

DEBT RECOVERY FOR BUSINESSES • SINCE 2004

Recover What Others Write Off

A pure-contingency receivables recovery partnership for your business.

Contingency-only

Since 2004

Nationwide recovery

ACA International • IACC Member • BBB Accredited • Clutch Top Collections 2026

NO RECOVERY • NO FEE

THE STAKES

\$0 recovered is the default.

Every dollar you recover is near-pure margin.

Every business carries a steady stream of uncollected balances — aged invoices, accounts that went silent, and customers who moved on or closed. The revenue is already earned. Without a dedicated partner, the default outcome is simply that it is lost.

\$0

The default outcome on a written-off balance

20+

Years recovering business receivables

47

States we collect in (not CA, WA, or OR)

Where your money disappears.

01

Work delivered / invoice issued

The revenue is earned and on the books.

02

Account goes past due

Reminders slow down; attention moves elsewhere.

03

Customer moves on or goes silent

Contact data goes stale and follow-up stalls.

04

Balance written off — hits \$0

The earned revenue quietly becomes a loss.

The money is already earned. It just never gets recovered — and without a dedicated partner, the default outcome at every stage is zero.

Three solvable problems. One partner.

Aged & written-off balances

Old invoices and usage balances sit until they are quietly written off.

Our answer. We pursue them on pure contingency, with a consistent, compliant process.

Customers who moved on

The customer is gone, and internal follow-up rarely finds them again.

Our answer. We skip-trace and recover a meaningful share of those 'lost' balances.

Broken payment arrangements

Promised-payment plans that fell apart get little internal attention.

Our answer. A steady, compliant process re-engages the customer and recovers the balance.

WHY OUTSOURCE

Stop chasing ghosts.

Recovering from a customer who has already moved on is low-success, high-friction work. No business should stand up a compliant collections operation for every written-off balance — and it does not have to.

“The accounts your team avoids chasing are exactly the accounts we were built to recover.”

Staff hours returned

We handle follow-up from placement to recovery, so your team gets its time back.

Infrastructure you don't build

Skip tracing, compliance, and reporting — maintained by SWRS, not by you.

Focus on the work

Your team stays on the business while we recover what is already owed.

DONE RIGHT

Recovery done right isn't guesswork.

Effective recovery is a discipline — skip tracing, compliance, and reporting that general-purpose efforts often skip. It is what we do, and all we do.

→ **Skip tracing for customers who moved**

Locating people and businesses that left no forwarding address.

→ **Full FDCPA & state adherence**

Every account worked under complete federal and state compliance.

→ **20+ years of recovery**

Two decades recovering receivables across regulated and commercial industries.

→ **FCRA-compliant credit reporting**

Accurate reporting that creates real leverage on unpaid balances.

→ **AI-driven, consistent process**

Every account scored and worked the same disciplined way, at scale (Aktos).

Recover the balance. Protect the reputation.

FDCPA & Reg F compliant

Every account worked under full federal and state compliance — a clean regulatory record since 2004, so your name is never put at risk.

FCRA credit-bureau reporting

Unpaid balances reported where permitted — real leverage that follows the customer forward.

Brand-safe, professional tone

Communication calibrated to represent you professionally — full recovery effort without the reputational risk.

Firm, effective recovery and a protected reputation are not in conflict. SWRS has proven both, simultaneously, for 20+ years.

HOW IT WORKS

No out-of-pocket. No risk.

1

Place the accounts

Send us your past-due and written-off accounts.
Onboarding takes 24–48 hours.

2

We work them

Compliant skip tracing, outreach, and reporting —
handled end to end by SWRS.

3

You get paid

We take a percentage only on what we actually
recover. Nothing is owed otherwise.

No recovery, no fee. No upfront cost. No retainer. No setup fee.

THE 2-MINUTE QUALIFIER

Five quick questions. One clear answer.

1

Are you a business collecting money you are owed?

2

Where is your business located?

3

What kind of balances — past-due invoices, aged accounts, broken arrangements?

4

How much is sitting in delinquent and written-off balances?

5

How old is the past-due balance?

A result is not a guarantee of recovery; outcomes depend on file age, documentation, and the debtor's ability to pay.

THE CLIENT PORTAL

Once you're a client, you stay in the loop.

Recovery should not be a black box. Our client portal keeps you informed on where your placed accounts stand — no chasing an update, no waiting on a call. get.swrecovery.com

Built for our clients

A dedicated space for the businesses we recover for — not a public sign-up form.

Stay in the loop

Know where your placed accounts stand, without waiting on a phone call.

See it for yourself

Visit get.swrecovery.com for a full look at how the client portal works.

See what you qualify for.

A free, no-obligation recovery review of your delinquent and written-off balances. It takes about 15 minutes.
