease-breaks & deposits	Damage beyond the deposit, unpaid final rent, and lease-break / early-termination fees — validated against the lease, the ledger and move-out documentation, then pursued professionally.
4. Commercial & mixed-use tenants	Retail and commercial tenants behind on rent or CAM reconciliations — worked with persistent demand and skip tracing on the business and its principals, without disrupting a tenant you intend to keep.
5. Compliance & onboarding	FDCPA, Reg F and TCPA guardrails on every consumer account; documented, defensible contact throughout. Onboarding is low-lift — export a rent-roll / delinquency or A/R report from your property-management system (AppFolio, Buildium, Yardi, or a spreadsheet) and upload it through our secure portal. Outreach begins within 24–48 hours.

THE SWRS CLIENT PORTAL

Property-system-ready intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your rent-roll / A/R export and give your office live, self-service visibility throughout recovery.

PROPERTY-SYSTEM-READY PLACEMENT

Upload a delinquency or A/R export from AppFolio, Buildium, Yardi or a spreadsheet — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send leases, ledgers, move-out inspections and photos safely inside the portal — the documentation that resolves disputes fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live view of what's been recovered across your portfolio.

DIRECT-PAYMENT REPORTING

Log payments a tenant makes directly to the office, so balances stay accurate and no one is over-contacted.

55% recovered

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE COST OF WAITING

Why tenant balances recover best while they're fresh

A tenant balance is most collectible while it's fresh — the resident's contact and employment details are current, the move-out is recent, and the lease and ledger are at hand. Every month it ages, people relocate, numbers change, and the trail goes cold. The highest-leverage change a property office can make isn't chasing harder — it's placing sooner.

THE AGE CURVE

Fresh balances (under ~90–120 days past due) resolve at materially higher rates; former-tenant balances left a year or more collect a fraction of that once the trail goes cold.

THE STANDING RULE

A simple "place at 90 days" policy on former-tenant and damage balances recovers more than letting them drift toward write-off — and on contingency there's no cost to placing.

Real placed-versus-recovered results from SWRS's property-management and rental book, anonymized by sub-sector; individual client names withheld. Results vary by account age, balance size and documentation; we give an honest, age-based read on a representative sample first.

05 — BUILT FOR PROPERTY MANAGERS

We understand a rental ledger

A residential and mixed-use portfolio creates a specific receivables profile. Our playbook is built for exactly that.

Former-tenant & skip balances

Residents who moved out owing final rent or fees — located with skip tracing on the tenant and any lease guarantor, which is where an outside agency outperforms an in-house office.

Move-out damage & lease-breaks

Damage beyond the deposit and early-termination / lease-break fees — validated against the lease and move-out inspection, then recovered.

Commercial & mixed-use arrears

Retail and commercial tenants behind on rent or CAM — worked with persistent demand and skip tracing on the business and its principals.

Reputation-first & compliant

Professional, FDCPA-compliant contact that protects your buildings' reputation and the tenant relationships you intend to keep.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It’s how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
