COMMERCIAL & B2B RECOVERY · CAPABILITIES OVERVIEW

# Debt Collection Agency for Businesses

Recovering past-due B2B receivables for Spirit Human Resources — on pure contingency

Prepared for **Spirit Human Resources** · July 2026

## A recovery partner for the invoices that go past due

Prepared for Spirit Human Resources — the receivables a business works hardest to collect are the ones a customer lets drift after the goods or services are delivered: trade invoices aging past terms, disputed balances, and accounts that simply go quiet.

**Past-due receivables are a cash-flow and DSO problem.** Every invoice past terms ties up working capital you've earned and drifts toward write-off.

Southwest Recovery Services is a commercial, B2B-focused collection agency working business receivables on **pure contingency since 2004**, nationwide across all 50 states. Place accounts through a secure portal that takes your AR export, and we work them. No recovery, no fee.

## Two decades of commercial recovery — nationwide

A track record built on high-volume B2B receivables and a documented, professional process.

## What a finance team asks us

The questions that matter for a commercial receivables book.

| YOUR QUESTION                      | SOUTHWEST RECOVERY SERVICES                                                                                                                                                                                                                                |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Fee structure                      | Pure contingency — \$0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover; the rate scales with the age, balance and volume of your placements. We quote against a representative sample of your accounts. |
| What we recover                    | Unpaid trade invoices, progress and milestone billings, service and license fees, and any past-due B2B balance — from current customers, slow payers and closed accounts alike.                                                                            |
| Timing & aging                     | Recovery falls sharply with age — ~85–90% at 30 days to ~23% at a year. Outreach begins within 24–48 hours of placement; a standing “place at 90 days” rule recovers materially more.                                                                      |
| Disputed & non-responsive accounts | A dispute pauses recovery, it doesn’t end it: we validate against the paper and work it professionally. For silent accounts, persistent multi-channel outreach plus commercial skip tracing on the business and its principals.                            |
| Onboarding & placement             | Fast and low-lift — bulk-upload an AR / aging export through our portal; we map your columns, so there’s no re-keying.                                                                                                                                     |
| Compliance & reach                 | Nationwide across all 50 states from 12 offices in 7 states; documented, professional process; ACA International member; clean record since 2004.                                                                                                          |

## Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your billing / AR-aging exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

### SYSTEM-READY PLACEMENT

Bulk-upload an AR / aging export from your billing or ledger system (CSV/Excel) — we map your columns, no re-keying.

### REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

### SECURE FILE EXCHANGE

Send agreements, invoices, statements and supporting records safely inside the portal, not over email.

### DIRECT-PAYMENT REPORTING

Log payments a debtor makes directly to you, so balances stay accurate and no one is over-contacted.

*Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.*

**THE DSO ADVANTAGE****Why fresh invoices recover best**

A commercial balance is most collectible while it's fresh; every month it ages, contact data goes stale and leverage erodes.

**THE AGE CURVE**

Fresh accounts (under ~90 days) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

**THE STANDING RULE**

A fixed “place at 90 days” policy recovers materially more than letting balances drift — and on contingency there's no cost to placing.

## We speak your ledger

A commercial receivables book has a specific recovery profile. Our playbook is built for it.

### Non-responsive accounts

Skip tracing on the business and its principals plus persistent multi-channel demand for customers who've gone silent.

### Disputed & contested invoices

Documentation-driven validation that separates a genuine dispute from a stall tactic.

### Every commercial balance

Trade invoices, milestone billings, service and license fees — one partner, one portal.

### Nationwide reach

Recovery across all 50 states from 12 offices in 7 states.

## How we protect the relationship

“Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services

Firm, effective recovery has to stay professional — no threats, no misrepresentation. That protects the customer relationship, protects the Spirit Human Resources name, and protects you from the liability that sloppy collections create.
