

Providing Creative Solutions to Common Problems

COMMERCIAL LEASE RECOVERY · CAPABILITIES OVERVIEW

Receivables Recovery for Commercial Landlords

Pre-legal recovery from defaulted commercial tenants and their personal guarantors — on pure contingency

Prepared for **JUST GREEN LLC** · October 2026

A recovery partner for the lease that goes unpaid

To the JUST GREEN LLC team — a commercial lease default is rarely one number. It is past-due rent and charges, a space that needs to be restored, a security deposit to credit, and a guarantor whose obligation sits alongside the tenant's. Recovering it takes a clear read on which dollars are documented and ready to pursue today, and which still depend on counsel.

The first step is an honest read of the file. We review the lease, the guaranty, the notices and the ledger, net the deposit, and tell you what is realistically recoverable before anything is placed.

Southwest Recovery Services is an outsourced receivables recovery partner for businesses, working commercial balances on **pure contingency since 2004**. You place accounts through a secure portal and we work them. No recovery, no fee.

Two decades of commercial recovery — with a Georgia office

A documented, compliant process built on business receivables, with 12 offices across 7 states including Georgia.

2004 Recovering commercial receivables since	\$1.0B+ Receivables placed (all industries)	\$78M+ Recovered for clients	870K+ Accounts worked

Your questions — answered directly

The questions a commercial landlord asks before placing a defaulted lease, in the order you asked them.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — \$0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover. The rate is quoted once we've seen a representative sample of your file, because it depends on the age, balance and documentation of the claim.
2. Tenant and personal guarantor	A signed guaranty is a separate obligation from the lease. After reviewing the lease and the guaranty for scope, we direct outreach to both the tenant entity and the guarantor, and locate principals and assets behind a business that has vacated.
3. What we work — and what needs counsel	We work the documented balance: past-due rent, late fees and charges, net of the security deposit, and restoration costs once they are supported by estimates or invoices. Unliquidated or disputed damages, such as rent for the unexpired term, are usually resolved by negotiation or a judgment. We say so up front and coordinate with licensed counsel rather than promise an outcome.
4. Business credit reporting	Reporting commercial accounts to the business credit bureaus can be an additional lever. We confirm eligibility and any related setup items after we've reviewed the file, before placement.
5. If you obtain a money judgment	Post-judgment enforcement, such as bank levy and wage or account garnishment, runs through licensed counsel in the county where the judgment is entered. We coordinate with counsel on the collection side so the judgment turns into cash.
6. Documents & placement	The executed lease with the guaranty exhibit, the notices with proof of service, the rent ledger, move-out evidence and contact details for the tenant and guarantor. Uploaded through our secure portal; outreach begins within 24–48 hours of a documented placement.

Secure intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your lease file and ledger and give you live, self-service access throughout recovery.

LEASE-FILE PLACEMENT

Upload the lease, guaranty, notices and rent ledger in one place — no re-keying, no email attachments.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live view, not a monthly summary.

SECURE FILE EXCHANGE

Move photos, video, estimates and statements safely inside the portal — the documentation that supports a restoration claim.

DIRECT-PAYMENT REPORTING

Log payments the tenant or guarantor makes directly to you, so balances stay accurate and no one is over-contacted.

WHY TIMING MATTERS**A vacated tenant gets harder to find every month**

When a commercial tenant leaves mid-term, contact information goes stale, assets move, and leverage erodes. The highest-leverage move is usually not chasing harder — it is placing sooner, with a complete file.

THE AGE CURVE

Fresh accounts often resolve in weeks; balances that sit for a year collect a fraction of that.

THE COMPLETE FILE

A lease, a guaranty, proof of service and a clean ledger let us start on day one instead of waiting on paperwork.

Recovery figures vary by portfolio and claim type; SWRS gives an honest read on the file before any accounts are worked.

From an abandoned space to recovered dollars

Every month between default and placement erodes what can be recovered. A lease file with a guarantor has more than one path to payment — the work is sequencing them honestly.

Tenants who have vacated

Commercial skip tracing on the business and its principals, plus persistent, compliant outreach to locate and engage them.

Personal guarantors

Review of the guaranty for scope, then direct outreach to the individual obligor alongside the tenant entity.

Documentation-driven claims

Lease, notices, ledger, deposit credit and restoration support organized so the claim holds up under a first hard question.

A path to judgment

Where negotiation does not resolve the account, coordination with licensed counsel for suit and post-judgment enforcement.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
