SWRS Southwest Recovery Services

Providing Creative Solutions to Common Problems

COMMERCIAL PRINTING & B2B TRADE RECEIVABLES · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering past-due print invoices from brokers, agencies and corporate buyers — on pure contingency

Prepared for **Courier Graphics** · August 2026

01 — INTRODUCTION

A recovery partner for the invoices that go quiet after the job ships

To the Courier Graphics team — thank you for reaching out through our site. In commercial printing the hardest dollars to collect are the ones already spent: paper bought, plates made, press time burned, freight paid. Once the skids leave 37th Street the cost is sunk, and a broker or agency that stops answering is holding your margin, not theirs.

A past-due print invoice isn't a customer-service problem — it's a working-capital problem. Every aged balance ties up cash you already converted into substrate, ink and labor, and quietly drifts toward write-off while your CSRs keep chasing it between live jobs.

Southwest Recovery Services is an outsourced receivables recovery partner working commercial B2B balances on **pure contingency since 2004**, with recovery reach across all 50 states. You place accounts through a secure portal that takes your AR aging export straight out of PrintVis or your accounting system, and we work them. No recovery, no fee.

02 — AT A GLANCE

Two decades of commercial recovery — nationwide

A track record built on high-volume B2B trade receivables and a documented, compliant process — the collections depth a 50-year family printer can plug in without adding headcount.

2004 Recovering commercial receivables since	**$1.0B+** Receivables placed (all industries)	**$79M+** Recovered for clients	**880K+** Accounts worked
51% of matured client portfolios see a recovery	**50** states — nationwide recovery reach	**4.9★** Google client rating	**$0** upfront — no recovery, no fee

- Commercial & B2B collections since 2004
- Nationwide — all 50 states
- 12 offices across 7 states
- Skip tracing on businesses & principals
- Contingency — no recovery, no fee

03 — YOUR QUESTIONS, ANSWERED

The questions a printer actually asks — answered directly

You selected third-party collections on our form. Here is exactly how that works for a commercial print book, in the order it matters.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — $0 upfront, no retainer, no monthly minimum, no per-account fee. You pay a pre-agreed percentage only of what we actually recover. Commercial rates scale with the age, balance and volume of what you place; we quote your rate once we see a representative sample of your aging.
2. Disputes over the printed piece	A quality or quantity dispute pauses recovery — it doesn't end it. We validate the balance against the paper trail: the signed estimate or PO, the approved proof, the press-approval sign-off, the BOL and delivery confirmation, and the communication record. In print, an approved proof and a signed delivery receipt are usually decisive. Dispute investigation typically adds 30–60 days.
3. Brokers and agencies that go silent	The core of what we do. Persistent multi-channel outreach, commercial skip tracing to locate the operating entity, successors and principals behind a business that has gone quiet, and legal-escalation review for accounts that still will not engage. A third-party demand on agency letterhead alone resolves a meaningful share of silent accounts.
4. Slow-pay corporate AP	Large brand and enterprise buyers rarely refuse to pay — they stall inside procurement. We work AP directly: matching invoice to PO and receipt, chasing the approval that stalled, and escalating to the buyer of record with a documented, professional demand rather than another CSR voicemail.
5. Onboarding & placement	Fast and low-lift. Bulk-upload an AR aging export from PrintVis, QuickBooks or your accounting system through the portal — we map your columns, so no one re-keys anything. Outreach begins within 24–48 hours of a documented placement, and your team keeps working live jobs instead of chasing dead ones.

THE SWRS CLIENT PORTAL

Aging-report-ready intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your AR exports and give your office live, self-service access throughout recovery.

AGING-REPORT-READY PLACEMENT

Upload an AR aging export from PrintVis, QuickBooks or your accounting system — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send estimates, POs, approved proofs, BOLs and statements safely inside the portal — the documentation that settles a print dispute fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live view of your past-due book, not a monthly PDF.

DIRECT-PAYMENT REPORTING

Log payments a customer makes directly to Courier Graphics, so balances stay accurate and no one is over-contacted.

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE AGE CURVE

Why fresh print invoices recover best

A commercial balance is most collectible while it is fresh; every month it ages, contact data goes stale, the approving buyer moves on and leverage erodes. The highest-leverage change most print shops make is not chasing harder — it is placing sooner.

FRESH VS. AGED

Accounts under roughly 90 days past due often resolve in 30–60 days; balances that sit a year collect a fraction of that — which is exactly what the 9% card above looks like.

THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more than letting balances drift toward write-off — and on contingency there is no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

05 — BUILT FOR COMMERCIAL PRINT RECEIVABLES

We speak DSO — and we reduce it

Every past-due print invoice is a DSO problem before it is a collections problem. The Hackett Group puts median DSO at 43.5 days, while the top quartile collects in 25.1 — those firms touch their cash more than 18 days sooner. Manufacturing and distribution typically runs 45–60 days. When we recover an aged balance it comes off your receivables the day it clears, which moves the metric directly. **Read our breakdown of DSO vs. Average Collection Period — formulas, benchmarks and how to bring the number down →**

The 60-day escalation rule

Internal follow-up handles 15–30 days past due and management takes 30–60. Past 60, a documented third-party escalation recovers materially more than another CSR voicemail — and on contingency it costs nothing to place.

Brokers & print resellers

Commercial skip tracing on the business and its principals, plus persistent multi-channel demand for resellers who collected from the end client and went quiet.

Disputed & short-paid jobs

Documentation-driven validation — signed estimate, approved proof, press sign-off, BOL — that separates a genuine quality claim from a stall tactic holding your DSO up.

Every commercial balance type

Catalog and magazine runs, instruction manuals, direct-mail campaigns, storefront and fulfillment billing, freight and kitting charges — one partner, one portal, one number to watch.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. He founded Southwest Recovery Services in 2004 convinced the industry's bad reputation was a choice, not a requirement — and two decades later he still coaches the teams and works accounts personally.

> Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> Southwest Recovery Services is dedicated, as a family-run business, to making sure your needs and your collection expectations are not only met but exceeded — and we understand that we have to earn your trust as well as your business. I've dedicated my entire career to making that a reality for every single client, big or small.
