Receivables Recovery for Law Firms

Recovering unpaid legal fees for Kelley Law, P.A. — with discretion, and on pure contingency

Prepared for **Kelley Law, P.A.** · October 2026

01 — INTRODUCTION

A recovery partner for the fees that go quiet

To Kevin Kelley and the team at Kelley Law, P.A. — thank you for reaching out. You told us you have $10,000–$100,000 in outstanding receivables. Here is how we would work them: with the discretion a family-law practice requires, and without putting your client relationships at risk.

Unpaid fees are a cash-flow problem and a relationship problem. Every past-due balance ties up money your firm has already earned, and the longer it sits, the harder it is to collect.

Southwest Recovery Services is an outsourced receivables recovery partner. We work the balance quietly and professionally, so your attorneys and staff can stay on client work.

03 — YOUR QUESTIONS, ANSWERED

What a law firm asks us

Straight answers on fees, handling and process.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
Fee structure	Pure contingency — $0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover. The rate is quoted once we've seen a representative sample of your accounts.
What we recover	Unpaid legal fees and costs owed by former and current clients — flat-fee and hourly balances, retainer shortfalls and payment-plan defaults.
Handling & discretion	Before any account is worked, we agree handling rules with you: what is said, to whom, and what stays out of every message. Questions about the underlying matter come back to you, not to us.
Fee disputes	A dispute pauses recovery rather than ending it. We route the question to you, you decide how to respond, and we resume or close the account on your direction.
Onboarding & placement	Fast and low-lift. Export an aging report from your billing or practice-management system, upload it to our portal, and we map your columns — no re-keying.
Compliance & reach	Compliant outreach nationwide from 12 offices in 7 states. ACA International member. Credit reporting through Equifax and Experian where lawful.

THE SWRS CLIENT PORTAL

Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your billing exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

SYSTEM-READY PLACEMENT

Bulk-upload an aging export from your billing or practice-management system (CSV/Excel) — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send engagement letters, fee agreements and statements safely inside the portal, not over email.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

DIRECT-PAYMENT REPORTING

Log payments a client makes directly to your firm, so balances stay accurate and no one is over-contacted.

04 — CASE STUDIES

SWRS Case Studies — Law-Firm Fee Balances

Actual placed-versus-recovered results from law-firm clients, anonymized. Fee balances recover unevenly: one large account can return most of what was owed, while many law-firm fee books recover little or nothing, and the last card below is one of those. We show the real range.

AGING MATTERS

Why fees recover best when they are fresh

A fee balance is most collectible while the matter and the relationship are recent. Every month it ages, contact information goes stale and the client's attention moves on.

THE AGE CURVE

Fresh accounts often resolve within weeks; balances that sit for a year or more recover a fraction of that.

THE STANDING RULE

Placing past-due fees on a fixed schedule recovers materially more than letting them drift — and on contingency there is no cost to placing.

Recovery varies by portfolio. SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

05 — BUILT FOR LAW-FIRM RECEIVABLES

Keeping fee recovery out of your day

Chasing fees pulls attorneys and staff away from client work, and an uncomfortable call can strain a relationship you want to keep. A recovery partner takes that off your desk and keeps you in control of how each account is handled.

Quiet, documented follow-up

Persistent multi-channel outreach on past-due fees, handled under rules you set and a record of every contact.

You decide the handling

Disputes, payment plans and write-offs stay your call; we act on your direction.

Every kind of fee balance

Flat-fee and hourly balances, retainer shortfalls and payment-plan defaults — one partner, one portal.

Nationwide reach

Recovery across all 50 states from 12 offices in 7 states.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — so outreach starts earlier on the accounts most likely to pay.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
