

Providing Creative Solutions to Common Problems

INDUSTRIAL & MATERIALS RECEIVABLES · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering unpaid materials, delivery and service invoices — on pure contingency

Prepared for **St. Louis Composting** · September 2026

A recovery partner for the invoices that go quiet

To the St. Louis Composting team — the hardest dollars a materials and hauling business collects are the ones a contractor, landscaper or commercial account stops paying once the product is delivered and then stops answering. That's the account we work every day.

Unpaid delivery and materials invoices aren't a back-office problem — they're a cash-flow problem. Every balance past terms ties up money you've already earned in product and hauling.

Southwest Recovery Services is an outsourced receivables recovery partner working commercial and consumer balances on **pure contingency since 2004**, nationwide. Place accounts through a secure portal that takes your billing export, and we work them. No recovery, no fee.

Two decades of commercial recovery — nationwide

A documented, compliant recovery process on pure contingency since 2004 — scale you can add without building a collections desk.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked
52% of placed accounts see a recovery	50 states — nationwide recovery reach	4.9★ Google client rating	\$0 upfront — no recovery, no fee

Commercial & B2B collections since 2004

Nationwide — all 50 states

12 offices across 7 states

Your questions — answered directly

What happens to the invoices you place, in plain terms — for a book that runs contractor, commercial and retail accounts.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — \$0 upfront, no retainer, no minimum. A pre-agreed percentage only of what we recover, quoted after a representative sample of your aging.
2. Non-responsive accounts	Skip tracing on the business and its principals, plus persistent compliant multi-channel outreach for accounts that have gone silent.
3. Disputed deliveries	A dispute pauses recovery, it doesn't end it. We validate against the delivery ticket, invoice and PO — separating a genuine dispute from a stall.
4. Commercial & consumer	Commercial contractor and retail balances as B2B AR; any consumer balances under full FDCPA / Reg F rules. One partner, one portal.
5. Onboarding	Bulk-upload an aging export — we map your columns. Outreach begins within 24–48 hours of a documented placement.

**THE SWRS CLIENT
PORTAL**

Billing-system-ready intake and full visibility, on demand

Every placement runs through our secure portal — built to take your A/R exports and give your team live, self-service visibility throughout recovery.

BILLING-SYSTEM-READY PLACEMENT

Upload an A/R / aging export — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send invoices, contracts and supporting docs safely inside the portal — the documentation that resolves disputes fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — live status on every placed balance.

DIRECT-PAYMENT REPORTING

Log payments a debtor makes directly to you, so balances stay accurate and no one is over-contacted.

MATERIALS / HAULING (AGED)

Aged materials A/R

\$18K recovered

of ~\$262K placed

7% recovered

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE AGE CURVE

Why placing sooner recovers more

An industrial or materials balance is most collectible while it's fresh and the account is still active. Every month it ages, contact data and leverage erode.

FRESH VS. AGED

Accounts under ~90 days past due often resolve in 30–60 days; balances left to sit a year collect a fraction of that.

A STANDING RULE

A fixed 'place at 90 days' policy recovers materially more than letting balances drift toward write-off — and on contingency there's no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

Turning delivered-but-unpaid product back into cash

Product that's left the yard but hasn't been paid for is working capital tied up. Every month past terms erodes both the recoverable value and the cash you need to restock.

Non-responsive accounts

Skip tracing on the business and principals, plus persistent compliant demand.

Disputed deliveries

Documentation-driven validation — delivery tickets, POs, invoices — that separates a real dispute from a stall.

Every balance type

Delivery and hauling invoices, bulk-materials accounts, commercial and retail balances — one partner.

Nationwide reach

Recovery across all 50 states from 12 offices in 7 states.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
