

Providing Creative Solutions to Common Problems

COMMERCIAL & B2B RECOVERY · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering past-due B2B receivables for Hytrol — on pure contingency

Prepared for **Hytrol** · July 2026

A recovery partner for the invoices that go past due

Prepared for Hytrol — the receivables a business works hardest to collect are the ones a customer lets drift after the goods or services are delivered: trade invoices aging past terms, disputed balances, and accounts that simply go quiet.

Past-due receivables are a cash-flow and DSO problem. Every invoice past terms ties up working capital you've earned and drifts toward write-off.

Southwest Recovery Services is a commercial, B2B-focused collection agency working business receivables on **pure contingency since 2004**, nationwide across all 50 states. Place accounts through a secure portal that takes your AR export, and we work them. No recovery, no fee.

Two decades of commercial recovery — nationwide

A track record built on high-volume B2B receivables and a documented, professional process.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked
52% of placed accounts see a recovery	50 states — nationwide recovery reach	4.9★ Google client rating	\$0 upfront — no recovery, no fee

Commercial & B2B collections since 2004

Nationwide — all 50 states

12 offices across 7 states

Skip tracing on businesses & principals

Contingency — no recovery, no fee

What a finance team asks us

The questions that matter for a commercial receivables book.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
Fee structure	Pure contingency — \$0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover; the rate scales with the age, balance and volume of your placements. We quote against a representative sample of your accounts.
What we recover	Unpaid trade invoices, progress and milestone billings, service and license fees, and any past-due B2B balance — from current customers, slow payers and closed accounts alike.
Timing & aging	Recovery falls sharply with age — ~85–90% at 30 days to ~23% at a year. Outreach begins within 24–48 hours of placement; a standing “place at 90 days” rule recovers materially more.
Disputed & non-responsive accounts	A dispute pauses recovery, it doesn’t end it: we validate against the paper and work it professionally. For silent accounts, persistent multi-channel outreach plus commercial skip tracing on the business and its principals.
Onboarding & placement	Fast and low-lift — bulk-upload an AR / aging export through our portal; we map your columns, so there’s no re-keying.
Compliance & reach	Nationwide across all 50 states from 12 offices in 7 states; documented, professional process; ACA International member; clean record since 2004.

Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your billing / AR-aging exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

SYSTEM-READY PLACEMENT

Bulk-upload an AR / aging export from your billing or ledger system (CSV/Excel) — we map your columns, no re-keying.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

SECURE FILE EXCHANGE

Send agreements, invoices, statements and supporting records safely inside the portal, not over email.

DIRECT-PAYMENT REPORTING

Log payments a debtor makes directly to you, so balances stay accurate and no one is over-contacted.

THE DSO ADVANTAGE**Why fresh invoices recover best**

A commercial balance is most collectible while it's fresh; every month it ages, contact data goes stale and leverage erodes.

THE AGE CURVE

Fresh accounts (under ~90 days) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more than letting balances drift — and on contingency there's no cost to placing.

We speak your ledger

A commercial receivables book has a specific recovery profile. Our playbook is built for it.

Non-responsive accounts

Skip tracing on the business and its principals plus persistent multi-channel demand for customers who've gone silent.

Disputed & contested invoices

Documentation-driven validation that separates a genuine dispute from a stall tactic.

Every commercial balance

Trade invoices, milestone billings, service and license fees — one partner, one portal.

Nationwide reach

Recovery across all 50 states from 12 offices in 7 states.

Built by an operator — not a call center

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Southwest Recovery Services was founded in 2004 by Steven Dietz — but the idea started a decade earlier. Working his way up through credit management and corporate collections across Texas, he kept asking why the industry had such a bad reputation, and became convinced there was a better way to get businesses paid: one built on listening and respect rather than aggressive calls and empty threats.

He built SWRS on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and refines the process personally.

“Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services

Firm, effective recovery has to stay professional — no threats, no misrepresentation. That protects the customer relationship, protects the Hytrol name, and protects you from the liability that sloppy collections create.
