

REVENUE-CYCLE RECOVERY · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering patient balances and stalled claims for
Hospital for Special Surgery — compliantly, on pure
contingency

Prepared for **Hospital for Special Surgery** · July 2026

The recovery layer for what your billing process couldn't close

Prepared for Hospital for Special Surgery — net revenue leaks at the end of the revenue cycle, in the patient balances and denied, underpaid or stalled claims that survive billing and age past the point an internal business office can work them.

This is the last stage of the revenue cycle, not the first. Coding, claim submission and adjudication are your billing team's and RCM platform's job; the balances that survive that process are where net revenue quietly leaks. A patient balance worked at 60 days resolves at a far higher rate than the same balance at 300.

Southwest Recovery Services is the recovery layer that works those balances — patient A/R, insurance follow-up and bad debt — HIPAA-compliant and on pure contingency since 2004. We resolve what billing couldn't: no retainer, no setup fee, no recovery no fee. We complement your RCM platform; we do not replace it.

Two decades of receivables recovery — nationwide, HIPAA-compliant

The recovery capacity a stretched revenue-cycle team can plug in without hiring for it — documented, compliance-first, and paid only on results.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked
52% of placed accounts see a recovery	50 states — nationwide recovery reach	4.9★ Google client rating	\$0 upfront — no recovery, no fee

Commercial & B2B collections since 2004

What a revenue-cycle team asks us

The questions that matter when the goal is recovering net revenue, not running billing.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
Fee structure	Pure contingency — \$0 upfront, no retainer, no setup or per-account fee. You pay a percentage only of what we actually recover, so it's a variable-cost backstop to your revenue cycle.
What we recover	We're the recovery layer, not billing: post-insurance patient responsibility (copays, deductibles, coinsurance), self-pay and aged guarantor balances, and denied, underpaid or pending claims — resolving what the billing process could not.
Insurance follow-up & appeals	We track each payer's filing and appeal deadlines, follow the required resolution path, and escalate before the recovery window closes — recovering earned net revenue that stalled on the claim side.
Early-out & recovery timing	A balance worked at 60 days resolves far higher than at 300. Early-out (30–90 days) plus prompt bad-debt placement recover materially more than balances left to sit; outreach begins within 24–48 hours.
Compliance	HIPAA under a Business Associate Agreement (minimum-necessary PHI); FDCPA / Reg F on patient accounts; current on evolving state medical-debt credit-reporting rules — furnishing only where lawful.
Onboarding & placement	Bulk-upload a patient-A/R / aging export from your billing system through our secure portal; we map your columns, no re-keying — a backstop to your RCM, not a replacement.

Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your billing / AR-aging exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

SYSTEM-READY PLACEMENT

Bulk-upload an AR / aging export from your billing or ledger system (CSV/Excel) — we map your columns, no re-keying.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

SECURE FILE EXCHANGE

Send agreements, invoices, statements and supporting records safely inside the portal, not over email.

DIRECT-PAYMENT REPORTING

Log payments a debtor makes directly to you, so balances stay accurate and no one is over-contacted.

THE EARLY-OUT ADVANTAGE

Why early placement recovers more

For patient AR, the age of the balance is the strongest predictor of recovery — contact data goes cold and patients disengage as accounts age.

THE AGE CURVE

Fresh balances recover a large multiple of aged ones; the decline is steep and does not reverse.

EARLY-OUT + BAD DEBT

An early-out program on fresh balances plus prompt bad-debt placement, worked in parallel, recovers materially more than a single late hand-off.

We speak revenue cycle

Patient and payer AR has a specific recovery profile. Our playbook is built for it, inside HIPAA.

Self-pay & patient responsibility

Compliant, professional recovery of post-insurance balances that protects the patient relationship.

Compliance-first

HIPAA + FDCPA / Reg F on every account, current on state medical-debt rules.

Skip tracing

Re-locating responsible parties whose contact data has gone stale.

Nationwide reach

Recovery across all 50 states from 12 offices in 7 states.

Built by an operator — not a call center

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Southwest Recovery Services was founded in 2004 by Steven Dietz — but the idea started a decade earlier. Working his way up through credit management and corporate collections across Texas, he kept asking why the industry had such a bad reputation, and became convinced there was a better way to get businesses paid: one built on listening and respect rather than aggressive calls and empty threats.

He built SWRS on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and refines the process personally.

“Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services

In healthcare, recovery has to preserve the patient relationship and represent Hospital for Special Surgery professionally — firm, compliant, and never harassing. That protects your reputation as much as it recovers the balance.
