SMALL-BUSINESS RECEIVABLES RECOVERY · CAPABILITIES OVERVIEW

Debt Collection for Small Business

Recovering past-due customer accounts & unpaid invoices — on pure contingency

Prepared for **Old Bridge, LLC** · July 2026

A recovery partner for the money you've already earned

To Lynne-Ann and the Old Bridge team — thank you for reaching out. Every small business ends up carrying a handful of accounts that just won't pay: a customer who went quiet after the work was done, an invoice that keeps aging, a balance you've half-written-off. Chasing them pulls you away from running the business — and the longer they sit, the harder they are to collect.

Past-due accounts aren't a paperwork problem — they're earned money sitting on the sidelines. Unpaid invoices and delinquent customer balances quietly age into write-offs while you focus on the work in front of you.

Southwest Recovery Services works small-business receivables on **pure contingency since 2004** — we do the chasing so you don't have to. Business (B2B) accounts are pursued with persistent demand and skip tracing on the company and its principals; individual (consumer) accounts are worked under FDCPA / Reg F. Recovery is **reputation-first** and fully compliant, and you place accounts through a secure portal in minutes. No recovery, no fee.

Two decades of receivables recovery — nationwide

A documented, compliant recovery process a small business can hand off completely — no software to buy, no collection calls to make, no risk to the name you've built.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked
52% of placed accounts see a recovery	50 states — nationwide recovery reach	4.9★ Google client rating	\$0 upfront — no recovery, no fee

The questions a small-business owner asks — answered directly

Exactly how we work, in plain terms, before a single account is placed.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — \$0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. Nothing comes out of pocket to start — if we don't collect, you owe nothing.
2. Will this hurt my reputation?	This matters most for a local business that runs on word of mouth, and it's how we're built. Recovery is professional and fully compliant — no threats, no misrepresentation. We represent Old Bridge the way you would, so a past-due customer is handled firmly but respectfully.
3. Business or individual customers — can you handle both?	Both. Business (B2B) accounts on terms are pursued with persistent demand and commercial skip tracing on the company and its principals or guarantors; individual (consumer) accounts are worked under FDCPA, Reg F and TCPA guardrails. Same portal, one placement.
4. What about a customer who's gone quiet?	Skip tracing to locate the customer — a business, its principals, or an individual who moved — then persistent, documented contact. Reaching a non-responsive account is exactly where an outside agency outperforms doing it yourself.
5. How do I hand off an account?	Low-lift. Send the customer name and contact, the balance owed, and the invoice or agreement — a simple spreadsheet works. Upload it through our secure portal and outreach begins within 24–48 hours. No new software to learn.

THE SWRS CLIENT PORTAL**Simple hand-off and full visibility, on demand**

Every account you place is managed through our secure portal — built so a busy owner can hand off a balance in minutes and check on it any time.

PLACEMENT IN MINUTES

Upload a simple spreadsheet or the account record — customer, balance, contact and invoice. We map your columns; no special software or re-keying.

SECURE DOCUMENT EXCHANGE

Send the invoice, contract or account record safely inside the portal — the paperwork that settles a dispute fast.

REAL-TIME STATUS

Check what's been recovered and what's still in progress on demand — no phone tag.

DIRECT-PAYMENT REPORTING

If a customer pays you directly after you place the account, log it in a click so we stop contacting them and your books stay right.

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE COST OF WAITING

Why accounts recover best while they're fresh

A balance is most collectible while it's fresh — the work or sale is recent, the customer's contact details are current, and they remember exactly what they owe. Every month it ages, people and businesses move, numbers change, and the balance competes with newer bills. The highest-leverage move a busy owner can make isn't chasing harder — it's handing it off sooner.

THE AGE CURVE

Fresh balances (under ~90–120 days past due) resolve at materially higher rates; balances left a year or more collect a fraction of that.

THE STANDING RULE

A simple “hand it off at 90 days” habit recovers more than letting balances drift toward write-off — and on contingency there's no cost to placing.

Real placed-versus-recovered results from SWRS's commercial and consumer book, anonymized by sector; individual client names withheld. Results vary by account age, balance size, account type and documentation; we give an honest, age-based read on a representative sample first.

We understand a small-business ledger

Whatever you sell, unpaid accounts share the same profile. Our playbook is built to recover them without adding to your workload.

Unpaid invoices & customer balances

The work got done or the goods were delivered and the customer never paid. We pursue the balance professionally so you don't have to make the awkward call.

Business (B2B) accounts on terms

Commercial customers past terms — worked with persistent demand and commercial skip tracing on the business and its principals or guarantors.

Consumer accounts — compliant

Individual customers who owe — worked under FDCPA / Reg F guardrails, documented and defensible, with skip tracing when they move.

Reputation-first & contingency

Professional, compliant contact that protects your name — and pure contingency, so recovery costs you nothing unless we collect.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

“Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.”

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
