COMMERCIAL & B2B RECOVERY · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering post-termination contractor balances and past-due freight invoices for Trekker Logistics — on pure contingency

Prepared for **Trekker Logistics LLC** · August 2026

Southwest Recovery Services, LLC · Commercial receivables recovery since 2004

Private & confidential

A recovery partner for the receivables your team can't finish

Prepared for Trekker Logistics LLC — for a 48-state carrier and freight brokerage, the hardest dollars to collect sit in two places at once: the post-termination balances owed by departed owner-operators and independent contractors — settlement deficits, fuel and toll advances, escrow shortfalls, equipment and lease-purchase obligations, damage chargebacks and contractual termination fees — and the aged shipper invoices on the brokerage side. Both go cold fast, and neither is work an accounting team running settlements every week has the capacity to chase.

Money past terms is still money you earned. Every month a receivable ages, contact data goes stale and leverage erodes — and internal AR teams can only chase so far before the cost of collection outweighs the balance.

Southwest Recovery Services is a commercial, B2B-focused collection agency working business receivables on **pure contingency since 2004**, nationwide across all 50 states. Place accounts through a secure portal that takes your AR export, and we work them. No recovery, no fee.

Two decades of commercial recovery — nationwide

A track record built on high-volume B2B receivables and a documented, professional process.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked

ACCREDITED & RECOGNIZED

What a finance team asks us

The questions that matter for a commercial receivables book.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
Fee structure	Pure contingency — \$0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover; the rate scales with the age, balance and volume of your placements.
What we recover	Past-due and disputed B2B invoices, aged trade receivables, unpaid service and subscription balances, and final billings — owed by business customers, dealers, and commercial accounts.
Timing & aging	Recovery falls sharply with age — ~85–90% at 30 days to ~23% at a year. Outreach begins within 24–48 hours of placement; placing promptly recovers materially more than letting balances sit.
Disputed & slow-pay accounts	A dispute or a slow-pay stall pauses recovery, it doesn't end it: we validate against the contract, PO and invoice and work it professionally, preserving the commercial relationship.
Onboarding & placement	Fast and low-lift — bulk-upload an AR / aging export from your accounting system through our portal; we map your columns, so there's no re-keying.
Compliance & reach	Nationwide across all 50 states from 12 offices in 7 states; documented, professional process; ACA International member; clean record since 2004.

Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your AR-aging exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

SYSTEM-READY PLACEMENT

Bulk-upload an AR / aging export from your accounting or billing system (CSV/Excel) — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send contracts, invoices, statements and supporting records safely inside the portal, not over email.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

DIRECT-PAYMENT REPORTING

Log payments made directly to you, so balances stay accurate and no one is over-contacted.

THE DSO ADVANTAGE**Why fresh balances recover best**

A commercial balance is most collectible while it's fresh; every month it ages, contact data goes stale and leverage erodes.

THE AGE CURVE

Fresh accounts (under ~90 days) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more, and on contingency there's no cost to placing.

We speak your ledger

A commercial receivables book has a specific recovery profile. Our playbook is built for it.

Aged trade receivables

Recovering invoices that slipped past terms — validated against your contract, PO and invoice.

Disputed & slow-pay accounts

Documentation-driven recovery on disputes and slow-pay stalls, professionally worked.

Skip tracing

Locating businesses and principals that have moved, rebranded or gone quiet.

Nationwide reach

Recovery across all 50 states from 12 offices in 7 states.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
