SWRS Southwest Recovery Services

Providing Creative Solutions to Common Problems

COMMERCIAL & B2B RECOVERY · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering past-due customer balances for Auto Solutions — on pure contingency

Prepared for **AUTO SOLUTIONS** · November 2026

01 — INTRODUCTION

A recovery partner for the invoices that go past due

Prepared for Auto Solutions — here is how an outsourced receivables recovery partner can work your past-due customer balances while your team stays focused on selling vehicles. It is built around the $10,000 – $100,000 range you shared and the customer relationships behind those accounts.

Past-due receivables are a cash-flow and DSO problem. Every invoice past terms ties up working capital you've earned and drifts toward write-off.

Southwest Recovery Services is a commercial, B2B-focused outsourced receivables recovery partner working business receivables on **pure contingency since 2004**, nationwide across all 50 states. Place accounts through a secure portal that takes your AR export, and we work them. No recovery, no fee.

02 — AT A GLANCE

Two decades of recovery — nationwide

Here is what working with SWRS looks like for a dealer-financed business like Auto Solutions, at a glance.

2004 Recovering commercial receivables since	**$975M+** Receivables placed (all industries)	**$76M+** Recovered for clients	**800K+** Accounts worked
52% of placed accounts see a recovery	**50** states — nationwide recovery reach	**4.9★** Google client rating	**$0** upfront — no recovery, no fee

Commercial & B2B collections since 2004 · **Nationwide — all 50 states** · **12 offices across 7 states**

Unparalleled legal research gateway · **Contingency — no recovery, no fee** · **Free case review**

03 — YOUR QUESTIONS, ANSWERED

What a finance team asks us

These are the questions we would walk through together to size your past-due accounts and decide whether placement makes sense.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
Fee structure	Pure contingency — $0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover; the rate scales with the age, balance and volume of your placements. We quote against a representative sample of your accounts.
What we recover	Unpaid trade invoices, progress and milestone billings, service and license fees, and any past-due B2B balance — from current customers, slow payers and closed accounts alike.
Timing & aging	Recovery falls sharply with age — ~85–90% at 30 days to ~23% at a year. Outreach begins within 24–48 hours of placement; a standing “place at 90 days” rule recovers materially more.
Disputed & non-responsive accounts	A dispute pauses recovery, it doesn’t end it: we validate against the paper and work it professionally. For silent accounts, persistent multi-channel outreach plus commercial skip tracing on the business and its principals.
Onboarding & placement	Fast and low-lift — bulk-upload an AR / aging export through our portal; we map your columns, so there’s no re-keying.
Compliance & reach	Nationwide across all 50 states from 12 offices in 7 states; documented, professional process; ACA International member; clean record since 2004.

THE SWRS CLIENT PORTAL

Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

SYSTEM-READY PLACEMENT

Bulk-upload an AR / aging export from your billing or ledger system (CSV/Excel) — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send agreements, invoices, statements and supporting records safely inside the portal, not over email.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

DIRECT-PAYMENT REPORTING

Log payments a customer makes directly to you, so balances stay accurate and no one is over-contacted.

THE DSO ADVANTAGE

Why fresh balances recover best

A balance is most collectible while it's fresh; every month it ages, contact data goes stale and leverage erodes. The highest-leverage change most teams make isn't chasing harder — it's placing sooner.

THE AGE CURVE

Fresh accounts (under ~90 days past due) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

THE STANDING RULE

A fixed "place at 90 days" policy recovers materially more than letting balances drift toward write-off — and on contingency there's no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

05 — BUILT FOR AUTOMOTIVE BUSINESSES

Cutting the days between billed and banked

SWRS works with automotive businesses that carry their own customer balances and want them followed up professionally. Compliant outreach protects the customer relationships that bring buyers back to your lot.

Non-responsive accounts

Commercial skip tracing on the business and its principals, plus persistent multi-channel demand for customers who've gone silent.

Disputed invoices

Documentation-driven validation — contracts, invoices, delivery records — that separates a genuine dispute from a stall tactic.

Every commercial balance type

Trade invoices, progress billings, service and license fees — one partner, one portal.

Nationwide reach

Recovery across all 50 states from 12 offices in 7 states.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
