

*Providing Creative Solutions to Common Problems*

PROPERTY & STUDENT-HOUSING RECOVERY · CAPABILITIES OVERVIEW

# Debt Collection Agency for Businesses

Recovering unpaid rent, move-out and skip balances for The Cottages of Indiana — on pure contingency

Prepared for **The Cottages of Indiana** · July 2026

## A recovery partner for the balances that walk off campus

Prepared for The Cottages of Indiana — the hardest dollars a student-housing operator collects are the ones a tenant leaves behind: unpaid rent, damage beyond the deposit on a furnished unit, and broken-lease fees from a student who graduated, transferred, or simply went home — and took the balance with them.

**Post-move-out balances are a cash-flow problem.** Every skipped student ties up rent you've earned and turnover costs you've already absorbed — and once they leave town, the contact info on file goes stale fast.

Southwest Recovery Services works property and multifamily receivables on **pure contingency since 2004** — recovering move-out and skip balances, skip-tracing the student *and* the guarantor nationwide, and reporting bad-debt tenants to Experian RentBureau. Place accounts through a secure portal that takes your ledger export. No recovery, no fee.

## Two decades of property recovery — nationwide

A track record built on multifamily and student-housing receivables and a documented, professional process.

## What a student-housing operator asks us

The questions that matter for a high-turnover, per-bed rental book.

| YOUR QUESTION                     | SOUTHWEST RECOVERY SERVICES                                                                                                                                                                                                                                                                           |
|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Fee structure</b>              | Pure contingency — \$0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover. Multifamily / eviction placements run 20–50% depending on placement frequency, volume and balance size; general property 10–25%. We quote against a representative sample. |
| <b>What we recover</b>            | Unpaid rent, damage beyond the deposit on furnished units, broken-lease and early-termination fees, unpaid utilities and late fees — from students who skipped, graduated or moved out, and from their guarantors.                                                                                    |
| <b>Skip tracing</b>               | Students move constantly — graduate, transfer, go home. We run nationwide skip tracing on the former tenant <i>and</i> the parent/guarantor so an account that went cold becomes collectible again.                                                                                                   |
| <b>Credit-bureau reporting</b>    | We report qualifying bad-debt tenants to Equifax and Experian — plus <b>Experian RentBureau</b> , the rental-payment database landlords screen against. It recovers this balance and deters the next skip — a no-charge value-add most operators can't do themselves.                                 |
| <b>Onboarding &amp; placement</b> | Fast and low-lift — bulk-upload a move-out / ledger export from your PM system through our portal; we map your columns, no re-keying. A standing “place at move-out” rule recovers materially more.                                                                                                   |
| <b>Compliance</b>                 | FDCPA / Regulation F on consumer (student) accounts — validation, call-frequency limits, the 30-day dispute window — handled professionally so recovery never reflects poorly on your community.                                                                                                      |

## **Low-lift intake and full visibility, on demand**

Every placement is managed through our secure portal — built to take your property-management ledger / rent-roll exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

### **SYSTEM-READY PLACEMENT**

Bulk-upload a move-out / ledger / aging export from your PM system (CSV/Excel) — we map your columns, no re-keying.

### **REAL-TIME REPORTING**

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

### **SECURE FILE EXCHANGE**

Send leases, guarantor agreements, ledgers and move-out statements safely inside the portal, not over email.

### **DIRECT-PAYMENT REPORTING**

Log payments a former tenant makes directly to you, so balances stay accurate and no one is over-contacted.

**NO-CHARGE  
VALUE-ADD**

## **We report to Experian RentBureau — the database landlords screen against**

This is the difference-maker for student housing. Beyond reporting to Equifax and Experian, we furnish your bad-debt tenants to Experian RentBureau — the largest rental-payment database (9M+ residents; 3,000+ communities), updated every 24 hours.

### **IT RECOVERS**

A tenant who wants to rent their next apartment has a real reason to clear the balance they left with you.

### **IT DETERS**

When students know move-out balances follow them into the database every landlord screens, they think twice before skipping.

*Included at no additional charge on qualifying placements.*

## We speak your turnover

A per-bed, high-turnover student book has a specific recovery profile. Our playbook is built for it.

### Skip tracing on students & guarantors

Nationwide tracing of former tenants who left town and the parents/guarantors who co-signed.

### Move-out & damage recovery

Unpaid rent, damage beyond deposit on furnished units, and broken-lease fees — validated against the lease and ledger.

### Experian RentBureau reporting

The no-charge value-add that recovers the balance and deters the next skip.

### High-volume per-bed placement

Many small individual-lease balances cleared in volume through one portal, on contingency.

## Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

### AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

### Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

### Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

### Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

### API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

### Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

## Built by a collector with 30 years on the phones — not a CEO with zero collection experience

### Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

“Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.”

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services

Firm, effective recovery has to stay professional — especially in a small college town. That protects the tenant relationship, protects the The Cottages of

Indiana name, and protects you from the liability that sloppy collections create.
