

Providing Creative Solutions to Common Problems

COMMERCIAL CLEANING & JANITORIAL RECEIVABLES • CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering past-due commercial cleaning invoices
— on pure contingency

Prepared for **The Happy Clean** • September 2026

A recovery partner for the invoices your customers stop paying

Andrea — thank you for reaching out. The hardest dollars a cleaning company collects are the ones a commercial customer owes after the work is already done: the recurring account that quietly falls behind, the one-time job that's disputed line-by-line, and the client that simply stops answering once the service has been delivered.

Past-due receivables aren't a paperwork problem — they're a cash-flow problem.

Every invoice that drifts past terms ties up cash you've already earned in labor and supplies, and the longer it ages the harder it is to recover.

Southwest Recovery Services is a commercial, B2B-focused receivables recovery partner working business invoices on **pure contingency since 2004**, with recovery reach across all 50 states. You place accounts through a secure portal that takes your invoice / aging export, and we work them. No recovery, no fee.

Two decades of commercial recovery — nationwide

A track record built on high-volume B2B receivables and a documented, professional process — the recovery arm a growing service business can plug in without hiring or training for it.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked

Your questions — answered directly

Exactly what you asked about — our process and our fee — plus the details that matter for a commercial cleaning receivables book.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — \$0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. The rate scales with the age, balance and volume of what you place; we quote your exact rate once we've seen a representative sample of your aging. There is no cost to place an account and no cost if we collect nothing.
2. Our process	A documented, escalating sequence: we validate the account against your paperwork (service agreement, work orders, itemized invoices, the communication trail), then work it through persistent, compliant multi-channel outreach — letters, calls, email and SMS — on our AI-driven platform. Accounts that still won't engage are reviewed for further escalation. You see every step in the portal in real time.
3. Disputed invoices	A dispute pauses recovery — it doesn't end it. We validate against the paper and speak with both sides; for cleaning work, signed service agreements, work orders and before/after documentation are usually decisive. Dispute investigation typically adds 30–60 days.
4. Non-responsive customers	The core of what we do: persistent, professional outreach plus commercial skip tracing to locate the operating entity, successors and the principals behind a business that has gone quiet. A third-party demand on agency letterhead alone resolves a meaningful share of silent accounts.
5. Onboarding & placement	Fast and low-lift. Upload an invoice or aging export from QuickBooks or your billing system through our secure portal — we map your columns, so there's no re-keying. Compliant outreach begins within 24–48 hours of a documented placement.

Billing-system-ready intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your invoice / aging exports and give you live, self-service visibility throughout recovery.

BILLING-SYSTEM-READY PLACEMENT

Upload an invoice or aging export from QuickBooks or your billing system — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send service agreements, work orders, invoices and statements safely inside the portal — the documentation that resolves disputes fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live view of where every placed account stands.

DIRECT-PAYMENT REPORTING

Log payments a customer makes directly to you, so balances stay accurate and no one is over-contacted.

SWRS Commercial Recovery Case Studies

Actual placed-versus-recovered results from Southwest Recovery's cleaning and janitorial book, anonymized by sector and sized to a single-location service business. An honest spread — including the low end — because a balance that has sat since spring behaves like an aged account.

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE AGE ADVANTAGE**Why placing sooner recovers more**

A commercial balance is most collectible while it's fresh; every month it ages, contact data goes stale and leverage erodes. Your account has been outstanding since April — already in the aged band — which is exactly why placing it now, rather than waiting further, matters.

THE AGE CURVE

Fresh accounts (under ~90 days past due) often resolve in 30–60 days; balances that have sat several months collect a fraction of that — still worth pursuing, but with realistic expectations.

THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more than letting balances drift toward write-off — and on contingency there is no cost to placing early.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked. We do not publish blended portfolio averages.

Cutting the days between billed and banked

Days Sales Outstanding measures how long completed work sits as a receivable before it becomes cash. Every month past terms erodes both recoverable value and the working capital you need to make payroll and buy supplies — which is why the highest-leverage change isn't chasing harder, it's placing sooner.

Non-responsive commercial accounts

Commercial skip tracing on the business and its principals, plus persistent multi-channel demand for customers who have gone silent.

Disputed & contested invoices

Documentation-driven validation — service agreements, work orders, itemized invoices — that separates a genuine dispute from a stall tactic.

Every commercial balance type

Recurring contract invoices, one-time job balances, supply and materials charges — one partner, one portal.

Nationwide reach

Recovery across all 50 states from 12 offices in 7 states — built for customers wherever your accounts are.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
