REVENUE-CYCLE RECOVERY · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering patient balances and stalled insurance claims for HCA Healthcare — compliantly, on pure contingency

Prepared for **HCA Healthcare** · July 2026

01 — INTRODUCTION

The recovery layer for what your billing process couldn't close

Prepared for HCA Healthcare — for a national hospital system, net revenue leaks at the end of the revenue cycle: in the patient responsibility that stacks across an episode of care, the self-pay balances, and the denied or underpaid claims that survive billing and age past the point your team can work them.

This is the last stage of the revenue cycle, not the first. Coding, claim submission and adjudication are your billing team's job; the balances that survive that process are where net revenue quietly leaks. A balance worked at 60 days resolves at a far higher rate than the same balance at 300.

Southwest Recovery Services is the recovery layer that works those balances — patient A/R, insurance follow-up and bad debt — HIPAA-compliant and on pure contingency since 2004. We complement your billing; we do not replace it. No retainer, no setup fee, no recovery no fee.

02 — AT A GLANCE

Two decades of receivables recovery — nationwide, HIPAA-compliant

The recovery capacity a busy revenue-cycle team can plug in without hiring for it — documented, compliance-first, and paid only on results.

2004 Recovering commercial receivables since	**$975M+** Receivables placed (all industries)	**$76M+** Recovered for clients	**800K+** Accounts worked
52% of placed accounts see a recovery	**50** states — nationwide recovery reach	**4.9★** Google client rating	**$0** upfront — no recovery, no fee

- Commercial & B2B collections since 2004
- Nationwide — all 50 states
- 12 offices across 7 states
- Skip tracing on businesses & principals
- Contingency — no recovery, no fee

03 — YOUR QUESTIONS, ANSWERED

What a revenue-cycle team asks us

The questions that matter when the goal is recovering net revenue, not running billing.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
Fee structure	Pure contingency — $0 upfront, no retainer, no setup or per-account fee. You pay a percentage only of what we actually recover.
What we recover	Post-insurance patient responsibility (copays, coinsurance, deductibles), self-pay and cash-pay balances, aged guarantor balances, and denied, underpaid or authorization-exhausted claims.
Insurance follow-up & appeals	We track each payer's filing and appeal deadlines, follow the required resolution path, and escalate before the recovery window closes.
Early-out & timing	A balance worked at 60 days resolves far higher than at 300. Early-out (30–90 days) plus prompt bad-debt placement recover materially more; outreach begins within 24–48 hours.
Compliance	HIPAA under a Business Associate Agreement (minimum-necessary PHI); FDCPA / Reg F on patient accounts; current on evolving state medical-debt credit-reporting rules.
Onboarding & placement	Bulk-upload a patient-AR / aging export from your system through our secure portal; we map your columns, no re-keying.

THE SWRS CLIENT PORTAL

Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your AR-aging exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

SYSTEM-READY PLACEMENT

Bulk-upload an AR / aging export from your accounting or billing system (CSV/Excel) — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send EOBs, statements and supporting records safely inside the portal under our BAA, not over email.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

DIRECT-PAYMENT REPORTING

Log payments made directly to you, so balances stay accurate and no one is over-contacted.

Multi-provider clinic

$28K recovered

of ~$557K placed

5% recovered

Anonymized by sector from Southwest Recovery’s book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE EARLY-OUT ADVANTAGE

Why early placement recovers more

For patient AR, the age of the balance is the strongest predictor of recovery — contact data goes cold and patients disengage as accounts age.

THE AGE CURVE

Fresh balances recover a large multiple of aged ones; the decline is steep and does not reverse.

EARLY-OUT + BAD DEBT

An early-out program on fresh balances plus prompt bad-debt placement, worked in parallel, recovers materially more than a single late hand-off.

05 — BUILT FOR HEALTHCARE RECOVERY

We speak revenue cycle

Patient and payer AR has a specific recovery profile. Our playbook is built for it, inside HIPAA.

Stacked patient responsibility

Compliant recovery of copays and coinsurance that accumulate across an episode of care — protecting the patient relationship.

Denied & underpaid claims

Insurance follow-up and appeals on denials, underpayments and authorization issues.

Self-pay & cash balances

Recovery of self-pay and cash-pay balances that age out of a busy office's reach.

Compliance-first

HIPAA + FDCPA / Reg F on every account, current on state medical-debt rules.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
