SWRS Southwest Recovery Services

Providing Creative Solutions to Common Problems

ROOFING & CONTRACTOR RECEIVABLES · CAPABILITIES OVERVIEW

Debt Collection for Roofing Contractors

Recovering insurance-claim balances, commercial net-terms invoices & financed re-roof receivables — on pure contingency

Prepared for **Ashburn Roofing** · July 2026

01 — INTRODUCTION

A recovery partner for the balances that stall after the roof is on

To Danny and the Ashburn Roofing team — thank you for the conversation so far. A busy, 5-star roofing operation carries a specific kind of past-due dollar: the homeowner deductible or supplement left after the insurance claim, the commercial and property-manager accounts billed on net terms, and financed re-roofs where the balance quietly slips.

Unpaid roofing invoices aren't a crew problem — they're a cash-flow problem. An insurance-claim deductible, a commercial re-roof on net terms, or a financed balance that falls through ties up money you've already earned and quietly ages into a write-off while your crews stay booked.

Southwest Recovery Services works roofing and contractor receivables on **pure contingency since 2004** — and we do it **reputation-first**: firm, professional, and protective of the 5-star name you've built. Skip tracing on both the business and its principals when an account goes quiet. You place accounts through a secure portal that takes an A/R aging export, and we work them. No recovery, no fee.

02 — AT A GLANCE

Two decades of commercial recovery — nationwide

A documented, compliant recovery process a busy contractor can plug in without pulling the office off scheduling and billing — and without risking the reputation you've earned.

2004 Recovering commercial receivables since	**$1.0B+** Receivables placed (all industries)	**$79M+** Recovered for clients	**880K+** Accounts worked

03 — YOUR QUESTIONS, ANSWERED

The questions a roofer asks — answered directly

Exactly how we work, in plain terms, before a single account is placed.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — $0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. The rate scales with the age and size of the balances; we quote your rate once we see a representative sample of your A/R.
2. Insurance-claim & deductible balances	The claim pays, but the homeowner deductible or an approved supplement goes unpaid — a classic roofing gap. We validate against the claim scope, contract and completion docs, then pursue the balance professionally.
3. "The roof's done but they won't pay"	A dispute pauses recovery — it doesn't end it. We validate the account against your signed contract, invoice, photos and warranty terms and work both sides. For completed roofing work, that documentation is usually decisive.
4. Commercial & property-manager accounts	Net-terms commercial re-roofs and repairs for businesses and property managers that go quiet after the job — worked with persistent multi-channel demand plus commercial skip tracing on the business and its principals.
5. Onboarding & placement	Low-lift. Export an A/R aging report from your system (AccuLynx, JobNimbus, Payzer, QuickBooks, or similar) or a simple spreadsheet, and upload it through our secure portal — we map your columns, no re-keying. Outreach begins within 24–48 hours of a documented placement.

THE SWRS CLIENT PORTAL

Billing-system-ready intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your A/R export and give your office live, self-service visibility throughout recovery.

BILLING-SYSTEM-READY PLACEMENT

Upload an A/R aging export from AccuLynx, JobNimbus, Payzer or QuickBooks — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send contracts, invoices, claim scopes and roof photos safely inside the portal — the documentation that resolves disputes fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live view of what's been recovered.

DIRECT-PAYMENT REPORTING

Log payments a customer makes directly to Ashburn, so balances stay accurate and no one is over-contacted.

OUTDOOR / SITE CONTRACTOR

Landscape & outdoor solutions

$15K recovered

of ~$16K placed

97% recovered

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE COST OF WAITING

Why roofing balances recover best while they're fresh

A roofing balance is most collectible while it's fresh — the job is recent, the homeowner or property is easy to reach, and the contract, claim scope and photos are at hand. Every month it ages, people move and leverage erodes. The highest-leverage change a contractor can make isn't chasing harder — it's placing sooner.

THE AGE CURVE

Fresh balances (under ~90–120 days past due) resolve at materially higher rates — the 80–97% recoveries above — while balances left a year or more collect a fraction of that.

THE STANDING RULE

A simple "place at 90 days" policy recovers materially more than letting invoices drift toward write-off — and on contingency there's no cost to placing.

Real placed-versus-recovered results from SWRS's trade-contractor book, anonymized by trade; individual client names withheld. Results vary by account age, balance size and documentation quality; we give an honest, age-based read on a representative sample before any accounts are worked.

05 — BUILT FOR ROOFING CONTRACTORS

We understand a roofing ledger

A residential + insurance + commercial roofing book creates a specific receivables profile. Our playbook is built for exactly that.

Insurance-claim & deductible balances

Homeowner deductibles and approved supplements left after the carrier pays — validated against the claim scope and contract, then recovered.

Commercial & property-manager net-terms

B2B re-roofs and repairs billed on net terms that go quiet after the job — the accounts where balances concentrate.

Financed re-roofs & homeowner balances

Financing fallout (Acorn / Hearth) and unpaid homeowner balances a busy shop can't chase — worked in bulk, compliantly.

Reputation-first & compliant

Firm, professional, FDCPA/Reg F-compliant contact that recovers the balance without risking the 5-star name you've built.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
