

Providing Creative Solutions to Common Problems

HVAC & PLUMBING TRADE RECEIVABLES • CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering unpaid HVAC & plumbing invoices from customers who've stopped responding — on pure contingency

Prepared for **Pronto Service Pros** • September 2026

A recovery partner for the invoices your office can't get answered

To the Pronto Service Pros team — you told us the problem plainly: customers who haven't paid their invoices and have stopped returning your office's calls. That's the exact account we work every day — the service or install that's finished, the balance that's aged past terms, and the customer who has simply gone quiet.

Unpaid HVAC & plumbing invoices aren't an office problem — they're a cash-flow problem. Every balance that drifts past 60 or 90 days ties up money you've already earned in labor, equipment and truck rolls, and quietly edges toward a write-off.

Southwest Recovery Services is an outsourced receivables recovery partner working business and consumer balances on **pure contingency since 2004**, with recovery reach across all 50 states. You place accounts through a secure portal that takes an export from HousecallPro, QuickBooks or your billing system, and we work them. No recovery, no fee.

Two decades of trade-AR recovery — nationwide

A track record built on high-volume service-industry receivables and a documented, compliant process — the recovery arm a growing Tampa Bay contractor can add without hiring a collections desk.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked
52% of placed accounts see a recovery	50 states — nationwide recovery reach	4.9★ Google client rating	\$0 upfront — no recovery, no fee

The questions a contractor actually asks — answered directly

What happens to the invoices you hand us, in plain terms, for an HVAC and plumbing book that runs both residential and commercial work.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — \$0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. The rate scales with the age, balance and volume of what you place; we quote it once we've seen a representative sample of your aging.
2. Customers who've gone silent	This is the core of what we do. Persistent, compliant multi-channel outreach, plus skip tracing to re-locate a customer — or the business behind a commercial account — that has moved, changed numbers or stopped answering. A demand on third-party letterhead alone resolves a meaningful share of accounts your office can no longer reach.
3. "I'm not paying — the work was wrong"	A dispute pauses recovery, it doesn't end it. We validate the balance against your paper — the signed estimate or work order, the itemized invoice, service notes and photos — and talk to both sides. For trade work that documentation is usually decisive; a genuine dispute is separated from a stall tactic and worked accordingly.
4. Residential and commercial, together	Both lanes, one partner. Residential homeowner balances are worked under full FDCPA / Reg F consumer rules; commercial balances owed by GCs, property managers and businesses are worked as B2B trade AR. You don't split the book across two vendors.
5. Onboarding & placement	Fast and low-lift. Bulk-upload an aging export from HousecallPro, QuickBooks or your billing system through our portal — we map your columns, so your office isn't re-keying invoices. Outreach begins within 24–48 hours of a documented placement.

**THE SWRS CLIENT
PORTAL**

Billing-system-ready intake and full visibility, on demand

Every placement runs through our secure portal — built to take your aging exports and give your office live, self-service visibility throughout recovery.

BILLING-SYSTEM-READY PLACEMENT

Upload an aging export from HousecallPro, QuickBooks or your billing system — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send signed estimates, work orders, invoices and service photos safely inside the portal — the documentation that resolves disputes fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — live status on every placed balance.

DIRECT-PAYMENT REPORTING

Log payments a customer makes directly to Pronto, so balances stay accurate and no one is over-contacted.

SWRS Trade & Contractor Recovery Case Studies

Actual placed-versus-recovered results from Southwest Recovery's trade-services book — HVAC, plumbing, mechanical and construction — anonymized by sector. A fresh book like yours (most balances 31–90 days) behaves like the high end of this range; the low performers below are older, thinner-documented placements.

HVAC & MECHANICAL

CONTRACTOR

Commercial mechanical & HVAC

\$16K recovered

of ~\$18K placed

\$116K recovered

of ~\$645K placed

18% recovered

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE AGE CURVE**Why placing at 90 days beats waiting**

A trade balance is most collectible while it's fresh — the customer still remembers the job, the contact data is still good, and the leverage is still there. Every month it ages, all three erode. Your book is mostly 31–90 days, which is exactly the window where recovery is strongest.

FRESH VS. AGED

Accounts under ~90 days past due often resolve in 30–60 days; balances left to sit a year collect a fraction of that.

A STANDING RULE

A fixed “place at 90 days” policy recovers materially more than letting balances drift toward write-off — and on contingency there's no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

Cutting the days between the job finishing and the invoice clearing

Days Sales Outstanding measures how long finished work sits as a receivable before it becomes cash. For a service contractor carrying both truck-roll balances and larger install and commercial invoices, every month past terms erodes both recoverable value and the working capital you need to run the next job.

Non-responsive customers

Skip tracing on the customer and, for commercial work, the business and its principals — plus persistent, compliant multi-channel demand for the accounts your office can no longer reach.

Disputed & contested invoices

Documentation-driven validation — signed estimates, work orders, service photos — that separates a genuine warranty dispute from a stall tactic.

Every trade balance type

Service-call invoices, install and replacement balances, maintenance-agreement dues and larger commercial job receivables — one partner, one portal.

Florida & nationwide reach

Recovery across all 50 states from 12 offices in 7 states — your Tampa Bay book and any out-of-area commercial customers, worked the same way.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
