COMMERCIAL RECEIVABLES RECOVERY · CAPABILITIES OVERVIEW

# Debt Collection Agency for Businesses

Recovering a past-due commercial account — on pure contingency

Prepared for **Customer Direct, LLC** · July 2026

01 — INTRODUCTION

# A recovery partner for the account that stopped paying

To Jennifer and the Customer Direct team — you deliver customer experiences for a living, so chasing a business that owes you money isn't just a distraction, it's off-mission. A former customer that was cut off but is still operating owes a real, recoverable balance — and every month it sits, the contact data cools and the leverage erodes.

**A large past-due account isn't a write-off — it's working capital you've already earned.** A debtor that's still in business has revenue and a reputation to protect, which is exactly what makes the balance collectible while it's fresh.

Southwest Recovery Services is a commercial, B2B-focused collection agency working business receivables on **pure contingency since 2004**, with recovery reach across all 50 states. You place the account through a secure portal, and we work it. No recovery, no fee.

02 — AT A GLANCE

# Two decades of commercial recovery — nationwide

A documented, professional process behind $975M+ in placements — the leverage of a third-party demand your own team can't replicate.

| | | | |
|---|---|---|---|
| **2004** Recovering commercial receivables since | **$975M+** Receivables placed (all industries) | **$76M+** Recovered for clients | **800K+** Accounts worked |

03 — YOUR QUESTIONS, ANSWERED

# The questions your management team will ask — answered

Exactly what a $170K commercial placement comes down to: how it works, what it costs, and what happens if the debtor disputes or goes silent.

| YOUR QUESTION | SOUTHWEST RECOVERY SERVICES |
|---|---|
| **1. How does the fee work?** | Pure contingency — $0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. On a single, relatively fresh six-figure commercial balance, the quoted rate is favorable; you're paying a share of money you're currently collecting nothing on, at zero downside. |
| **2. The debtor stopped responding — now what?** | That's the core of what we do: persistent multi-channel outreach (mail, phone, email), commercial skip tracing to confirm the operating entity, its principals and successors, and a formal third-party demand on agency letterhead — which alone resolves a meaningful share of silent accounts. Because the business is still operating, there is something to reach and something to protect. |
| **3. What if they claim a dispute?** | A dispute pauses recovery — it doesn't end it. We validate the account against the paper: the signed agreement / MSA / SOW, itemized invoices, and the communication trail. For a documented B2B services balance, that record usually settles a genuine dispute from a stall quickly. Dispute investigation typically adds 30–60 days. |
| **4. How do we hand it over?** | Fast and low-lift. Place the account through our secure portal with the agreement and invoices attached; we map your fields, no re-keying. Outreach begins within 24–48 hours of a documented placement, and your team tracks every step in the portal, 24/7. |
| **5. Will this reflect on our brand?** | It has to — it's your name attached to the recovery. Every account is worked inside an FDCPA / Reg F-disciplined, compliance-by-design process: firm and effective, never threats or misrepresentation. That protects the relationship and protects Customer Direct's reputation as a customer-experience company. |

THE SWRS CLIENT PORTAL

## Documented placement and full visibility, on demand

Every placement is managed through our secure portal — built to take your account documentation and give your team live, self-service visibility throughout recovery.

### DOCUMENTED PLACEMENT

Upload the account with its agreement, invoices and statements — we map your fields, no re-keying.

### SECURE FILE EXCHANGE

Send the MSA / SOW, invoices and the communication trail safely inside the portal — the documentation that resolves disputes fast.

### REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live view your management team can check any time.

### DIRECT-PAYMENT REPORTING

Log any payment the debtor makes directly to Customer Direct, so the balance stays accurate and no one is over-contacted.

THE DSO ADVANTAGE

## Why fresh commercial balances recover best

A commercial balance is most collectible while it's fresh; every month it ages, contact data goes stale and leverage erodes. Industry research from the Commercial Collection Agencies of America puts collectability at **under 25% once a balance passes a year old**. The highest-leverage move isn't chasing harder — it's placing sooner.

### THE AGE CURVE

Fresh accounts (under ~90–120 days past due) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

### STILL OPERATING = LEVERAGE

A debtor that's still in business has revenue, banking relationships and a reputation — the pressure points that turn a silent account into a paid one.

*Recovery figures vary by portfolio; SWRS gives an honest, age-based read on the account before it's worked.*

05 — BUILT FOR COMMERCIAL B2B RECOVERY

# We speak your ledger

A six-figure B2B trade balance has its own recovery profile — a business debtor, documentation that decides disputes, and a relationship worth protecting. Our playbook is built for exactly that.

### Non-responsive business debtors

Commercial skip tracing on the entity and its principals, plus persistent multi-channel demand for a customer that's gone silent.

### Disputed & contested invoices

Documentation-driven validation — agreements, SOWs, invoices, the trail — that separates a genuine dispute from a stall tactic.

### Large single placements

A six-figure account gets senior handling and a pre-legal escalation path held in reserve when the balance warrants it.

### Brand-safe by design

FDCPA / Reg F guardrails inside every step — firm recovery that never puts a customer-experience company's reputation at risk.

# Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AKTOS

### AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

### Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

### Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

### Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

### API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

### Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

# Built by a collector with 30 years on the phones — not a CEO with zero collection experience

**Steven Dietz**

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**

A past-due customer today can be a business you cross paths with tomorrow. Firm recovery that stays professional protects the relationship, protects Customer Direct's brand, and protects you from the liability sloppy collections create.
