PROPERTY-SERVICES RECEIVABLES RECOVERY · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering past-due B2B receivables — on pure contingency

Prepared for **Thomasons Property Maintenance** · July 2026

A recovery partner for the accounts that stopped paying

To Tim and the Thomasons Property Maintenance team — you run a property-maintenance company and you're carrying \$10K–\$100K in unpaid invoices for work that's already been done — from the property owners and managers you service. A documented, past-due balance recovers best while it's fresh, and a firm, professional third-party demand does what your own follow-up can't.

A past-due account isn't a write-off — it's working capital you've already earned. A debtor that's still operating has revenue and a reputation to protect, which is what makes the balance collectible while it's fresh.

Southwest Recovery Services is a commercial, B2B-focused collection agency working business receivables on **pure contingency since 2004**, with recovery reach across all 50 states. You place accounts through a secure portal, and we work them. No recovery, no fee.

Two decades of commercial recovery — nationwide

A documented, professional process behind \$975M+ in placements — the leverage of a third-party demand your own team can’t replicate.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked
52% of placed accounts see a recovery	50 states — nationwide recovery reach	4.9★ Google client rating	\$0 upfront — no recovery, no fee

- Commercial & B2B collections since 2004
- Nationwide — all 50 states
- 12 offices across 7 states
- Skip tracing on businesses & principals
- Contingency — no recovery, no fee

The questions a finance team asks — answered

How the fee works, what happens if a debtor disputes or goes silent, and how to hand it over.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. How does the fee work?	Pure contingency — \$0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we recover. Commercial contingency scales with the age, balance and volume of your placements; we quote once we see a representative sample.
2. The debtor stopped responding — now what?	The core of what we do: persistent multi-channel outreach, commercial skip tracing to confirm the operating entity and its principals, and a formal third-party demand on agency letterhead — which alone resolves a meaningful share of silent accounts.
3. What if they claim a dispute?	A dispute pauses recovery — it doesn't end it. We validate the account against the paper: the agreement / PO / invoices and the communication trail. A documented B2B balance usually settles a genuine dispute from a stall quickly. Investigation typically adds 30–60 days.
4. How do we hand it over?	Fast and low-lift. Place the account through our secure portal with the invoices and agreement attached; we map your fields, no re-keying. Outreach begins within 24–48 hours of a documented placement, and you track every step 24/7.
5. Will this reflect on our brand?	It has to — it's your name attached to the recovery. Every account is worked inside an FDCPA / Reg F-disciplined process: firm and effective, never threats or misrepresentation. That protects the relationship and your reputation.

Documented placement and full visibility, on demand

Every placement is managed through our secure portal — built to take your account documentation and give your team live, self-service visibility throughout recovery.

DOCUMENTED PLACEMENT

Upload the account with its agreement, invoices and statements — we map your fields, no re-keying.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live view your team can check any time.

SECURE FILE EXCHANGE

Send the agreement, invoices and communication trail safely inside the portal — the documentation that resolves disputes fast.

DIRECT-PAYMENT REPORTING

Log any payment the debtor makes directly to you, so the balance stays accurate and no one is over-contacted.

SWRS Commercial Recovery Case Studies

Actual placed-versus-recovered results from Southwest Recovery’s commercial book, anonymized by sector.

Anonymized by sector from Southwest Recovery’s book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE DSO ADVANTAGE

Why fresh commercial balances recover best

A commercial balance is most collectible while it's fresh; every month it ages, contact data goes stale and leverage erodes. Research from the Commercial Collection Agencies of America puts collectability at **under 25% once a balance passes a year old**. The highest-leverage move isn't chasing harder — it's placing sooner.

THE AGE CURVE

Fresh accounts (under ~90–120 days past due) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

STILL OPERATING = LEVERAGE

A debtor that's still in business has revenue, banking relationships and a reputation — the pressure points that turn a silent account into a paid one.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on the account before it's worked.

05 — BUILT FOR COMMERCIAL B2B RECOVERY

We speak your ledger

A B2B trade balance has its own recovery profile — a business debtor, documentation that decides disputes, and a relationship worth protecting. Our playbook is built for exactly that.

Non-responsive business debtors

Commercial skip tracing on the entity and its principals, plus persistent multi-channel demand for a customer that's gone silent.

Disputed & contested invoices

Documentation-driven validation — agreements, POs, invoices, the trail — that separates a genuine dispute from a stall tactic.

Every commercial balance type

Trade invoices, service balances, freight and equipment — one partner, one portal.

Brand-safe by design

FDCPA / Reg F guardrails inside every step — firm recovery that never puts your reputation at risk.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer,
Southwest Recovery Services

A past-due customer today can be a business you cross paths with tomorrow. Firm recovery that stays professional protects the relationship, your brand, and you from the liability sloppy collections create.
