SWRS Southwest Recovery Services

Providing Creative Solutions to Common Problems

CONSUMER & DEALER RECEIVABLES RECOVERY · CAPABILITIES OVERVIEW

Receivables Recovery for Steel Building Manufacturers

Recovering past-due customer balances and dealer trade invoices — on pure contingency, with the lien route left open

Prepared for **Carports Anywhere** · September 2026

01 — INTRODUCTION

Two books, two recovery motions, one partner

To the Carports Anywhere accounting team — thank you for the detailed request. You carry two very different receivables at once: individual customers who took delivery and stopped paying, and dealers sitting on past-due trade invoices. They do not respond to the same treatment, and they do not sit under the same rulebook.

The consumer half is a compliance problem before it is a cash problem. An individual customer balance is regulated debt — FDCPA, Regulation F and state licensing all apply. The dealer half is the opposite: a commercial trade balance where speed and documentation decide the outcome.

Southwest Recovery Services is an outsourced receivables recovery partner working both classes on **pure contingency since 2004** — $0 upfront, no retainer, no minimum, no recovery no fee. **Placement never forecloses a lien, a bond claim or litigation** — recall the account free and pursue it.

02 — AT A GLANCE

Two decades of recovery — consumer and commercial, nationwide

A track record built across both regulated consumer balances and B2B trade receivables, with the licensing footprint and documented process a manufacturer selling direct and through dealers actually needs.

2004 Recovering commercial receivables since	**$1.0B+** Receivables placed (all industries)	**$79M+** Recovered for clients	**880K+** Accounts worked
51% of matured client portfolios see a recovery	**50** states — nationwide recovery reach	**4.9★** Google client rating	**$0** upfront — no recovery, no fee

Commercial & B2B collections since 2004 · **Nationwide — all 50 states** · **12 offices across 7 states** · **Skip tracing on businesses & principals** · **Contingency — no recovery, no fee**

03 — YOUR QUESTIONS, ANSWERED

Your questions — answered in order

Every point from your 9/30 request, answered directly. Rate percentages are quoted on the call once we have seen a representative sample of your aging, because the number depends on what is actually in the file.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1–3. Fee structure and fees	**Pure contingency — $0 upfront, no retainer, no monthly minimum, no setup fee, no per-account fee.** You pay a pre-agreed percentage only of what we recover. Consumer and dealer carry separate rates, and **rates do vary with age and balance**. Skip tracing, credit reporting, letters, calls, portal and reporting are included — nothing is billed separately. Legal escalation is the only exception: we bring it to you first, and court costs and any attorney arrangement are disclosed and approved by you in writing before filing.
4–5. When the fee is earned, and direct payments	The fee is earned on **any payment on a placed account received after placement**, including one paid directly to Carports Anywhere — our demand is usually what caused it. **Report direct payments within two business days** through the portal, by email, or on your remittance report. That stops a paying customer being contacted again and keeps the balance accurate for credit reporting.
6–7. Recall, cancellation, and the lien question	**Recall any account at any time; there is no recall or cancellation fee.** If you decide to file a lien, pursue a bond claim or litigate, recall it and the file comes back with our work product and contact data. The only amount ever owed is contingency on money already collected or paid to you after placement. **Placing does not waive or toll your lien rights** — flag live lien windows at placement and we prioritise them.
8. Settlement authority	**Yours, not ours.** The default is that we collect the full balance; nothing is settled or discounted without your prior approval unless you grant standing authority in writing. Many clients pre-authorise a defined band so small consumer balances can close on the phone. Payment plans follow the same rule and every arrangement is visible in the portal.
9. Credit reporting and skip tracing	**Both included in the rate.** Consumer reporting is furnished to **Equifax and Experian** under FCRA and Metro 2; it is a portfolio-level election at onboarding — on or off for the consumer book, not per account. Commercial balances are not consumer-reported. Skip tracing runs on both books, including the entity, successors and principals behind a dealer that has gone quiet.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
10–11. Licensing, documentation, minimums	Nationwide reach for **commercial and dealer** balances, which are not consumer debt. On the **consumer** side we are licensed and bonded where required and do not place accounts in **California, Oregon or Washington**; **Minnesota** is restricted. 12 offices across 7 states including Florida. **No minimum balance, no minimum age.** Per account: name, last known address, phone, email, the invoice or contract, and an itemised balance with date of last activity. Consumer adds the signed agreement and proof of delivery; dealers add the credit application and any **personal guaranty** — the single most valuable document in a dealer file.
12–13. Portal, reporting, dedicated rep, turnaround	You get a named client-services representative, not a queue. Every placement runs through the SWRS Client Portal: bulk placement from an aging export, secure document exchange, on-demand reporting, and direct-payment logging. **Outreach begins within 24 to 48 hours of a documented placement.** Remittance and statements run on a set monthly cycle.

THE SWRS CLIENT PORTAL

Place from your aging export, then watch it work

Every placement is managed through our secure portal — built to take an AR aging export and give your accounting team live, self-service visibility from placement through remittance.

BULK PLACEMENT FROM YOUR AGING

Upload an AR / aging export from Bill.com, NetSuite, QuickBooks or a spreadsheet — we map your columns, so there is no re-keying, and consumer and dealer accounts are split into separate work streams.

SECURE DOCUMENT EXCHANGE

Send contracts, invoices, delivery confirmations, credit applications and personal guaranties safely inside the portal — the documentation that decides a disputed balance.

REPORTING ON DEMAND

Run and export account status and recovery reports whenever you want them, rather than waiting for a monthly PDF.

DIRECT-PAYMENT REPORTING

Log payments a customer or dealer makes directly to Carports Anywhere, so balances stay accurate and nobody who has paid gets contacted again.

26% recovered

OVERHEAD DOOR MANUFACTURER & DEALER

Door systems

$20K recovered

of ~$150K placed

13% recovered

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

WHY THE LOW NUMBERS ARE LOW

Age at placement, not effort, decides the outcome

The two weakest results above are not different work — they are older files. No amount of pressure closes that gap. The highest-leverage change a manufacturer makes is not chasing harder; it is placing sooner.

THE AGE CURVE

Balances under roughly 90 days past due often resolve inside 30 to 60 days. A balance that has sat a year collects a fraction of that, because contact data goes stale and the customer has already decided not to pay.

THE STANDING RULE

A fixed policy — place at 90 days, every time, no exceptions — recovers materially more than letting balances drift toward write-off. On pure contingency there is no cost to placing early and no penalty for being wrong.

Recovery varies by portfolio. SWRS gives an honest, age-based read on a representative sample of your aging before any account is worked, and will tell you plainly if part of the file is not worth placing.

05 — BUILT FOR MANUFACTURERS SELLING DIRECT AND THROUGH DEALERS

One partner for both sides of your receivable

A steel building manufacturer carries a split book: regulated consumer balances from individual buyers, and trade balances from dealers. One partner keeps the compliance posture right on each and the reporting in one place.

Individual customer balances

Regulated consumer recovery under FDCPA and Regulation F — validation notices, documented contact, and outreach that protects the reputation of a company whose next sale comes from a neighbour's recommendation.

Dealer & reseller trade invoices

Commercial recovery with no FDCPA constraint: firm, fast demand, entity and principal skip tracing, and personal-guaranty enforcement when the dealer entity has gone dark.

Disputed and damaged-delivery claims

Documentation-driven validation using your contract, itemised invoice, delivery confirmation and permit correspondence — separating a genuine dispute from a stall.

Your remedies stay yours

Recall an account free at any time to file a lien, pursue a bond claim, or litigate. Placement is an addition to your options, never a substitute for them.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
