

Providing Creative Solutions to Common Problems

COMMERCIAL & B2B RECEIVABLES RECOVERY · CAPABILITIES OVERVIEW

Receivables Recovery for Performing Arts Agencies

Recovering unpaid presenter, venue and production invoices — on pure contingency, with no minimum balance

Prepared for **KMP Artists** · September 2026

Prepared for Kristopher McDowell

Thank you for reaching out about the New York commercial account. This overview answers each of your six questions in order, and sets out exactly what we would need to review and place the file.

Yes — we will take the account, and yes, it is placed on pure contingency. There is no upfront, placement, administrative, membership, legal, closure or minimum-balance charge of any kind. If we recover nothing, you owe nothing. A single \$500 commercial invoice is a valid placement; we do not hold a floor.

Southwest Recovery Services is an outsourced receivables recovery partner working commercial and B2B balances on **pure contingency since 2004**, with recovery reach across all 50 states including New York. For a booking and touring agency, the receivable that goes quiet is usually a presenter, venue or producer invoice that ages after the engagement is already delivered — the work is done, the artist has been paid, and the balance sits.

Two decades of commercial recovery — nationwide

A track record built on business-to-business receivables and a documented, compliant process — available to a small agency without hiring for it.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked
52% of placed accounts see a recovery	50 states — nationwide recovery reach	4.9★ Google client rating	\$0 upfront — no recovery, no fee

Your six questions — answered in order

Exactly what you asked, in the order you asked it. Anything below that needs to be in a signed writing will appear verbatim in the placement agreement.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Will you accept this New York commercial account?	Yes. We accept commercial and B2B accounts nationwide, including New York, and we work commercial balances of any size — there is no minimum balance and no volume requirement. Commercial B2B obligations are not consumer debt, so the FDCPA consumer framework does not govern this file; we nonetheless work every account to the same compliant, documented, honest standard.
2. What contingency percentage?	Pure contingency — \$0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. The commercial rate scales with the age, balance and volume of what you place, so we quote your rate once we have seen a representative sample of your aging rather than publishing a number that will not fit your file. Your rate is fixed in the placement agreement before a single account is worked.
3. Can you pursue the \$500 base plus the contractual +2.5%?	We can pursue whatever your agreement actually entitles you to collect, and we routinely demand contractual interest, service charges and fee provisions alongside principal. Whether the +2.5% is recoverable in full turns on the exact wording of the provision and on New York law — we are not your counsel and will not confirm enforceability sight-unseen. Send us the clause with the contract and we will tell you plainly, before placement, what we will demand and what we would expect to actually collect.
4. Do you owe anything if we recover nothing?	Nothing. Zero. There is no upfront fee, no placement fee, no administrative or membership fee, no closure fee and no cost for accounts we are unable to resolve. Our fee is a percentage of funds actually recovered and remitted. If the account closes with no recovery, no invoice is ever issued. This is stated in writing in the placement agreement.
5. Will any legal or expense-generating step be taken without our authorization?	No. Suit referral, legal forwarding and any step that creates a cost or an out-of-pocket exposure for you requires your prior written authorization, account by account. Nothing is escalated on our own initiative. Standard recovery — compliant written demand, telephone outreach, commercial skip tracing on the debtor entity and its principals — carries no charge to you and proceeds under the contingency agreement alone.

YOUR QUESTION

SOUTHWEST RECOVERY SERVICES

6. What do you need to review and place the account?

The signed contract or agreement including the provision creating the +2.5%; the invoice or statement of account; the debtor's legal entity name, address and any contact detail you hold; a payment history showing what was paid and what remains; and the correspondence trail including your final demand. That is enough to open the file. Nothing needs to be re-keyed — documents load through our secure client portal.

THE SWRS CLIENT PORTAL

Secure placement, document exchange and live status — on demand

Every placement is managed through our secure portal, so a single account is as easy to place and track as a full aging file.

PLACE IN MINUTES

Enter a single account directly or upload an aging export — we map your columns, so there is no re-keying.

SECURE FILE EXCHANGE

Send the contract, invoice and correspondence trail safely inside the portal — the documentation that resolves a contested balance fast.

REAL-TIME STATUS

See exactly what has been done on the account and when, and run recovery reports on demand.

DIRECT-PAYMENT REPORTING

Log any payment the debtor makes straight to KMP Artists, so the balance stays accurate and no one is contacted over money already paid.

**WHY TIMING DECIDES THE
OUTCOME**

A contested commercial balance is most collectible while it is fresh

You have already done the two things that matter most: you documented the obligation and you issued a final demand. The variable now is age. Every month a commercial balance sits, contact data goes stale, the paying entity reorganizes, and leverage erodes.

THE AGE CURVE

Fresh commercial accounts — under roughly 90 days past due — often resolve in 30 to 60 days. Balances that have sat a year recover a fraction of that.

THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more than letting balances drift toward write-off — and on contingency there is no cost to placing.

Recovery figures vary by portfolio. SWRS gives an honest, age-based read on what is realistically collectible before any account is worked.

The invoice that went quiet after the work was delivered

For a booking and touring agency the exposure is concentrated: engagements are contracted months ahead, the artist and the production are paid on schedule, and the presenter or venue invoice is the one thing that can slip afterwards. That gap is working capital you have already earned.

Non-responsive presenters & venues

Commercial skip tracing on the debtor entity, its successors and its principals, plus persistent compliant outreach for a business that has simply stopped answering.

Contested & disputed balances

Documentation-driven validation — the signed agreement, the invoice, the correspondence trail — that separates a genuine dispute from a stall.

Contract interest & fee provisions

We demand what your agreement entitles you to, not just principal, wherever the provision and applicable law support it.

Nationwide reach, no minimum

Recovery across all 50 states from 12 offices in 7 states — and a single small balance is a valid placement.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
