Receivables Recovery for Law Firms

Recovering past-due legal fees for Campos Law Firm — in English and Spanish, with discretion, on pure contingency

Prepared for **Campos Law Firm** · October 2026

01 — INTRODUCTION

A recovery partner for the fees that go quiet

To Ana María and the team at Campos Law Firm — thank you for reaching out. You asked how we would work former-client balances that are 30 to 120+ days past due, in English and Spanish, without exposing anything about the underlying matter. This overview answers your questions in order.

Unpaid fees are a cash-flow problem and a relationship problem. Every past-due balance ties up money your firm has already earned, and the longer it sits, the harder it is to recover.

Southwest Recovery Services is an outsourced receivables recovery partner. We work each balance quietly and professionally, in the debtor's preferred language, and we only ever see a name, contact information, a balance and dates.

02 — AT A GLANCE

03 — YOUR QUESTIONS, ANSWERED

What a law firm asks us

Straight answers on language, coverage, privacy, fees and remittance.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
Fee structure	Pure contingency — $0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover. The rate is quoted once we have seen a representative sample of your accounts, and we send the written quote and sample service agreement for your legal review.
Spanish-language outreach	Our collectors include Spanish speakers, so debtors who prefer Spanish are contacted in Spanish.
Coverage & licensing	We work consumer accounts for debtors who live in states where SWRS is licensed, including Colorado and Florida. Oregon and Utah are outside our current footprint, so we scope placements by the debtor's state of residence.
Credit reporting	Credit reporting runs through Equifax and Experian where lawful. We confirm bureau coverage in the written quote.
Confidentiality	Share only name, contact information, balance and dates. Nothing about the matter is needed or requested. Before any account is worked, we agree handling rules with you: what is said, to whom, and what stays out of every message.
Placement & data handling	Accounts go in through our secure client portal, not email. Upload a spreadsheet and we map your columns, so there is no re-keying.
Remittance & reporting	Collected funds are remitted every 30 days under the service agreement, and you can run account and recovery reports in the portal at any time.
Compliance	Reg F-compliant outreach with FDCPA and TCPA guardrails on every account. ACA International member.

THE SWRS CLIENT PORTAL

Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your billing exports and give your team live, self-service access throughout recovery.

SPREADSHEET PLACEMENT

Upload a CSV or Excel export limited to name, contact, balance and dates — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send documents safely inside the portal, not over email.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

DIRECT-PAYMENT REPORTING

Log payments a client makes directly to your firm, so balances stay accurate and no one is over-contacted.

04 — CASE STUDIES

SWRS Case Studies — Law-Firm Fee Balances

Actual placed-versus-recovered results from law-firm clients with placements at least 12 months old, anonymized. Fee balances recover unevenly: across 55 such law-firm clients the median recovery is about 2%, and roughly four in ten recovered nothing. The last card below is one of those. We show the real range.

AGING MATTERS

Why fees recover best when they are fresh

A fee balance is most collectible while the matter and the relationship are recent. Every month it ages, contact information goes stale and the client's attention moves on.

THE AGE CURVE

Fresh accounts often resolve within weeks; balances that sit for a year or more recover a fraction of that.

THE STANDING RULE

Placing past-due fees on a fixed schedule recovers materially more than letting them drift — and on contingency there is no cost to placing.

Recovery varies by portfolio. SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

05 — BUILT FOR LAW-FIRM RECEIVABLES

Keeping fee recovery out of your day

Chasing fees pulls attorneys and staff away from client work, and an uncomfortable call can strain a relationship you want to keep. A recovery partner takes that off your desk and keeps you in control of how each account is handled.

Quiet, documented follow-up

Persistent multi-channel outreach on past-due fees, handled under rules you set and a record of every contact.

You decide the handling

Disputes, payment plans and write-offs stay your call; we act on your direction.

In your clients' language

Spanish-speaking collectors reach debtors who prefer Spanish, so more calls turn into conversations.

Only what is needed

We work from name, contact information, balance and dates. Nothing about the matter leaves your firm.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that reduces disputes and protects client relationships.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
