COMMERCIAL & B2B RECOVERY · CAPABILITIES OVERVIEW

# Debt Collection Agency for Businesses

Recovering past-due B2B invoices and aged receivables  
for Liquid Death — on pure contingency

Prepared for Liquid Death · July 2026

## A recovery partner for the receivables your team can't finish

Prepared for Liquid Death — for a fast-growing beverage brand, the hardest dollars to collect are the invoices that slip past terms: the slow-paying accounts, the disputed balances, and the aged receivables that a busy finance team simply doesn't have the capacity to chase before they go cold.

**Money past terms is still money you earned.** Every month a receivable ages, contact data goes stale and leverage erodes — and internal AR teams can only chase so far before the cost of collection outweighs the balance.

Southwest Recovery Services is a commercial, B2B-focused collection agency working business receivables on **pure contingency since 2004**, nationwide across all 50 states. Place accounts through a secure portal that takes your AR export, and we work them. No recovery, no fee.

## Two decades of commercial recovery — nationwide

A track record built on high-volume B2B receivables and a documented, professional process.

## What a finance team asks us

The questions that matter for a commercial receivables book.

| YOUR QUESTION                | SOUTHWEST RECOVERY SERVICES                                                                                                                                                                     |
|------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Fee structure                | Pure contingency — \$0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover; the rate scales with the age, balance and volume of your placements. |
| What we recover              | Past-due and disputed B2B invoices, aged trade receivables, unpaid service and subscription balances, and final billings — owed by business customers, dealers, and commercial accounts.        |
| Timing & aging               | Recovery falls sharply with age — ~85–90% at 30 days to ~23% at a year. Outreach begins within 24–48 hours of placement; placing promptly recovers materially more than letting balances sit.   |
| Disputed & slow-pay accounts | A dispute or a slow-pay stall pauses recovery, it doesn't end it: we validate against the contract, PO and invoice and work it professionally, preserving the commercial relationship.          |
| Onboarding & placement       | Fast and low-lift — bulk-upload an AR / aging export from your accounting system through our portal; we map your columns, so there's no re-keying.                                              |
| Compliance & reach           | Nationwide across all 50 states from 12 offices in 7 states; documented, professional process; ACA International member; clean record since 2004.                                               |

**THE SWRS CLIENT PORTAL****Low-lift intake and full visibility, on demand**

Every placement is managed through our secure portal — built to take your AR-aging exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

**SYSTEM-READY PLACEMENT**

Bulk-upload an AR / aging export from your accounting or billing system (CSV/Excel) — we map your columns, no re-keying.

**REAL-TIME REPORTING**

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

**SECURE FILE EXCHANGE**

Send contracts, invoices, statements and supporting records safely inside the portal, not over email.

**DIRECT-PAYMENT REPORTING**

Log payments made directly to you, so balances stay accurate and no one is over-contacted.

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

**THE DSO ADVANTAGE****Why fresh balances recover best**

A commercial balance is most collectible while it's fresh; every month it ages, contact data goes stale and leverage erodes.

**THE AGE CURVE**

Fresh accounts (under ~90 days) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

**THE STANDING RULE**

A fixed “place at 90 days” policy recovers materially more, and on contingency there's no cost to placing.

## We speak your ledger

A commercial receivables book has a specific recovery profile. Our playbook is built for it.

### Aged trade receivables

Recovering invoices that slipped past terms — validated against your contract, PO and invoice.

### Disputed & slow-pay accounts

Documentation-driven recovery on disputes and slow-pay stalls, professionally worked.

### Skip tracing

Locating businesses and principals that have moved, rebranded or gone quiet.

### Nationwide reach

Recovery across all 50 states from 12 offices in 7 states.

## Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

### AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

### Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

### Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

### Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

### API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

### Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

## Built by a collector with 30 years on the phones — not a CEO with zero collection experience

### Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

“Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.”

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
