PROPERTY MANAGERS & LANDLORDS RECOVERY · CAPABILITIES OVERVIEW

# Debt Collection Agency for Businesses

Recovering unpaid rental balances for T Casa LLC — on pure contingency

Prepared for **T Casa LLC** · November 2026

Private & confidential

01 — INTRODUCTION

# A recovery partner for the balances left behind at move-out

Prepared for T Casa LLC — a landlord with a former-tenant balance of more than $10,000 that has moved past eviction and into recovery. This deck shows how SWRS handles rental receivables, what real results look like, and how a pure-contingency engagement would work for you.

**Move-out balances are recoverable — if they're worked while the trail is warm.** Final ledgers, unpaid rent and damages age fast once a resident is gone.

Southwest Recovery Services is a property-management and multifamily recovery specialist working post-eviction and unpaid-rent balances on **pure contingency since 2004**, with Experian RentBureau reporting at no additional charge. Place accounts through a secure portal that takes your ledger export, and we work them. No recovery, no fee.

02 — AT A GLANCE

# Two decades of recovery — nationwide

SWRS has worked receivables for property owners and managers since 2004, always on pure contingency with $0 upfront.

03 — YOUR QUESTIONS, ANSWERED

# What a finance team asks us

These are the questions landlords ask most often before placing a former-tenant balance with an outsourced receivables recovery partner.

| YOUR QUESTION | SOUTHWEST RECOVERY SERVICES |
|---|---|
| **Fee structure** | Pure contingency — $0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover; the rate scales with the age, balance and volume of placements. |
| **What we recover** | Final-ledger balances, unpaid rent, damages beyond deposit, fees and judgments — from former residents, guarantors and commercial tenants. |
| **Credit reporting** | Qualifying accounts are furnished to Equifax and Experian, plus Experian RentBureau — the rental-specific value-add most landlords cannot report themselves — at no additional charge. |
| **Timing & aging** | Move-out balances recover best in the first 90 days. Outreach begins within 24–48 hours of placement; a standing “place at move-out + 30” rule recovers materially more. |
| **Locating former residents** | Persistent multi-channel outreach plus skip tracing built for people who have moved; judgments are worked through our legal-forwarding network case by case. |
| **Onboarding & placement** | Fast and low-lift — upload a final-ledger export from your property-management software through our portal; we map your columns, so there’s no re-keying. |

THE SWRS CLIENT PORTAL

## Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

### LEDGER-READY PLACEMENT

Upload a move-out / final-ledger export from your property-management software — we map your columns, no re-keying.

### SECURE FILE EXCHANGE

Send leases, final account statements, move-out inspections and judgments safely inside the portal.

### REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

### DIRECT-PAYMENT REPORTING

Log payments a customer makes directly to you, so balances stay accurate and no one is over-contacted.

THE DSO ADVANTAGE

## Why fresh balances recover best

A balance is most collectible while it's fresh; every month it ages, contact data goes stale and leverage erodes. The highest-leverage change most teams make isn't chasing harder — it's placing sooner.

### THE AGE CURVE

Fresh accounts (under ~90 days past due) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

### THE STANDING RULE

A fixed "place at 90 days" policy recovers materially more than letting balances drift toward write-off — and on contingency there's no cost to placing.

*Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.*

05 — BUILT FOR PROPERTY & MULTIFAMILY RECOVERY

# Turning move-out ledgers back into cash

Rental balances are different: the tenant has usually moved, the lease is over, and the relationship is not coming back. SWRS built its process for exactly that situation, with compliant outreach and honest expectations from the first review.

### Former residents & guarantors

Skip tracing built for people who have moved, plus persistent multi-channel outreach.

### Judgments & evictions

Post-eviction balances and judgments worked through our legal-forwarding network case by case.

### Every ledger balance

Unpaid rent, damages beyond deposit, fees and utilities — one partner, one portal.

### Bureau reporting included

Equifax, Experian and Experian RentBureau on qualifying accounts at no additional charge.

06 — AI-POWERED COLLECTIONS

# Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

### AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

### Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

### Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

### Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

### API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

### Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

# Built by a collector with 30 years on the phones — not a CEO with zero collection experience

**Steven Dietz**

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
