FREIGHT & LOGISTICS RECEIVABLES · CAPABILITIES OVERVIEW

# Debt Collection Agency for Businesses

Recovering unpaid freight invoices from brokers & shippers who've gone quiet — on pure contingency

Prepared for **Diamond Freight Distribution** · September 2026

## A recovery partner for the loads that never got paid

To the Diamond Freight Distribution team — the hardest dollars an intermodal carrier collects are the ones a broker or shipper stops paying after the load is delivered and then stops answering. The freight moved; the receivable didn't.

**Unpaid freight invoices aren't a dispatch problem — they're a cash-flow problem.**

Fuel, drivers and chassis were already paid for; the receivable is money you've fronted.

Southwest Recovery Services is an outsourced receivables recovery partner working commercial B2B balances on **pure contingency since 2004**, nationwide. Place accounts through a secure portal that takes your billing export, and we work them. No recovery, no fee.

## Two decades of commercial recovery — nationwide

A documented, compliant recovery process on pure contingency since 2004 — scale you can add without building a collections desk.

## Your questions — answered directly

What happens to the invoices you place — for an intermodal and drayage book.

| YOUR QUESTION                           | SOUTHWEST RECOVERY SERVICES                                                                                                                                   |
|-----------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1. Fee structure</b>                 | Pure contingency — \$0 upfront, no retainer, no minimum. A pre-agreed percentage only of what we recover, quoted after a representative sample of your aging. |
| <b>2. Brokers / shippers gone quiet</b> | Skip tracing on the broker or shipper entity, its successors and principals, plus persistent compliant multi-channel demand.                                  |
| <b>3. Disputed loads</b>                | A dispute pauses recovery, it doesn't end it. We validate against the rate confirmation, BOL, POD and the invoice — usually decisive for freight.             |
| <b>4. Commercial B2B</b>                | Broker and shipper balances worked as B2B trade AR across all 50 states — built for a national lane network.                                                  |
| <b>5. Onboarding</b>                    | Bulk-upload an aging export — we map your columns. Outreach begins within 24–48 hours of a documented placement.                                              |

**THE SWRS CLIENT  
PORTAL**

## **Billing-system-ready intake and full visibility, on demand**

Every placement runs through our secure portal — built to take your A/R exports and give your team live, self-service visibility throughout recovery.

### **BILLING-SYSTEM-READY PLACEMENT**

Upload an A/R / aging export — we map your columns, no re-keying.

### **SECURE FILE EXCHANGE**

Send invoices, contracts and supporting docs safely inside the portal — the documentation that resolves disputes fast.

### **REAL-TIME REPORTING**

Run and export account and recovery reports on demand — live status on every placed balance.

### **DIRECT-PAYMENT REPORTING**

Log payments a debtor makes directly to you, so balances stay accurate and no one is over-contacted.

*Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.*

**THE AGE CURVE****Why placing sooner recovers more**

A freight balance is most collectible while it's fresh and the broker or shipper relationship is still active. Every month it ages, contact data and leverage erode.

**FRESH VS. AGED**

Accounts under ~90 days past due often resolve in 30–60 days; balances left to sit a year collect a fraction of that.

**A STANDING RULE**

A fixed 'place at 90 days' policy recovers materially more than letting balances drift toward write-off — and on contingency there's no cost to placing.

*Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.*

## Recovering the loads you've already run

In freight, the receivable is money already spent on fuel, drivers and equipment. Every month a broker or shipper invoice ages, the odds of collecting fall — and broker insolvencies move fast.

### Brokers & shippers gone silent

Skip tracing on the entity and principals, plus persistent compliant demand.

### Disputed loads

Documentation-driven validation — rate con, BOL, POD, invoice — separating a real dispute from a stall.

### Every freight balance

Line-haul, drayage, detention, accessorials and fuel — one partner, one portal.

### Nationwide reach

Recovery across all 50 states from 12 offices in 7 states.

## Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

### AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

### Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

### Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

### Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

### **API-first intake**

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

### **Data-driven scoring**

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

## Built by a collector with 30 years on the phones — not a CEO with zero collection experience

### Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
