SWRS Southwest Recovery Services

Providing Creative Solutions to Common Problems

DEBT RECOVERY FOR BUSINESSES · SINCE 2004

Recover What Others Write Off

A pure-contingency receivables recovery partnership — you only pay when we collect.

No recovery, no fee · A recovery proposal for your business

01 — THE STAKES

$0 recovered is the default

Every dollar you recover is near-pure margin.

Every business carries a steady stream of uncollected balances — aged invoices, accounts that went silent, and customers who moved on or closed. The revenue is already earned. Without a dedicated partner, the default outcome is simply that it is lost. Southwest Recovery Services turns a share of that written-off revenue back into cash — on **pure contingency**, so it costs you nothing to find out how much is recoverable.

02 — AT A GLANCE

Two decades of receivables recovery — nationwide

2004 Recovering commercial receivables since	**$975M+** Receivables placed (all industries)	**$76M+** Recovered for clients	**800K+** Accounts worked
52% of placed accounts see a recovery	**50** states — nationwide recovery reach	**4.9★** Google client rating	**$0** upfront — no recovery, no fee

- Commercial & B2B collections since 2004
- Nationwide — all 50 states
- 12 offices across 7 states
- Skip tracing on businesses & principals
- Contingency — no recovery, no fee

03 — THE LEAK

Where earned revenue quietly leaks out

Most balances pass through four stages — and without a recovery partner, the last one becomes a write-off instead of a recovery.

Current

Invoiced and within terms. Cash flow is healthy and predictable.

Past-due

30–90 days late. Internal reminders slow down and attention drifts to newer work.

Silent → written-off

No response. The balance gets reserved, then quietly written off the books.

Recoverable

Still collectable with skip tracing, persistence, and a compliant process — this is where we work.

04 — THE FIT

Three solvable problems. One partner.

Aged & written-off balances

Old invoices and balances sit until they are quietly written off.

Our answer. We pursue them on pure contingency, with a consistent, compliant process.

Customers who moved on

The customer is gone, and internal follow-up rarely finds them again.

Our answer. We skip-trace and recover a meaningful share of those ‘lost’ balances.

Broken payment arrangements

Promised-payment plans that fell apart get little internal attention.

Our answer. A steady, compliant process re-engages the customer and recovers the balance.

05 — WHY OUTSOURCE

Your team wasn't built to chase ghosts

What in-house collection quietly costs

Staff time pulled off current customers, awkward past-due calls, inconsistent follow-up, no skip tracing when a debtor disappears, and real compliance exposure under FDCPA / Reg F.

What a specialist partner adds

A trained recovery team, skip tracing and data, a disciplined multi-touch cadence, compliance built into every step — and a contingency model where you only pay on what we actually collect.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It’s how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — RESULTS & REPUTATION

We recover the balance — and protect the relationship

Money back on your books

A share of balances you had already written off, returned as near-pure-margin cash — with clear, account-level reporting on everything we work.

Your name, handled with care

Empathy-first, compliant contact. We represent you professionally, so today's past-due customer can still be tomorrow's paying one.

08 — HOW IT WORKS

Three steps. No recovery, no fee.

1. Place your accounts

Send aged, written-off, or broken-arrangement balances by secure upload or API. No setup fee, no minimums to start.

2. We go to work

Skip tracing, multi-channel outreach, and a disciplined cadence on the Aktos platform — fully compliant and fully documented on every account.

3. You get paid

We remit what we recover and report on every account. You pay only a contingency fee on what we actually collect — nothing otherwise.

09 — QUALIFY IN 2 MINUTES

Is there money to recover? Usually, yes.

If you answer yes to any of these, there is very likely recoverable revenue sitting on your books.

ASK YOURSELF	WHY IT MATTERS
Do you write off past-due balances every year?	Written-off is not the same as uncollectable — much of it is still recoverable.
Have customers gone silent or moved on still owing you?	Skip tracing locates them and re-opens the conversation.
Do payment plans fall apart without follow-up?	A steady outside process re-engages and recovers the balance.
Is your team spending hours chasing overdue accounts?	That time is usually better spent serving current customers.
Would near-pure-margin cash help this quarter?	Recovered dollars drop almost straight to the bottom line.

10 — CLIENT PORTAL

Transparency, built in

CLIENT PORTAL

See every account in real time

Every client gets a secure portal at **get.swrecovery.com** — live status, transparent performance, and clean remittance reporting on everything we work.

REAL-TIME STATUS

Watch each account move through the recovery workflow — no waiting for a monthly PDF.

FULL TRANSPARENCY

Segmentation and recovery performance across your whole portfolio, visible any time.

SECURE PLACEMENT

Upload new accounts by file or API; everything is encrypted and access-controlled.

CLEAR REMITTANCE

See exactly what was recovered on which account, and what your contingency fee was.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
