SWRS Southwest Recovery Services

Providing Creative Solutions to Common Problems

COMMERCIAL & B2B RECEIVABLES RECOVERY · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering unpaid employer-group administration fees and past-due plan contributions — on pure contingency

Prepared for **CEHAS Plan Administrators** · September 2026

01 — INTRODUCTION

A recovery partner for the groups that stop remitting

Garet — following our call, this is the written version of what we covered: how Southwest Recovery Services works a book like yours, exactly what the 20% flat rate does and doesn't include, and what recovery on 60 employer-group accounts totaling roughly $300,000 realistically looks like.

> **Unpaid administration fees and plan contributions aren't a service problem — they're a cash-flow and DSO problem.** A group that has stopped remitting is still consuming your claims administration, eligibility management and member support. Every month that balance sits, contact data goes stale, the decision-maker who signed the agreement moves on, and the account drifts toward write-off.
>
> Southwest Recovery Services is an outsourced receivables recovery partner working commercial, business-to-business balances on **pure contingency since 2004**, with recovery reach across all 50 states. You place accounts through a secure portal that takes your existing AR-aging or billing export, and we work them. No recovery, no fee.

02 — AT A GLANCE

Two decades of commercial recovery — nationwide

A track record built on high-volume business-to-business receivables and a documented, defensible process — capacity a lean benefits-administration team can plug into without hiring for it.

2004 Recovering commercial receivables since	**$975M+** Receivables placed (all industries)	**$76M+** Recovered for clients	**800K+** Accounts worked
52% of placed accounts see a recovery	**50** states — nationwide recovery reach	**4.9★** Google client rating	**$0** upfront — no recovery, no fee

- Commercial & B2B collections since 2004
- Nationwide — all 50 states
- 12 offices across 7 states
- Skip tracing on businesses & principals
- Contingency — no recovery, no fee

The questions from our call — answered in writing

Everything we discussed on the phone, in order, plus the details that matter for a book of employer-group balances.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Your rate	**20% flat** on every dollar we recover across all 60 accounts — no tiering by age or balance. $0 upfront, no retainer, no monthly minimum, no cancellation fee. You pay only out of money that actually lands. If we recover nothing on an account, that account costs you nothing.
2. Groups that have gone silent	The core of what we do. Persistent multi-channel outreach, then commercial skip tracing to locate the operating entity, its successors and the principals behind a group that has dissolved, rebranded or simply stopped answering. A documented third-party demand on our letterhead alone resolves a meaningful share of silent commercial accounts.
3. Disputed fees and terminated groups	A dispute pauses recovery — it doesn't end it. We validate the balance against the paper: the administrative services agreement, the fee schedule, monthly invoices, eligibility and enrollment counts, and the communication trail. For a TPA book, your enrollment records and invoice history are usually decisive, because the fee follows a headcount you can document. Dispute investigation typically adds 30–60 days.
4. Placement and onboarding	Fast and low-lift. Bulk-upload an AR or aging export from your billing system through the portal — we map your columns, so nothing gets re-keyed. Outreach begins within 24–48 hours of a documented placement, and we can take the full 60 accounts in one file or stage them.
Compliance and your broker relationships	These are commercial balances owed by businesses, not consumer debt, but we work them to the same standard either way: documented, professional, no threats and no misrepresentation. That matters when the group that owes you was introduced by a producer you still want writing business with you next year. We report progress account by account so you always know what was said and when.

THE SWRS CLIENT PORTAL

Billing-system-ready intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your existing AR and billing exports and give your team live, self-service access throughout recovery.

BILLING-SYSTEM-READY PLACEMENT

Upload an AR or aging export straight from your billing system — we map your columns, so there's no re-keying and no new process to learn.

SECURE DOCUMENT EXCHANGE

Send administrative services agreements, fee schedules, invoices and enrollment records safely inside the portal — the documentation that closes disputes fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live view of the book rather than a monthly PDF.

DIRECT-PAYMENT REPORTING

Log payments a group remits directly to CEHAS, so balances stay accurate and no one is contacted about money they've already paid.

04 — CASE STUDIES

SWRS Commercial Recovery Case Studies

Actual placed-versus-recovered results from Southwest Recovery's commercial book. We have not worked a third-party benefits administrator before, so rather than invent a match, these are the closest structural comparables we have: businesses billing other businesses recurring service and administration fees, at roughly the scale of your $300,000 book. The spread is shown as it actually is.

THE DSO ADVANTAGE

Why the age of these 60 accounts sets the ceiling

A commercial balance is most collectible while it is fresh. Every month it ages, the signer moves on, the entity restructures and leverage erodes. The single highest-leverage change most finance teams make is not chasing harder — it is placing sooner.

THE AGE CURVE

Balances under roughly 90 days past due often resolve in 30–60 days. A book that has sat a year or more collects toward the low end of the range above, and we will tell you which end yours sits at before anything is worked.

THE STANDING RULE

A fixed "place at 90 days" policy on lapsed and terminated groups recovers materially more than letting balances drift toward write-off — and on contingency there is no cost to placing early.

Recovery figures vary by account age, balance, documentation quality and industry. SWRS gives an honest, age-based read on your actual file before any accounts are worked. We do not publish blended portfolio averages.

05 — BUILT FOR BENEFITS-ADMINISTRATION RECEIVABLES

Cutting the days between billed and banked

Days Sales Outstanding measures one thing: how long earned revenue sits as a receivable before it becomes cash. Median DSO runs about 43.5 days and the strongest quartile collects in roughly 25 — every month past that erodes both recoverable value and working capital. On a recurring-fee book, the balance compounds while the service keeps being delivered.

Lapsed & terminated groups

Commercial skip tracing on the entity, its successors and its principals, plus persistent multi-channel outreach for groups that have stopped answering.

Disputed administration fees

Documentation-driven validation against the services agreement, fee schedule and enrollment counts — separating a genuine dispute from a stall.

Every commercial balance type

Monthly administration fees, premium-equivalent contributions, plan funding shortfalls, wellness and tax-advantage plan fees — one partner, one portal.

Nationwide reach

Recovery across all 50 states from 12 offices in 7 states — built for employer groups wherever your producers place them.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> “Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
