Providing Creative Solutions to Common Problems

PROPERTY MANAGEMENT RECOVERY · CAPABILITIES OVERVIEW

Receivables Recovery for Property Managers

Owner balances, management fees and reimbursable expenses — worked on pure contingency

Prepared for **Spruce Quality Rentals** · October 2026

01 — INTRODUCTION

A recovery partner for balances owners leave behind

To the Spruce Quality Rentals accounting team — you asked whether we work unpaid balances owed to a property manager under a management agreement: management fees, reimbursable property expenses and other charges. This overview answers that directly, and says plainly where the answer depends on the paperwork.

These are relationship balances, and they are handled that way. An owner who has stopped paying is usually still an owner, often with a property still under your care. Outreach is compliant, documented and discreet, and a dispute pauses recovery rather than ending the conversation.

Southwest Recovery Services is an outsourced receivables recovery partner working on **pure contingency since 2004**. You place accounts through a secure portal that takes your owner-ledger export, and we work them. No recovery, no fee.

02 — AT A GLANCE

Two decades of recovery — nationwide

A documented, compliant process and a track record built on high-volume receivables. We do not publish a property-management track record on the next pages; the case studies come from commercial service and rental-sector books of comparable size.

2004 Recovering commercial receivables since	**$1.0B+** Receivables placed (all industries)	**$79M+** Recovered for clients	**870K+** Accounts worked

03 — YOUR QUESTIONS, ANSWERED

Your four questions — answered directly

In the order you asked them, including where the honest answer is “it depends on the agreement.”

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Individual residential owners	Yes, owner balances under a management agreement are in scope for review. Our core is commercial and B2B recovery, so we first classify each account from the agreement and the owner’s purpose (investment property is typically a business relationship; a personal-residence arrangement can be treated differently). Where consumer rules apply, outreach follows them, and we confirm scope by account type and state before any account is placed.
2. Minimums & documentation	We set no fee minimum. What matters is the file: the signed management agreement, the owner ledger or statement of charges, invoices and receipts behind each reimbursable expense, proof the owner was billed, and the communication trail. A representative sample tells us which balances are worth working.
3. Fees & upfront costs	Pure contingency — $0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover. The rate is quoted once we have seen a representative sample of your aging.
4. Disputed balances	Yes. A dispute pauses recovery; it does not end it. We validate the charge against the paper — agreement terms, owner approvals for expenses, invoices and the ledger — and speak with both sides. Dispute investigation typically adds 30–60 days, and well-documented charges resolve fastest.

THE SWRS CLIENT PORTAL

Ledger-ready intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your exports and give your accounting team live, self-service access throughout recovery.

LEDGER-READY PLACEMENT

Upload an owner-ledger export from your property-management software — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send management agreements, expense invoices and owner statements safely inside the portal — the paper that settles disputes.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly PDF.

DIRECT-PAYMENT REPORTING

Log payments an owner makes directly to you, so balances stay accurate and no one is over-contacted.

04 — CASE STUDIES

SWRS Commercial Recovery Case Studies

Actual placed-versus-recovered results from Southwest Recovery's commercial book, anonymized by sector. We do not publish a property-management record here, so these are recurring-service and rental-sector clients at balances comparable to yours — including the low end of the range.

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE PLACEMENT ADVANTAGE

Why fresh balances recover best

A balance is most collectible while the relationship and the paper are fresh; every month it ages, contact data goes stale and leverage erodes. The highest-leverage change most teams make isn't chasing harder — it's placing sooner.

THE AGE CURVE

Fresh accounts (under ~90 days past due) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

THE STANDING RULE

A fixed "place at 90 days" policy recovers materially more than letting balances drift toward write-off — and on contingency there's no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

05 — BUILT FOR PROPERTY-MANAGEMENT RECOVERY

Turning owner balances back into cash

Management fees, reimbursable repairs and pass-through charges are earned and often already advanced from your own operating funds. The longer they sit, the harder the owner relationship is to reset and the more of your cash is tied up in someone else's property.

Management fees & pass-through charges

Past-due fees and reimbursable expenses tied to a signed management agreement, worked with compliant, multi-channel outreach.

Owner disputes

Documentation-driven validation — agreement terms, approvals and invoices — that separates a genuine dispute from a stall.

Owners who have moved or gone quiet

Skip tracing to locate an owner who has changed addresses or sold the property, plus persistent outreach.

Nationwide reach

Recovery across all 50 states from 12 offices in 7 states; scope confirmed by account type and state before placement.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, voice and mail, timed to when an owner is most likely to engage — respectful, data-driven contact in place of high-friction call blasts.

Compliance built in

FDCPA, Reg F and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention and fewer disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
