

Providing Creative Solutions to Common Problems

COMMERCIAL & B2B RECOVERY · CAPABILITIES OVERVIEW

Accounts Receivable Management for Businesses

Managing and recovering past-due equipment, installation and service-contract receivables for Fitnessmith — on pure contingency

Prepared for **Fitnessmith** · July 2026

Southwest Recovery Services, LLC · Commercial receivables recovery since 2004

Private & confidential

Receivables management for the invoices your team can't keep chasing

Prepared for Fitnessmith — thirty years, 125+ equipment partners, four distribution centers and **23,000+ clients** across all 50 states. At that scale the receivable is never just one invoice: it is a project balance, an installation draw and a recurring preventative-maintenance contract, billed across health clubs, hotels, apartment communities, country clubs, schools and municipal rec centers — and every one of them pays on its own calendar. A book that wide produces a long tail of small, recurring service invoices no internal AR desk has the hours to chase.

Money past terms is still money you earned. Every month a receivable ages, contact data goes stale and leverage erodes — and internal AR teams can only chase so far before the cost of collection outweighs the balance. That is true of a stalled equipment balance and of a monthly PM contract that quietly stopped paying — and across 23,000+ client relationships, the quiet ones add up faster than the loud ones.

Southwest Recovery Services works both halves of the problem on **pure contingency since 2004**, nationwide across all 50 states: **accounts receivable management** keeps you in front of invoicing so payments arrive continually and predictably, and **debt recovery** goes after the balances that have already gone past terms. Place accounts through a secure portal that takes your AR export, and we work them. No recovery, no fee.

Two decades of commercial recovery — nationwide

A track record built on high-volume B2B receivables and a documented, professional process.

What a finance team asks us

The questions that matter for a commercial receivables book.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
Fee structure	Pure contingency — \$0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover; the rate scales with the age, balance and volume of your placements.
What we recover	Past-due and disputed B2B invoices, aged trade receivables, unpaid service and subscription balances, and final billings — owed by business customers, dealers, and commercial accounts.
Timing & aging	Recovery falls sharply with age — ~85–90% at 30 days to ~23% at a year. Outreach begins within 24–48 hours of placement; placing promptly recovers materially more than letting balances sit.
Disputed & slow-pay accounts	A dispute or a slow-pay stall pauses recovery, it doesn't end it: we validate against the contract, PO and invoice and work it professionally, preserving the commercial relationship.
Onboarding & placement	Fast and low-lift — bulk-upload an AR / aging export from your accounting system through our portal; we map your columns, so there's no re-keying.
Compliance & reach	Nationwide across all 50 states from 12 offices in 7 states; documented, professional process; ACA International member; clean record since 2004.

Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your AR-aging exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

SYSTEM-READY PLACEMENT

Bulk-upload an AR / aging export from your accounting or billing system (CSV/Excel) — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send contracts, invoices, statements and supporting records safely inside the portal, not over email.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

DIRECT-PAYMENT REPORTING

Log payments made directly to you, so balances stay accurate and no one is over-contacted.

THE DSO ADVANTAGE**Why fresh balances recover best**

A commercial balance is most collectible while it's fresh; every month it ages, contact data goes stale and leverage erodes.

THE AGE CURVE

Fresh accounts (under ~90 days) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more, and on contingency there's no cost to placing.

We speak your ledger

An equipment, installation and service-contract book spanning 23,000+ clients in all 50 states has a specific recovery profile. Our playbook is built for it.

Equipment & installation balances

Recovering project and delivery invoices that slipped past terms — validated against your quote, PO, delivery ticket and signed install sign-off.

Service & PM contract billing

Monthly, bi-monthly and quarterly preventative-maintenance and repair invoices — kept current, and recovered when a facility stops paying.

Ownership & management turnover

Locating clubs, management companies and principals after a sale, rebrand or property-manager change — so the balance follows the obligor.

All 50 states, one partner

You operate nationwide; so do we. Licensed and recovering in all 50 states from 12 offices in 7 states — no state-by-state vendor patchwork.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
