

Providing Creative Solutions to Common Problems

COMMERCIAL & B2B RECEIVABLES RECOVERY · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering unpaid invoices, trade receivables and overdue contracts between businesses — on pure contingency

Prepared for **Commercial & B2B Businesses** · September 2026

When another business owes you money, the rules are different

Thank you for reaching out. If your business is owed money by another business, you need a commercial recovery partner — not a consumer collector. B2B debt follows different rules, moves through different contacts, and needs a different approach entirely.

Commercial receivables are not consumer debt. There is no FDCPA regulation on B2B accounts, no 7-in-7 call limits, no mini-Miranda. The contacts are corporate — AP departments, controllers, owners — and the negotiation requires people who understand how businesses actually operate. Our agents are trained specifically for business-to-business work, not retasked from consumer recovery.

Southwest Recovery Services has worked commercial accounts on **pure contingency since 2004**, from 12 offices across Texas, Colorado, Oklahoma, Missouri, Ohio, Florida and Georgia, with recovery reach nationwide. You place accounts through a secure portal that takes your AR aging export — we map your columns, so nothing gets re-keyed. No recovery, no fee.

Two decades of commercial recovery — nationwide

A track record built on B2B trade receivables and a documented, professional process — scale you can plug in without hiring a collections function of your own.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked
52% of placed accounts see a recovery	50 states — nationwide recovery reach	4.9★ Google client rating	\$0 upfront — no recovery, no fee

The questions every business asks first

Answered directly, before you spend time on a call.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. What it costs	Pure contingency — \$0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. Commercial rates generally run 20–35% depending on the age, balance and volume of what you place. We quote your rate once we have seen a representative sample of your receivables, not before.
2. How fast it moves — and why timing decides the outcome	We begin working accounts within one business day of placement, running skip-trace verification and contact research before the first outreach. Accounts placed within 60–90 days of the due date typically see first contact in 24–48 hours and resolution in 30–60 days. Older accounts, or those needing skip tracing, run 90–180 days. The single highest-leverage change most finance teams make is not chasing harder — it is placing sooner.
3. What happens to the business relationship	B2B collections done badly ends partnerships. Done properly it resolves the balance and often preserves the relationship. We are direct, professional and persistent — no harassment, no threats, nothing that reflects badly on you. We offer payment-plan structures for businesses that are genuinely struggling rather than simply avoiding, and we can work under a first-party model that keeps our involvement invisible to your customer entirely.
4. Disputed invoices	A dispute pauses recovery; it does not end it. We document the original agreement, the payment history and every communication your team has already had, then present the facts and negotiate toward resolution. Purchase orders, freight charges, returned goods, sales tax and contract terms are the usual sticking points. If the dispute has merit we tell you. If it does not, we press forward.
5. Commercial credit reporting and legal escalation	Eligible commercial accounts can be reported to the business credit bureaus — Dun & Bradstreet, Experian Business and Equifax Business — which creates real motivation for a debtor that depends on business credit for financing or vendor terms. If negotiation does not move the account we evaluate legal viability and bring you a recommendation: pre-legal demand, litigation, judgment enforcement, asset recovery. We do not push accounts to litigation automatically. You decide.

Accounting-system-ready intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your AR exports and give your team live, self-service access throughout recovery.

ACCOUNTING-SYSTEM-READY PLACEMENT

Upload an AR or aging export from QuickBooks, NetSuite, Sage or your billing system — we map your columns, no re-keying.

SECURE DOCUMENT EXCHANGE

Send contracts, purchase orders, invoices and statements safely inside the portal — documentation is what resolves a commercial dispute fastest.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live view of your portfolio, not a monthly PDF.

DIRECT-PAYMENT REPORTING

Log payments a customer makes directly to you, so balances stay accurate and no one is contacted about money already paid.

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE AGE CURVE

Why fresh commercial invoices recover best

A commercial balance is most collectible while it is fresh. Every month it ages, contact data goes stale, the debtor re-budgets around it, and leverage erodes. Most businesses work an account internally for 90 or 120 days first — by the time it reaches us the easy recovery window has already closed.

WHAT THE SPREAD ABOVE REFLECTS

The books that recovered 60–78% arrived with strong documentation and reasonable age. The books at 15–21% were large, aged portfolios placed after long internal effort.

THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more than letting balances drift toward write-off — and on contingency there is no cost to placing sooner.

Recovery varies by portfolio, documentation quality and aging mix. Before any accounts are worked we give you an honest, age-based read on a representative sample — including where we think recovery will be thin.

The industries we recover for

From a startup carrying a single large unpaid invoice to a mid-market company managing hundreds of accounts, the work is the same: find the person who can authorize payment, and give them a structured path to resolution.

Trade receivables & unpaid invoices

General B2B and commercial accounts, contract balances, staffing placement fees, law firm retainers, SaaS and subscription balances.

Contractors, energy & logistics

Construction materials, labor and subcontractor accounts; oilfield services invoices; unpaid freight and carrier receivables; commercial utility arrears.

Non-responsive & relocated debtors

Commercial skip tracing on the operating entity, its registered agent, successors and principals when a business goes dark.

AR management & outsourced follow-up

Route delinquent balances to us as they age past your internal threshold and we work them continuously, so your team stays on operations.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
