

Providing Creative Solutions to Common Problems

COMMERCIAL LEASE RECEIVABLES RECOVERY · CAPABILITIES OVERVIEW

Debt Collection for Commercial Landlords

Recovering unpaid base rent, CAM / NNN balances & former-tenant arrears — on pure contingency

Prepared for **Perrin SA Plaza** · July 2026

A recovery partner for the tenants who fall behind

To Dulce and the Perrin SA Plaza team — thank you for reaching out. A multi-tenant retail center on triple-net leases carries a specific kind of receivable: a shop or restaurant tenant who falls behind on base rent, CAM and NNN reconciliation balances tenants dispute or ignore, and the arrears a tenant leaves behind when a suite goes dark. Chasing them pulls your leasing team off filling space.

Commercial lease arrears aren't a leasing problem — they're a cash-flow problem. Past-due base rent, unpaid NNN pass-throughs, and holdover or lease-break balances from vacated suites quietly age into write-offs while your team is focused on the rent roll and the next tenant.

Southwest Recovery Services works commercial lease and B2B receivables on **pure contingency since 2004** — an extension of your office for the balances that have stalled. We pursue the tenant business and its guarantors with persistent demand and commercial skip tracing, **reputation-first** and fully compliant. You place accounts through a secure portal that takes a simple rent-roll or A/R export. No recovery, no fee.

Two decades of commercial recovery — nationwide

A documented, compliant recovery process a landlord or leasing office can plug in alongside its own team — without adding a collections person or chasing a tenant business across the city.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked

The questions a commercial landlord asks — answered directly

You asked for a quote; here is exactly how we work, in plain terms, before a single account is placed.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — \$0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. The rate scales with the age and size of the balances; we quote your rate once we see a representative sample of your A/R.
2. Base rent & NNN / CAM balances	Past-due base rent and the triple-net pass-throughs tenants owe — taxes, insurance and common-area maintenance — validated against the lease and the CAM reconciliation, then pursued professionally.
3. Former tenants & lease-breaks	Holdover balances, unpaid final rent, early-termination / lease-break amounts and damages from a vacated suite — worked against the tenant business and any personal or corporate guarantor on the lease.
4. Can you reach a tenant business that closed?	Yes. Commercial skip tracing on the business and its principals / guarantors is core to what we do — once a tenant shutters or moves, locating the responsible party is exactly where an outside agency outperforms an in-house office.
5. Onboarding & placement	Low-lift. Export a rent-roll / delinquency or A/R report from your property or accounting system (or a simple spreadsheet) with the balance, lease and guarantor, and upload it through our secure portal — we map your columns, no re-keying. Outreach begins within 24–48 hours of a documented placement.

Property-system-ready intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your rent-roll / A/R export and give your leasing office live, self-service visibility throughout recovery.

PROPERTY-SYSTEM-READY PLACEMENT

Upload a delinquency or A/R export from your property / accounting system or a spreadsheet — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send leases, guaranties, CAM reconciliations and ledgers safely inside the portal — the documentation that resolves disputes fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live view of what's been recovered across your tenants.

DIRECT-PAYMENT REPORTING

Log payments a tenant makes directly to the office, so balances stay accurate and no one is over-contacted.

THE COST OF WAITING

Why lease arrears recover best while they're fresh

A commercial balance is most collectible while it's fresh — the tenant is still operating, the guaranty is enforceable, and the lease and ledger are at hand. Every month it ages, businesses close, principals scatter, and leverage erodes. The highest-leverage change a landlord can make isn't chasing harder — it's placing sooner.

THE AGE CURVE

Fresh balances (under ~90–120 days past due) resolve at materially higher rates; balances left a year or more — especially after a tenant closes — collect a fraction of that.

THE STANDING RULE

A simple "place at 90 days" policy on delinquent and former-tenant balances recovers more than letting them drift toward write-off — and on contingency there's no cost to placing.

Real placed-versus-recovered results from SWRS's commercial and property book, anonymized by sub-sector; individual client names withheld. Results vary by account age, balance size, guaranty and documentation; we give an honest, age-based read on a representative sample first.

We understand a commercial lease ledger

A multi-tenant retail center on triple-net leases creates a specific receivables profile. Our playbook is built for exactly that.

Base rent arrears

Current tenants behind on base rent — pursued professionally against the business and any guarantor, without disrupting a tenant you intend to keep.

CAM / NNN reconciliation balances

The triple-net pass-throughs — taxes, insurance, common-area maintenance — tenants dispute or ignore, validated against the reconciliation and recovered.

Former-tenant & lease-break balances

Holdover, early-termination and damage balances from vacated suites — worked against the tenant and its guarantors with commercial skip tracing.

Reputation-first & compliant

Firm, professional, B2B-appropriate contact that protects the center's reputation and the tenant relationships you want to keep.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

“Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.”

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
