*Providing Creative Solutions to Common Problems*

COMMERCIAL & B2B RECOVERY · CAPABILITIES OVERVIEW

# Debt Collection Agency for Businesses

## Recovering past-due B2B invoices and aged receivables for ChampionX — on pure contingency

Prepared for **ChampionX** · July 2026

01 — INTRODUCTION

# A recovery partner for the receivables your team can’t finish

Prepared for ChampionX — for an oilfield-technology company, the hardest dollars to collect are the invoices that slip past terms: the slow-paying accounts, the disputed balances, and the aged receivables that a busy finance team simply doesn’t have the capacity to chase before they go cold.

**Money past terms is still money you earned.** Every month a receivable ages, contact data goes stale and leverage erodes — and internal AR teams can only chase so far before the cost of collection outweighs the balance.

Southwest Recovery Services is a commercial, B2B-focused collection agency working business receivables on **pure contingency since 2004**, nationwide across all 50 states. Place accounts through a secure portal that takes your AR export, and we work them. No recovery, no fee.

02 — AT A GLANCE

# Two decades of commercial recovery — nationwide

A track record built on high-volume B2B receivables and a documented, professional process.

03 — YOUR QUESTIONS, ANSWERED

# What a finance team asks us

The questions that matter for a commercial receivables book.

| YOUR QUESTION | SOUTHWEST RECOVERY SERVICES |
|---|---|
| **Fee structure** | Pure contingency — $0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover; the rate scales with the age, balance and volume of your placements. |
| **What we recover** | Past-due and disputed B2B invoices, aged trade receivables, unpaid service and subscription balances, and final billings — owed by business customers, dealers, and commercial accounts. |
| **Timing & aging** | Recovery falls sharply with age — ~85–90% at 30 days to ~23% at a year. Outreach begins within 24–48 hours of placement; placing promptly recovers materially more than letting balances sit. |
| **Disputed & slow-pay accounts** | A dispute or a slow-pay stall pauses recovery, it doesn't end it: we validate against the contract, PO and invoice and work it professionally, preserving the commercial relationship. |
| **Onboarding & placement** | Fast and low-lift — bulk-upload an AR / aging export from your accounting system through our portal; we map your columns, so there's no re-keying. |
| **Compliance & reach** | Nationwide across all 50 states from 12 offices in 7 states; documented, professional process; ACA International member; clean record since 2004. |

THE SWRS CLIENT PORTAL

## Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your AR-aging exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

### SYSTEM-READY PLACEMENT

Bulk-upload an AR / aging export from your accounting or billing system (CSV/Excel) — we map your columns, no re-keying.

### SECURE FILE EXCHANGE

Send contracts, invoices, statements and supporting records safely inside the portal, not over email.

### REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

### DIRECT-PAYMENT REPORTING

Log payments made directly to you, so balances stay accurate and no one is over-contacted.

THE DSO ADVANTAGE

## Why fresh balances recover best

A commercial balance is most collectible while it's fresh; every month it ages, contact data goes stale and leverage erodes.

### THE AGE CURVE

Fresh accounts (under ~90 days) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

### THE STANDING RULE

A fixed "place at 90 days" policy recovers materially more, and on contingency there's no cost to placing.

05 — BUILT FOR YOUR BOOK

# We speak your ledger

A commercial receivables book has a specific recovery profile. Our playbook is built for it.

### Aged trade receivables

Recovering invoices that slipped past terms — validated against your contract, PO and invoice.

### Disputed & slow-pay accounts

Documentation-driven recovery on disputes and slow-pay stalls, professionally worked.

### Skip tracing

Locating businesses and principals that have moved, rebranded or gone quiet.

### Nationwide reach

Recovery across all 50 states from 12 offices in 7 states.

06 — AI-POWERED COLLECTIONS

# Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

### AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

### Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

### Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

### Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

### API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

### Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

# Built by a collector with 30 years on the phones — not a CEO with zero collection experience

**Steven Dietz**

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
