SWRS Southwest Recovery Services

Providing Creative Solutions to Common Problems

MEDICAL PRACTICES RECOVERY · CAPABILITIES OVERVIEW

Receivables Recovery for Medical Practices

Recovering self-pay patient balances for Integro Health — on pure contingency

Prepared for **Integro Health** · November 2026

01 — INTRODUCTION

A recovery partner for the balances that go quiet after care

Prepared for Integro Health — a plain-English look at how SWRS recovers outstanding self-pay patient balances on a pure contingency basis, with nothing due upfront. It follows the questions Rebecca sent us, so you can see how an account is handled from placement to resolution.

Patient balances are a recovery problem, not a billing problem. Every balance that sits after the visit erodes toward write-off while your front desk carries the follow-up.

Southwest Recovery Services recovers patient and payer balances on **pure contingency since 2004**, under a Business Associate Agreement, nationwide. Place accounts through a secure portal that takes your practice-management export, and we work them with dignity and discretion. No recovery, no fee.

02 — AT A GLANCE

Two decades of recovery — nationwide

Here is the short version of how SWRS works with a functional medicine clinic like yours.

2004 Recovering commercial receivables since	**$975M+** Receivables placed (all industries)	**$76M+** Recovered for clients	**800K+** Accounts worked
52% of placed accounts see a recovery	**50** states — nationwide recovery reach	**4.9★** Google client rating	**$0** upfront — no recovery, no fee

- Commercial & B2B collections since 2004
- Nationwide — all 50 states
- 12 offices across 7 states
- Unparalleled legal research gateway
- Contingency — no recovery, no fee
- Free case review

03 — YOUR QUESTIONS, ANSWERED

What a practice asks us first

These are the questions practices ask before they place a patient balance with an outside partner, answered directly.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
How patients are treated	Dignity and discretion first. Every contact is scripted for a patient, not a debtor: no pressure, clear options, payment plans, and a person to talk to. The practice's reputation is protected on every call.
Fee structure	Pure contingency — $0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover; the rate scales with the age, balance and volume of placements. We quote against a representative sample.
Compliance & privacy	We operate under a Business Associate Agreement, with staff trained on HIPAA, FDCPA and Regulation F. Credit reporting to Equifax and Experian only where state law allows.
Timing & aging	Recovery falls sharply with age. Outreach begins within 24–48 hours of placement; a standing "place at 90 days" rule recovers materially more than letting balances sit.
Disputed balances & insurance	A dispute pauses recovery, it doesn't end it: we validate against the itemized statement and EOB and resolve it professionally. Insurance follow-up is available as an additional service.
Onboarding & placement	Fast and low-lift — bulk-upload a patient-balance export through our portal; we map your columns, so there's no re-keying.

THE SWRS CLIENT PORTAL

Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

PM-SYSTEM-READY PLACEMENT

Bulk-upload a patient-balance export from your practice-management or billing system — we map your columns, no re-keying.

SECURE, HIPAA-AWARE FILE EXCHANGE

Send statements, itemized bills and supporting records inside the portal under our Business Associate Agreement.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

DIRECT-PAYMENT REPORTING

Log payments a patient makes directly to the practice, so balances stay accurate and no one is over-contacted.

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

WHY TIMING MATTERS

Why fresh balances recover best

A patient balance is most recoverable while the visit is recent; every month it ages, contact data goes stale and the relationship cools.

THE AGE CURVE

Fresh balances (under ~90 days) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more than letting balances drift — and on contingency there’s no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

05 — BUILT FOR MEDICAL PRACTICES

Recovery that protects the patient relationship

SWRS has been an outsourced receivables recovery partner since 2004, and self-pay healthcare balances are a core part of that work. Our approach is designed for practices where the patient relationship matters as much as the balance.

Self-pay & residual balances

Deductibles, co-insurance and balances after insurance, worked with payment plans and clear options.

Disputed & insurance-tangled accounts

Validation against the itemized statement and EOB, with insurance follow-up available as an additional service.

Every balance type

Self-pay, no-show and cancellation fees, plan balances and aged write-offs — one partner, one portal.

Nationwide, HIPAA-aware

Recovery across all 50 states from 12 offices in 7 states, under a Business Associate Agreement.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier, more respectful contact and fewer disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
