SWRS Southwest Recovery Services

Providing Creative Solutions to Common Problems

COMMERCIAL & B2B SAAS RECOVERY · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering past-due subscription invoices from professional-services customers — on pure contingency

Prepared for **Filed** · November 2026

01 — INTRODUCTION

A recovery partner for the few accounts that matter

To the Filed finance and operations team — a small number of accounts each year, $4,000 to $40,000 apiece, backed by a signed order form and 30 to 90 days past due. On a book that size, clean documentation and a measured, professional approach matter far more than volume.

On annual contracts billed monthly, a stalled account is a cash-flow problem, not a support ticket. Each one ties up revenue you have already earned, and the longer it ages the harder it is to collect.

Southwest Recovery Services is an outsourced receivables recovery partner working business receivables on **pure contingency since 2004**, with recovery reach across all 50 states. You place accounts through a secure portal that takes your billing or AR-aging export, and we work them. No recovery, no fee.

02 — AT A GLANCE

Two decades of commercial recovery — nationwide

A documented, professional process built on high-volume B2B receivables — scale a lean finance team can plug in without hiring for it.

2004 Recovering commercial receivables since	**$1.0B+** Receivables placed (all industries)	**$79M+** Recovered for clients	**880K+** Accounts worked

03 — YOUR QUESTIONS, ANSWERED

Your questions — answered directly

Taken in the order you asked them, with the details that matter for a small book of subscription accounts.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
Fees & litigation	Pure contingency — $0 upfront, no retainer, no setup fee, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. We quote your rate once we have seen a representative sample of your aging, and we walk through any legal escalation on the call, account by account, before anything is filed.
Remittance	Collected funds are remitted every 30 days under your client contract, with account-level activity visible in the portal throughout.
Disputed claims	A dispute pauses recovery — it does not end it. We validate the account against the paper (signed order form, itemized invoices, usage records, the communication trail) and speak with both sides. For subscription software, the order form and usage logs are usually decisive. Dispute investigation typically adds 30–60 days.
Non-responsive customers	The core of what we do: persistent multi-channel outreach, commercial skip tracing to locate the operating entity and the principals behind it, and review of legal escalation for accounts that still will not engage. Compliant third-party outreach on our letterhead alone resolves a meaningful share of silent accounts.
Onboarding & placement	Fast and low-lift. Upload an AR or aging export from QuickBooks, NetSuite, Stripe or your billing system through our portal; we map the columns, so there is no re-keying. Outreach begins within 24–48 hours of a documented placement.
Licensing, credit reporting & references	ACA International member; FDCPA, CFPB and FCRA-compliant practices; credit reporting runs through Equifax and Experian. We will send current state licensing, bonding and trust-account documentation, how reporting applies to business accounts, and references with our written follow-up.

THE SWRS CLIENT PORTAL

Billing-system-ready intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your AR and billing exports and give your finance team live, self-service access throughout recovery.

BILLING-SYSTEM-READY PLACEMENT

Upload an AR or aging export from QuickBooks, NetSuite, Stripe or your billing system — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send order forms, invoices and statements safely inside the portal — the documentation that resolves disputes fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live view of every placement.

DIRECT-PAYMENT REPORTING

Log payments a customer makes directly to Filed, so balances stay accurate and no one is over-contacted.

04 — CASE STUDIES

SWRS Commercial Recovery Case Studies

Actual placed-versus-recovered results from Southwest Recovery's commercial book, anonymized by sector. The range is real: in technology and professional-services books, roughly half of the clients we match to those sectors have recovered little or nothing. That is why we quote a rate only after seeing a sample of your aging, and why clean paper and early placement matter.

THE AGE ADVANTAGE

Why fresh commercial invoices recover best

A commercial balance is most collectible while it is fresh; every month it ages, contact data goes stale and leverage erodes. Your accounts arrive at 30 to 90 days past due — the window where recovery is strongest.

THE AGE CURVE

Fresh accounts (under ~90 days past due) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more than letting balances drift toward write-off — and on contingency there is no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

05 — BUILT FOR B2B SUBSCRIPTION RECEIVABLES

Cutting the days between billed and banked

Days Sales Outstanding and Average Collection Period measure the same thing: how long work sits as a receivable before it becomes cash. Median DSO runs about 43.5 days and the strongest quartile collects in roughly 25 — every month past that erodes both recoverable value and working capital.

Non-responsive accounts

Commercial skip tracing on the business and its principals, plus persistent multi-channel outreach for customers who have gone silent.

Disputed & contested invoices

Documentation-driven validation — order forms, invoices, usage logs — that separates a genuine dispute from a stall tactic.

Every commercial balance type

Subscription and renewal invoices, usage overages, implementation and license fees — one partner, one portal.

Nationwide reach

Recovery across all 50 states from offices across 8 states — built for a U.S.-wide customer base.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
