

Providing Creative Solutions to Common Problems

PROPERTY-MANAGEMENT RECOVERY • CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering written-off move-out and eviction balances for McWright Property Management — and reporting bad-debt tenants to Experian RentBureau, on pure contingency

Prepared for **McWright Property Management** • July 2026

A recovery partner for the balances that walk out at move-out

Prepared for McWright Property Management — you already screen tenants, collect rent, and handle evictions in-house for 600+ owners across the Jacksonville area. This is about what's left when a tenant is gone: the back rent, the damage beyond the deposit, and the broken-lease fees that survive the eviction and get written off.

Every written-off balance is your owner's money left on the table. Once a tenant is evicted or skips, the contact info on file goes stale fast and the balance quietly becomes a loss — on unit after unit, across 600+ owners, it adds up.

Southwest Recovery Services works property and multifamily receivables on **pure contingency since 2004** — recovering move-out and skip balances, skip-tracing former tenants nationwide, and reporting bad-debt tenants to **Experian RentBureau**, the database landlords screen against. We're the layer *after* your eviction, not a replacement for anything you do. Place accounts through a secure portal that takes your ledger export. No recovery, no fee.

Two decades of property recovery — nationwide

The recovery capacity a busy management office can plug in without hiring for it — documented, compliance-first, and paid only on results.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked
52% of placed accounts see a recovery	50 states — nationwide recovery reach	4.9★ Google client rating	\$0 upfront — no recovery, no fee

Commercial & B2B collections since 2004

Nationwide — all 50 states

12 offices across 7 states

Skip tracing on businesses & principals

Contingency — no recovery, no fee

ACCREDITED & RECOGNIZED

What a property manager asks us

The questions that matter for a scattered-site, multi-owner rental book.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
Fee structure	Pure contingency — \$0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover. Multifamily / eviction placements run 20–50% depending on age, balance and volume; general property 10–25%. We quote against a representative sample of your accounts.
What we recover	Unpaid back rent, damage beyond the security deposit, broken-lease and early-termination fees, unpaid utilities and late fees — from tenants who were evicted, skipped, or moved out owing a balance.
Skip tracing	Former tenants move on and go quiet. We run nationwide skip tracing to locate them and any guarantors, so an account that went cold after move-out becomes collectible again.
Credit-bureau reporting	We report qualifying bad-debt tenants to Equifax and Experian — plus Experian RentBureau , the rental-payment database landlords screen against. It recovers this balance and deters the next skip — a no-charge value-add you can put in front of all 600+ of your owners.
Onboarding & placement	Fast and low-lift — bulk-upload a move-out / ledger export from your PM system through our portal; we map your columns, no re-keying. A standing “place at move-out” rule recovers materially more than letting balances sit.
Compliance	FDCPA / Regulation F on consumer (tenant) accounts — validation, call-frequency limits, the 30-day dispute window. Florida is in our licensed footprint, and our process stays professional so recovery never reflects poorly on the McWright name.

Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your PM-ledger / move-out exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

SYSTEM-READY PLACEMENT

Bulk-upload a move-out / ledger / aging export from your PM system (CSV/Excel) — we map your columns, no re-keying.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard you and your owners can see, not a monthly summary.

SECURE FILE EXCHANGE

Send leases, ledgers, move-out statements and damage documentation safely inside the portal, not over email.

DIRECT-PAYMENT REPORTING

Log payments a former tenant makes directly to you, so balances stay accurate and no one is over-contacted.

VALUE-ADD**

We report to Experian RentBureau — the database landlords screen against

This is the difference-maker for a property manager. Beyond reporting to Equifax and Experian, we furnish your bad-debt tenants to Experian RentBureau — the largest rental-payment database (9M+ residents; 3,000+ communities), updated every 24 hours.

IT RECOVERS

A former tenant who wants to rent their next place has a real reason to clear the balance they left with your owner.

IT DETERS

When tenants know a move-out balance follows them into the database every landlord screens, they think twice before skipping.

Included at no additional charge on qualifying placements — a benefit you can offer every one of your 600+ owners.

We speak your ledger

A scattered-site, multi-owner rental book — residential, multifamily and commercial — has a specific recovery profile. Our playbook is built for it.

Move-out & eviction recovery

Back rent, damage beyond deposit, and broken-lease fees — validated against the lease and ledger, worked on contingency.

Skip tracing

Nationwide tracing of tenants who left the area owing a balance, plus guarantors where they exist.

Experian RentBureau reporting

The no-charge value-add that recovers the balance and deters the next skip — offered across all your owners.

High-volume, low-lift placement

Many small ledger balances cleared in volume through one portal, on pure contingency.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

“Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.”

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
