SWRS Southwest Recovery Services

Providing Creative Solutions to Common Problems

PARKING RECEIVABLES RECOVERY · CAPABILITIES OVERVIEW

Debt Collection for Parking Operators

Recovering delinquent monthly-parking accounts — individual & commercial — on pure contingency

Prepared for **Chelnik Parking** · July 2026

01 — INTRODUCTION

A recovery partner for the monthly accounts that fall behind

To Charlie and the Chelnik Parking team — thank you for reaching out. A long-established Manhattan parking operation carries a steady book of monthly accounts, and a handful always slip: an individual monthly parker who stops paying but keeps the space, and commercial or corporate accounts that drift past terms. Chasing them from the booth is nobody's job — so the balance ages.

Delinquent monthly accounts aren't a booth problem — they're a cash-flow problem. Unpaid monthly parking, drive-offs on account, and commercial accounts past terms quietly age into write-offs while your team runs the garage day to day.

Southwest Recovery Services works parking and commercial receivables on **pure contingency since 2004**. We do the chasing so your attendants and office don't have to — **reputation-first** and fully compliant, with skip tracing to locate an account holder who's moved. Individual monthly parkers are worked as consumer accounts under FDCPA / Reg F; commercial and corporate accounts are worked as B2B. You place through a secure portal. No recovery, no fee.

02 — AT A GLANCE

Two decades of receivables recovery — nationwide

A documented, compliant recovery process a family-run operation can hand off completely — no software to buy, no collection calls from the office, no risk to the relationships you've built with your monthly parkers.

2004 Recovering commercial receivables since	**$1.0B+** Receivables placed (all industries)	**$79M+** Recovered for clients	**880K+** Accounts worked

03 — YOUR QUESTIONS, ANSWERED

The questions a parking operator asks — answered directly

Exactly how we work, in plain terms, before a single account is placed.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — $0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. Nothing comes out of pocket to start — if we don't collect, you owe nothing.
2. Individual monthly parkers vs. commercial accounts	Both. Individual monthly parkers who fell behind are worked as consumer accounts under FDCPA / Reg F; corporate, fleet and commercial accounts are worked as B2B with demand on the business and its principals. Same portal, one placement.
3. Will this hurt our relationships?	This matters for a neighborhood operation that runs on long-term monthly parkers, and it's how we're built. Recovery is professional and fully compliant — no threats, no misrepresentation. We represent Chelnik Parking respectfully, so a past-due parker is handled with care.
4. What about an account holder who moved?	Skip tracing to locate the individual or the commercial account's principals, then persistent, documented contact. Locating a parker who left the building is exactly where an outside agency outperforms the front office.
5. How do I hand off an account?	Low-lift. Send the account holder's name and contact, the balance owed, and the monthly agreement or ledger — a simple spreadsheet works. Upload it through our secure portal and outreach begins within 24–48 hours. No new software to learn.

THE SWRS CLIENT PORTAL

Simple hand-off and full visibility, on demand

Every account you place is managed through our secure portal — built so a busy operation can hand off a balance in minutes and check on it any time.

PLACEMENT IN MINUTES

Upload a simple spreadsheet or account record — parker, balance, contact and agreement. We map your columns; no special software or re-keying.

SECURE DOCUMENT EXCHANGE

Send the monthly agreement, ledger or account record safely inside the portal — the paper that settles a dispute fast.

REAL-TIME STATUS

Check what's been recovered and what's still in progress on demand — no phone tag.

DIRECT-PAYMENT REPORTING

If a parker pays the garage directly after you place the account, log it in a click so we stop contacting them and your books stay right.

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE COST OF WAITING

Why parking balances recover best while they're fresh

A monthly-account balance is most collectible while it's fresh — the parker's contact and payment details are current, the account is recent, and the relationship is intact. Every month it ages, people move, cards change, and the balance competes with newer bills. The highest-leverage move an operator can make isn't chasing harder — it's handing it off sooner.

THE AGE CURVE

Fresh balances (under ~90–120 days past due) resolve at materially higher rates; balances left a year or more collect a fraction of that once the parker is gone.

THE STANDING RULE

A simple "hand it off at 90 days" habit recovers more than letting balances drift toward write-off — and on contingency there's no cost to placing.

Real placed-versus-recovered results from SWRS's parking, transport and commercial-services book, anonymized by sub-sector; individual client names withheld. Results vary by account age, balance size and documentation; we give an honest, age-based read on a representative sample first.

05 — BUILT FOR PARKING OPERATORS

We understand a parking ledger

A monthly-account book with both individual and commercial parkers creates a specific receivables profile. Our playbook is built for exactly that.

Delinquent individual monthly parkers

Residents and individuals who kept the space but stopped paying — worked as consumer accounts under FDCPA / Reg F, with skip tracing when they move.

Commercial & corporate accounts

Corporate, fleet and business accounts drifting past terms — worked as B2B with persistent demand on the business and its principals.

Drive-offs & account balances

Balances left on account after a parker leaves the garage — located and pursued professionally before the trail goes cold.

Reputation-first & compliant

Respectful, compliant contact that protects a neighborhood operation's name and the long-term parkers you want to keep.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
