

Providing Creative Solutions to Common Problems

CLINICAL-SERVICES & COMMERCIAL RECEIVABLES · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering unpaid invoices from CROs, sponsors and sites that have gone quiet — on pure contingency

Prepared for **NeSPaT** · September 2026

A recovery partner for the invoices that go quiet

To the NeSPaT team — the hardest dollars a clinical-logistics business collects are the ones a CRO, sponsor or site stops paying after the patient travel and reimbursement work is already done. The service was delivered; the invoice went silent.

Unpaid service invoices aren't an operations problem — they're a cash-flow problem. The coordination and reimbursements were already fronted; the receivable is money you've outlaid.

Southwest Recovery Services is an outsourced receivables recovery partner working commercial B2B balances on **pure contingency since 2004**, nationwide. Place accounts through a secure portal that takes your billing export, and we work them. No recovery, no fee. You asked about skip tracing, pre-legal and legal escalation — all part of the same managed process.

Two decades of commercial recovery — nationwide

A documented, compliant recovery process on pure contingency since 2004 — scale you can add without building a collections desk.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked
52% of placed accounts see a recovery	50 states — nationwide recovery reach	4.9★ Google client rating	\$0 upfront — no recovery, no fee

Commercial & B2B collections since 2004

Nationwide — all 50 states

12 offices across 7 states

Skip tracing on businesses & principals

Contingency — no recovery, no fee

Your questions — answered directly

What happens to the invoices you place — and the full escalation ladder you asked about.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — \$0 upfront, no retainer, no minimum. A pre-agreed percentage only of what we recover, quoted after a representative sample of your aging.
2. Skip tracing	We locate the operating entity, successors and principals behind a CRO, sponsor or site that has gone quiet — commercial skip tracing on the business, not just a name.
3. Non-responsive accounts	Persistent compliant multi-channel outreach; a third-party demand alone resolves a meaningful share of silent commercial accounts.
4. Pre-legal & legal escalation	For accounts that still won't engage, we review and stage legal escalation through our nationwide forwarding network — the ladder you asked about, applied selectively where the balance justifies it.
5. Onboarding	Bulk-upload an aging export — we map your columns. Outreach begins within 24–48 hours of a documented placement.

**THE SWRS CLIENT
PORTAL**

Billing-system-ready intake and full visibility, on demand

Every placement runs through our secure portal — built to take your A/R exports and give your team live, self-service visibility throughout recovery.

BILLING-SYSTEM-READY PLACEMENT

Upload an A/R / aging export — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send invoices, contracts and supporting docs safely inside the portal — the documentation that resolves disputes fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — live status on every placed balance.

DIRECT-PAYMENT REPORTING

Log payments a debtor makes directly to you, so balances stay accurate and no one is over-contacted.

THE AGE CURVE**Why placing sooner recovers more**

A commercial services balance is most collectible while it's fresh and the engagement is still active. Your reported book is small and mostly 31–60 days — the window where recovery is strongest.

FRESH VS. AGED

Accounts under ~90 days past due often resolve in 30–60 days; balances left to sit a year collect a fraction of that.

A STANDING RULE

A fixed 'place at 90 days' policy recovers materially more than letting balances drift toward write-off — and on contingency there's no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

Recovering the service you've already delivered

For a services firm, the receivable is coordination and reimbursement you've already outlaid. Every month a CRO or sponsor invoice ages, the odds of collecting fall.

Skip tracing

Commercial skip tracing on the entity, successors and principals behind a silent account.

Pre-legal & legal

Staged escalation through a nationwide legal-forwarding network, applied where the balance justifies it.

Disputed invoices

Documentation-driven validation — the service agreement, itemized invoices and delivery records — separating a real dispute from a stall.

Nationwide reach

Recovery across all 50 states from 12 offices in 7 states.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
