

Providing Creative Solutions to Common Problems

HOUSE-CLEANING RECEIVABLES RECOVERY · CAPABILITIES OVERVIEW

Debt Collection for Cleaning Services

Recovering unpaid cleans, cancelled recurring plans & move-out balances — on pure contingency

Prepared for **Mountain Meadow Maids** · July 2026

A recovery partner for the cleans that never get paid

To Todd and the Mountain Meadow Maids team — thank you for reaching out. A recurring residential cleaning business runs on trust and repeat visits, but a handful of accounts always slip through: a completed clean a customer never pays, a recurring plan that gets cancelled with a balance still owed, and move-out cleans billed to a realtor or property manager who goes quiet.

Unpaid cleans aren't just annoying — they're earned money walking out the door.

For a small, owner-run crew, chasing a past-due customer means time off the schedule and awkward calls that put your reviews and referrals at risk — so the balance quietly gets written off.

Southwest Recovery Services works exactly these balances on **pure contingency since 2004**. We do the chasing so you don't have to — **reputation-first**, fully compliant, and professional, because we know a past-due customer today can still refer a neighbor tomorrow. You send us the unpaid accounts through a secure portal; we handle the rest. No recovery, no fee.

Two decades of receivables recovery — nationwide

A documented, compliant recovery process a small owner-operated business can hand off completely — no software to buy, no collections calls to make, no risk to the name you've built.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked

The questions a cleaning-business owner asks — answered directly

Exactly how we work, in plain terms, before a single account is placed.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — \$0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. Nothing comes out of your pocket to get started — if we don't collect, you owe nothing.
2. Will this hurt my reviews and referrals?	This matters most for a small business that lives on reputation, and it's how we're built. Recovery is professional and fully compliant — no threats, no misrepresentation. We represent Mountain Meadow Maids the way you would, so a past-due customer is handled firmly but respectfully.
3. Is this compliant — these are my customers?	Yes. Residential balances are consumer debt, so every account is worked under FDCPA, Reg F and TCPA guardrails — documented and defensible. That protects you as much as it protects the customer.
4. What to place — and when	Completed cleans a customer never paid, cancelled or defaulted recurring-plan balances, and move-out / move-in cleans billed to a realtor, landlord or property manager who hasn't paid. Place at roughly 90 days past due — the sooner you hand it over, the more we recover.
5. How do I hand off an account?	Low-lift. Send us the customer name, contact info, what they owe and the invoice or job record — a simple spreadsheet or even a few emails work. Upload it through our secure portal and outreach begins within 24–48 hours. No new software to learn.

Simple hand-off and full visibility, on demand

Every account you place is managed through our secure portal — built so a busy owner can hand off a balance in minutes and check on it any time.

PLACEMENT IN MINUTES

Upload a simple spreadsheet or the job record — customer, balance, contact and invoice. We map your columns; no special software or re-keying.

REAL-TIME STATUS

Check what's been recovered and what's still in progress on demand — no phone tag, no waiting for a report.

SECURE DOCUMENT EXCHANGE

Send the invoice, quote or service record safely inside the portal — the paper that settles a dispute fast.

DIRECT-PAYMENT REPORTING

If a customer pays you directly after you place the account, log it in a click so we stop contacting them and your books stay right.

THE COST OF WAITING

Why unpaid cleans recover best while they're fresh

A balance is most collectible while the job is fresh — the clean was recent, the customer's contact details are current, and they remember the work you did. Every month it ages, people move, numbers change, and the balance competes with newer bills. The highest-leverage move a busy owner can make isn't chasing harder — it's handing it off sooner.

THE AGE CURVE

Fresh balances (under ~90–120 days past due) resolve at materially higher rates; balances left a year or more collect a fraction of that.

THE STANDING RULE

A simple “hand it off at 90 days” habit recovers more than letting balances drift toward write-off — and on contingency there's no cost to placing.

Real placed-versus-recovered results from SWRS's cleaning and home-services book, anonymized by sub-sector; individual client names withheld. Results vary by account age, balance size and documentation; we give an honest, age-based read on a representative sample first.

We understand a cleaning ledger

A recurring residential cleaning business creates a specific set of unpaid balances. Our playbook is built for exactly that.

Unpaid completed cleans

The clean got done and the customer never paid. We pursue the balance professionally so you don't have to make the awkward call.

Cancelled & defaulted recurring plans

Weekly / bi-weekly / monthly plans that were cancelled or lapsed with money still owed — worked exactly when they break.

Move-out cleans billed to realtors & PMs

Move-in / move-out jobs billed to a realtor, landlord or property manager who went quiet — pursued with persistent, documented demand.

Reputation-first & compliant

Professional, FDCPA-compliant contact that protects a small business's name and the reviews and referrals you depend on.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

“Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.”

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
