*Providing Creative Solutions to Common Problems*

AUTO-DEALER RECEIVABLES RECOVERY · CAPABILITIES OVERVIEW

# Debt Collection for Auto Dealers

## Recovering deferred down payments, unwound deals & unpaid customer balances — on pure contingency

Prepared for **DAJ Autosales** · July 2026

01 — INTRODUCTION

# A recovery partner for the balances buyers leave behind

To Dontavis and the DAJ Autosales team — thank you for requesting a quote. A dealership that works with all credit — zero-down and first-time buyers included — moves a lot of cars, but it also generates the balances every dealer knows: deferred and unpaid down payments, dealer and documentation fees, deals that get unwound after spot delivery, and, where you carry any paper in-house, installment balances that fall behind.

**Unpaid buyer balances aren't a paperwork problem — they're a cash-flow problem.** Once a buyer drives off, a deferred down payment, an unwound deal or a past-due balance is hard to chase from the lot — and subprime buyers move and change numbers, so the trail goes cold fast.

Southwest Recovery Services works consumer auto receivables on **pure contingency since 2004**. We locate buyers who've moved with skip tracing, pursue the balance **reputation-first** and fully compliant, and — on qualifying accounts — report to Equifax and Experian, which follows the buyer to their next purchase. You place accounts through a secure portal; we do the chasing. No recovery, no fee.

02 — AT A GLANCE

# Two decades of receivables recovery — nationwide

A documented, compliant recovery process a busy dealership can hand off completely — no software to buy, no collection calls to make, no risk to the name on your lot.

03 — YOUR QUESTIONS, ANSWERED

# The questions a dealer asks — answered directly

You asked for a quote; here is exactly how we work, in plain terms, before a single account is placed.

| YOUR QUESTION | SOUTHWEST RECOVERY SERVICES |
|---|---|
| **1. Fee structure** | Pure contingency — $0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. Nothing comes out of pocket to start — if we don't collect, you owe nothing. |
| **2. What can we place?** | Deferred and unpaid down payments, dealer and documentation fees, balances from deals unwound after spot delivery, and — if you carry any financing in-house — past-due installment balances and post-repossession deficiency balances. Whether the loan sits with you or with your lender, the balances that fall back to the dealership are ours to work. |
| **3. Our buyers have bad credit — is it worth it?** | That's exactly the book we're built for. Subprime buyers are harder to locate, which is why skip tracing and credit-bureau reporting matter most here. On contingency, there's no cost to placing — every dollar recovered is one you'd otherwise write off. |
| **4. Compliance & your reputation** | Auto balances are consumer debt, so every account is worked under FDCPA, Reg F and TCPA guardrails — documented and defensible. We represent DAJ Autosales professionally, protecting the name and reviews on your lot. |
| **5. How do I hand off an account?** | Low-lift. Send the buyer's name and contact info, the balance, and the deal paperwork (buyer's order, financing docs, or ledger) — a simple spreadsheet works. Upload it through our secure portal and outreach begins within 24–48 hours. No new software to learn. |

THE SWRS CLIENT PORTAL

## Simple hand-off and full visibility, on demand

Every account you place is managed through our secure portal — built so a busy dealer can hand off a balance in minutes and check on it any time.

### PLACEMENT IN MINUTES

Upload a simple spreadsheet or the deal file — buyer, balance, contact and paperwork. We map your columns; no special software or re-keying.

### SECURE DOCUMENT EXCHANGE

Send the buyer's order, financing docs and account records safely inside the portal — the paperwork that settles a dispute fast.

### REAL-TIME STATUS

Check what's been recovered and what's still in progress on demand — no phone tag.

### DIRECT-PAYMENT REPORTING

If a buyer pays you directly after you place the account, log it in a click so we stop contacting them and your books stay right.

*Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.*

THE COST OF WAITING

## Why auto balances recover best while they're fresh

A buyer balance is most collectible while it's fresh — the sale is recent, the buyer's contact and employment details are current, and the paperwork is at hand. Every month it ages, subprime buyers relocate, numbers change, and the trail goes cold. The highest-leverage move a dealer can make isn't chasing harder — it's handing it off sooner.

### THE AGE CURVE

Fresh balances (under ~90–120 days past due) resolve at materially higher rates; balances left a year or more collect a fraction of that once the buyer is gone.

### THE STANDING RULE

A simple "hand it off at 90 days" habit recovers more than letting balances drift toward write-off — and on contingency there's no cost to placing.

*Real placed-versus-recovered results from SWRS's automotive book, anonymized by sub-sector; individual client names withheld. Consumer auto balances are harder to locate than commercial debt, so placing early — and reporting to the bureaus — matters most. Results vary by account age, balance size and documentation; we give an honest, age-based read on a representative sample first.*

05 — BUILT FOR AUTO DEALERS

# We understand a dealer ledger

A credit-challenged buyer base creates a specific set of unpaid balances. Our playbook is built for exactly that.

### Deferred down payments & fees

Down payments promised but never paid, plus dealer and documentation fees left owing — pursued professionally so your office doesn't have to.

### Unwound & spot-delivery deals

Deals that fell through after the car left the lot — the balances and fees that fall back to the dealership, worked on contingency.

### In-house paper & deficiency balances

If you carry any financing yourself, past-due installment balances and post-repossession deficiency balances — the toughest to collect, and where skip tracing earns its keep.

### Skip tracing & bureau reporting

We locate buyers who've moved and, on qualifying accounts, report to Equifax and Experian — leverage that follows the buyer to their next car.

06 — AI-POWERED COLLECTIONS

# Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

### AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

### Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

### Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

### Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

### API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

### Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

# Built by a collector with 30 years on the phones — not a CEO with zero collection experience

**Steven Dietz**

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
