Debt Collection Agency for Businesses

Recovering past-due contractor receivables for Green City Inc. — on pure contingency

Prepared for **Green City Inc.** · October 2026

01 — INTRODUCTION

A recovery partner for the invoices that go quiet after the work is done

To Yalda Gewargis and the Green City team — thank you for reaching out about a past-due commercial balance. Construction and infrastructure receivables are some of the hardest to chase: the work is in the ground, the crew has moved to the next site, and the balance goes quiet while the project closes out.

A past-due invoice on finished work is a cash-flow problem, not a relationship problem. Every month it sits, contact data goes stale and your leverage erodes.

Southwest Recovery Services is a commercial, B2B-focused outsourced receivables recovery partner working business receivables on **pure contingency since 2004**. You place accounts through a secure portal that takes your statement of account or AR export, and we work them. No recovery, no fee.

02 — AT A GLANCE

Two decades of recovery — nationwide

A track record built on high-volume B2B receivables — and an honest read on how your sector behaves.

2004 Recovering commercial receivables since	**$1.0B+** Receivables placed (all industries)	**$79M+** Recovered for clients	**870K+** Accounts worked
52% of placed accounts see a recovery	**50** states — U.S. recovery reach	**4.9★** Google client rating	**$0** upfront — no recovery, no fee

- Commercial & B2B collections since 2004
- All 50 U.S. states · cross-border case by case
- 12 offices across 7 states
- Unparalleled legal research gateway
- Contingency — no recovery, no fee
- Free case review

03 — YOUR QUESTIONS, ANSWERED

Your six questions — answered directly

Exactly what you asked, in your numbering, plus the one thing we want to be straight about up front: your debtor is in Ontario.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fees	Pure contingency — $0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover. The rate scales with the size, age and documentation of the balance, and we quote it once we've seen your statement of account.
2. Legal escalation	Accounts that stay silent after compliant outreach are reviewed for legal escalation through our attorney network. Who advances court and legal costs depends on the jurisdiction and the file, and is agreed with you before any action is taken. For an Ontario debtor, we confirm the counsel and cost structure with you first.
3. Timeline	Outreach begins within 24–48 hours of a documented placement. Fresh accounts (under ~90 days past due) often resolve in 30–60 days; a dispute can add 30–60 days of validation; accounts that stay silent move to legal review.
4. Recovery expectancy	It depends on age, size and paper. In SWRS's contractor and trade-services book, roughly a third of clients recover 30% or more and about half recover under 10% — the case studies below show the real spread. We give an age-based read on your statement before any account is worked, and never guarantee an outcome.
5. Construction experience & references	Contractor and trade clients are a core part of our commercial book — see the placed-versus-recovered results below. Commercial client references are available on request through your SWRS representative.
6. Contract terms	A straightforward placement agreement. Term length, renewal and your right to withdraw a file are walked through on the call and confirmed in writing before you place anything — no obligation while you're comparing options.
Geography & cross-border	Recovery reach is nationwide across all 50 U.S. states. Your debtor is in Ontario: we scope U.S. accounts first and handle Canadian balances through our legal-forwarding network case by case — and we'll tell you plainly, before you commit, whether this file is one we can work.

THE SWRS CLIENT PORTAL

Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

SYSTEM-READY PLACEMENT

Bulk-upload an AR / aging export from your billing or ledger system (CSV/Excel) — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send agreements, invoices, statements and supporting records safely inside the portal, not over email.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

DIRECT-PAYMENT REPORTING

Log payments a customer makes directly to you, so balances stay accurate and no one is over-contacted.

5% recovered

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE DSO ADVANTAGE

Why fresh balances recover best

A balance is most collectible while it's fresh; every month it ages, contact data goes stale and leverage erodes. The highest-leverage change most teams make isn't chasing harder — it's placing sooner.

THE AGE CURVE

Fresh accounts (under ~90 days past due) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

THE STANDING RULE

A fixed "place at 90 days" policy recovers materially more than letting balances drift toward write-off — and on contingency there's no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

05 — BUILT FOR CONTRACTORS & BUILDERS

Cutting the days between billed and banked

Days Sales Outstanding measures how long work sits as a receivable before it becomes cash. Every month past terms erodes both recoverable value and working capital.

Non-responsive accounts

Commercial skip tracing on the business and its principals, plus persistent multi-channel demand for customers who've gone silent.

Disputed invoices

Documentation-driven validation — contracts, invoices, delivery records — that separates a genuine dispute from a stall tactic.

Every commercial balance type

Trade invoices, progress billings, service and license fees — one partner, one portal.

Nationwide reach

Recovery across all 50 states from 12 offices in 7 states.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
