

Providing Creative Solutions to Common Problems

TRANSPORTATION & LOGISTICS RECOVERY · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering unpaid freight invoices & past-due shipper and broker receivables — on pure contingency

Prepared for **Jaro Transportation** · October 2026

A recovery partner for the freight invoices that go quiet

To Brian Vennetti and the Jaro finance team — for a carrier, the hardest dollars to collect are the ones owed after the load is delivered: shipper and broker invoices that age past terms, short-pays and deductions that never get resolved, and accounts that simply stop answering once the freight has moved.

Past-due freight receivables aren't a dispatch problem — they're a cash-flow problem. Every invoice that drifts past terms ties up working capital you've already earned, on equipment and drivers you've already paid for.

Southwest Recovery Services is an outsourced receivables recovery partner focused on commercial, B2B accounts. We work business receivables on **pure contingency since 2004**, with recovery reach across all 50 states and an office in Columbus, Ohio. You place accounts through a secure portal that takes your billing / AR-aging export, and we work them. No recovery, no fee.

Two decades of commercial recovery — nationwide

A track record built on high-volume B2B receivables and a documented, professional process — scale a transportation finance team can plug in without hiring for it.

2004 Recovering commercial receivables since	\$1.0B+ Receivables placed (all industries)	\$78M+ Recovered for clients	870K+ Accounts worked
52% of placed accounts see a recovery	50 states — nationwide recovery reach	4.9★ Google client rating	\$0 upfront — no recovery, no fee

What a carrier's finance team asks — answered directly

The questions we hear first from transportation and logistics companies, in the order they usually come up.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — \$0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. The rate scales with the age, balance and volume of your placements; we quote it once we have seen a representative sample of your aging.
2. Short-pays & disputed invoices	A dispute pauses recovery — it doesn't end it. We validate the account against the paper: rate confirmation, bill of lading, proof of delivery, the invoice and the communication trail. For freight, signed PODs and rate confirmations are usually decisive. Dispute investigation typically adds 30–60 days.
3. Shippers & brokers who go quiet	The core of what we do: persistent multi-channel outreach, commercial skip tracing to find the operating entity, successors and principals behind a company that has stopped answering, and review of legal escalation for accounts that still won't engage.
4. Onboarding & placement	Fast and low-lift. Bulk-upload an AR / aging export from your TMS, QuickBooks or accounting system through our portal; we map your columns, so there's no re-keying. Outreach begins within 24–48 hours of a documented placement.
5. Local presence & reach	Recovery reach is nationwide across all 50 states, worked from 12 offices in 7 states — including Columbus, Ohio. Interstate freight means interstate debtors; accounts are worked wherever the debtor sits.

**THE SWRS CLIENT
PORTAL**

Billing-system-ready intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your AR exports and give your finance team live, self-service access throughout recovery.

BILLING-SYSTEM-READY PLACEMENT

Upload an AR / aging export from your TMS or accounting system — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send rate confirmations, bills of lading, PODs and invoices safely inside the portal — the documentation that resolves disputes fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live view of what is placed, worked and recovered.

DIRECT-PAYMENT REPORTING

Log payments a customer makes directly to Jaro, so balances stay accurate and no one is over-contacted.

PLACEMENT TIMING**Why fresh freight invoices recover best**

A commercial balance is most collectible while it's fresh; every month it ages, contact data goes stale and leverage erodes. The highest-leverage change most finance teams make isn't chasing harder — it's placing sooner.

THE AGE CURVE

Fresh accounts (under ~90 days past due) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more than letting balances drift toward write-off — and on contingency there's no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

Cutting the days between delivered and banked

For a carrier, a delivered load is only revenue once it is cash. Every month a freight invoice ages past terms erodes both its recoverable value and the working capital behind your fleet.

Shipper & broker non-payment

Commercial skip tracing on the business and its principals, plus persistent multi-channel demand for customers who've gone silent.

Short-pays & disputed charges

Documentation-driven validation — rate confirmations, BOLs and PODs — that separates a genuine dispute from a stall tactic.

Every commercial balance type

Linehaul invoices, accessorials, detention and layover, brokerage balances — one partner, one portal.

Nationwide reach

Recovery across all 50 states from 12 offices in 7 states — built for freight that crosses state lines.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
