

Providing Creative Solutions to Common Problems

HEALTHCARE RECEIVABLES RECOVERY · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering patient and payer balances for Hospital for Special Surgery — compliantly, on pure contingency

Prepared for Hospital for Special Surgery · July 2026

A recovery partner for the balances your billing office can't close

Prepared for Hospital for Special Surgery — the hardest dollars a health system collects are the self-pay balances and post-insurance patient responsibility that age past the point an internal business office can work them.

Past-due receivables are a cash-flow and DSO problem. Every invoice past terms ties up working capital you've earned and drifts toward write-off.

Southwest Recovery Services is a commercial, B2B-focused collection agency working business receivables on **pure contingency since 2004**, nationwide across all 50 states. Place accounts through a secure portal that takes your AR export, and we work them. No recovery, no fee.

Two decades of receivables recovery — nationwide, HIPAA-compliant

A track record built on high-volume B2B receivables and a documented, professional process.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked
52% of placed accounts see a recovery	50 states — nationwide recovery reach	4.9★ Google client rating	\$0 upfront — no recovery, no fee

Commercial & B2B collections since 2004

Nationwide — all 50 states

12 offices across 7 states

ACCREDITED & RECOGNIZED

What a revenue-cycle team asks us

The questions that matter for a commercial receivables book.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
Fee structure	Pure contingency — \$0 upfront, no retainer, no minimum. You pay a percentage only of what we actually recover; the rate reflects the age, balance and volume of the placements.
What we recover	Post-insurance patient responsibility, self-pay balances, co-pays and deductibles, and aged guarantor accounts — worked compliantly under HIPAA.
Compliance	HIPAA-compliant handling; FDCPA / Regulation F on consumer accounts (validation notice, call-frequency limits, 30-day dispute); current on evolving state medical-debt credit-reporting rules.
Timing & aging	Recovery falls sharply with age — early-out and prompt bad-debt placement recover materially more than balances left to sit. Outreach begins within 24–48 hours.
Onboarding & placement	Bulk-upload a patient-AR / aging export from your billing system through our secure portal; we map your columns, no re-keying.
Skip tracing	Patients move and phone numbers change — professional skip tracing re-locates the responsible party so aged balances become collectible again.

THE SWRS CLIENT PORTAL**Low-lift intake and full visibility, on demand**

Every placement is managed through our secure portal — built to take your billing / AR-aging exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

SYSTEM-READY PLACEMENT

Bulk-upload an AR / aging export from your billing or ledger system (CSV/Excel) — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send agreements, invoices, statements and supporting records safely inside the portal, not over email.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

DIRECT-PAYMENT REPORTING

Log payments a debtor makes directly to you, so balances stay accurate and no one is over-contacted.

Multi-provider clinic

\$28K recovered
of ~\$557K placed

5% recovered

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE EARLY-OUT ADVANTAGE**Why early placement recovers more**

For patient AR, the age of the balance is the strongest predictor of recovery — contact data goes cold and patients disengage as accounts age.

THE AGE CURVE

Fresh balances recover a large multiple of aged ones; the decline is steep and does not reverse.

EARLY-OUT + BAD DEBT

An early-out program on fresh balances plus prompt bad-debt placement, worked in parallel, recovers materially more than a single late hand-off.

We speak revenue cycle

Patient and payer AR has a specific recovery profile. Our playbook is built for it, inside HIPAA.

Self-pay & patient responsibility

Compliant, professional recovery of post-insurance balances that protects the patient relationship.

Compliance-first

HIPAA + FDCPA / Reg F on every account, current on state medical-debt rules.

Skip tracing

Re-locating responsible parties whose contact data has gone stale.

Nationwide reach

Recovery across all 50 states from 12 offices in 7 states.

How we protect the relationship

“Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.”

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services

In healthcare, recovery has to preserve the patient relationship and represent Hospital for Special Surgery professionally — firm, compliant, and never harassing. That protects your reputation as much as it recovers the balance.
