MEDICAL PRACTICES RECOVERY · CAPABILITIES OVERVIEW

Receivables Recovery for Medical Practices

Recovering aged patient balances for SpineMD — on pure contingency

Prepared for **SpineMD** · November 2026

01 — INTRODUCTION

A recovery partner for the balances that go quiet after care

Prepared for SpineMD — a North Richland Hills spine practice led by Dr. Anil Kesani, where patient care comes first. Here is how SWRS helps practices like yours recover unpaid patient balances without adding work for your team.

Patient balances are a recovery problem, not a billing problem. Every balance that sits after the visit erodes toward write-off while your front desk carries the follow-up.

Southwest Recovery Services recovers patient and payer balances on **pure contingency since 2004**, under a Business Associate Agreement, nationwide. Place accounts through a secure portal that takes your practice-management export, and we work them with dignity and discretion. No recovery, no fee.

02 — AT A GLANCE

Two decades of recovery — nationwide

SWRS is an outsourced receivables recovery partner that is paid only when it recovers, with $0 upfront and a simple, low-lift start.

2004 Recovering commercial receivables since	**$975M+** Receivables placed (all industries)	**$76M+** Recovered for clients	**800K+** Accounts worked

03 — YOUR QUESTIONS, ANSWERED

What a practice asks us first

Here are the questions a practice owner usually asks before handing over unpaid balances, with plain answers.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
How patients are treated	Dignity and discretion first. Every contact is scripted for a patient, not a debtor: no pressure, clear options, payment plans, and a person to talk to. The practice's reputation is protected on every call.
Fee structure	Pure contingency — $0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover; the rate scales with the age, balance and volume of placements. We quote against a representative sample.
Compliance & privacy	We operate under a Business Associate Agreement, with staff trained on HIPAA, FDCPA and Regulation F. Credit reporting to Equifax and Experian only where state law allows.
Timing & aging	Recovery falls sharply with age. Outreach begins within 24–48 hours of placement; a standing "place at 90 days" rule recovers materially more than letting balances sit.
Disputed balances & insurance	A dispute pauses recovery, it doesn't end it: we validate against the itemized statement and EOB and resolve it professionally. Insurance follow-up is available as an additional service.
Onboarding & placement	Fast and low-lift — bulk-upload a patient-balance export through our portal; we map your columns, so there's no re-keying.

THE SWRS CLIENT PORTAL

Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

PM-SYSTEM-READY PLACEMENT

Bulk-upload a patient-balance export from your practice-management or billing system — we map your columns, no re-keying.

SECURE, HIPAA-AWARE FILE EXCHANGE

Send statements, itemized bills and supporting records inside the portal under our Business Associate Agreement.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

DIRECT-PAYMENT REPORTING

Log payments a patient makes directly to the practice, so balances stay accurate and no one is over-contacted.

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

WHY TIMING MATTERS

Why fresh balances recover best

A patient balance is most recoverable while the visit is recent; every month it ages, contact data goes stale and the relationship cools.

THE AGE CURVE

Fresh balances (under ~90 days) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more than letting balances drift — and on contingency there’s no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

05 — BUILT FOR MEDICAL PRACTICES

Recovery that protects the patient relationship

Specialty practices need recovery that protects patient relationships and the practice's reputation. SWRS is built for lean offices where the owner and a small team already carry the clinic, the procedures and the paperwork.

Self-pay & residual balances

Deductibles, co-insurance and balances after insurance, worked with payment plans and clear options.

Disputed & insurance-tangled accounts

Validation against the itemized statement and EOB, with insurance follow-up available as an additional service.

Every balance type

Self-pay, no-show and cancellation fees, plan balances and aged write-offs — one partner, one portal.

Nationwide, HIPAA-aware

Recovery across all 50 states from 12 offices in 7 states, under a Business Associate Agreement.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier, more respectful contact and fewer disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
