

Providing Creative Solutions to Common Problems

RESIDENTIAL REMODELING & CONSTRUCTION · CAPABILITIES OVERVIEW

Receivables Recovery for Remodelers

Final payments, change-order balances and past-due invoices — worked patiently, on pure contingency

Prepared for **WC Builders** · October 2026

A recovery partner for the balances that go quiet after the work is done

To Don Thais and the WC Builders team — the hardest dollars a remodeler collects are the last ones: the final payment after the punch list, the change-order balance a homeowner didn't expect, the invoice that stops getting answered once the crew has left the job.

An unpaid final payment isn't a customer-service problem — it's cash you've already earned. Every week it sits, the homeowner's contact details go stale and the balance gets harder to collect.

Southwest Recovery Services is an outsourced receivables recovery partner working past-due balances on **pure contingency since 2004**, with recovery reach across all 50 states and an office in Colorado. You place accounts through a secure portal, and we work them respectfully and compliantly. No recovery, no fee.

Two decades of recovery — nationwide

A documented, compliant process and a track record across trades and contractors — capacity a growing remodeling company can plug into without hiring for it.

2004 Recovering receivables since	\$1.0B+ Receivables placed (all industries)	\$78M+ Recovered for clients	870K+ Accounts worked

The questions a remodeler asks first — answered directly

What an owner-run contractor typically wants to know before placing a single account.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — \$0 upfront, no retainer, no minimum. You pay a pre-agreed percentage of what we actually recover, and nothing if we recover nothing. We quote your rate once we've seen a representative sample of your aging.
2. Disputed balances	A dispute pauses recovery — it doesn't end it. We validate the account against your paper: the signed contract, change orders, invoices, photos, inspection sign-offs and the text or email trail. Dispute investigation typically adds 30–60 days, and clean documentation is what separates a genuine dispute from a stall.
3. Homeowners who stop answering	The core of what we do: persistent, respectful, multi-channel outreach to locate the customer and open a conversation. Most of these balances don't need pressure — they need patience, a clear statement of what is owed, and an easy way to pay. Every contact follows FDCPA, Reg F and TCPA rules.
4. Liens and legal options	Lien deadlines are short and state-specific, so timing is a decision for your attorney. We flag accounts where timing may matter, and review legal escalation case by case with counsel for accounts that still won't engage. Placing early keeps those options open.
5. Onboarding & placement	Low-lift. Send an invoice list or an export from your accounting system or a simple spreadsheet through our portal; we map the columns, so there's no re-keying. Outreach begins within 24–48 hours of a documented placement.

THE SWRS CLIENT PORTAL**Simple intake and full visibility, on demand**

Every placement runs through a secure portal — built to take the invoice lists a contractor already has and give your office live, self-service access throughout recovery.

SPREADSHEET-READY PLACEMENT

Upload an invoice list or accounting export — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send contracts, change orders, invoices and photos safely inside the portal — the paper that resolves disputes fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — see what's been worked and what's been paid.

DIRECT-PAYMENT REPORTING

Log payments a customer makes directly to you, so balances stay accurate and no one is over-contacted.

of ~\$51K placed

30% recovered

ROOFING & CONSTRUCTION FIRM

General trade contractor

\$10K recovered

of ~\$63K placed

16% recovered

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

**THE TIMING
ADVANTAGE**

Why a missed final payment recovers best when it's fresh

A balance is most collectible while the project is still a recent memory. Every month it ages, contact details go stale and leverage erodes. The highest-leverage change most contractors make isn't chasing harder — it's placing sooner.

THE AGE CURVE

Fresh accounts (under ~90 days past due) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more than letting balances drift toward write-off — and on contingency there's no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

Getting the last payment in, without burning the relationship

Remodeling is a referral business. The way a past-due balance is handled reflects on your name as much as the job itself — so firm and respectful have to go together.

Final payments & change orders

Balances left after completion, from punch-list holdbacks to approved change orders — one partner, one portal.

Disputed & contested balances

Documentation-driven validation — contracts, change orders, photos, inspection sign-offs — that separates a genuine dispute from a stall.

Homeowners who've gone quiet

Respectful, persistent outreach to locate the customer and reopen the conversation, with every contact documented.

Nationwide reach, local presence

Recovery across all 50 states from 12 offices in 7 states, including Colorado.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a customer is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
