MEDICAL PRACTICES RECOVERY · CAPABILITIES OVERVIEW

# Receivables Recovery for Medical Practices

## Recovering patient balances for Digestive Health Associates — on pure contingency

Prepared for **DIGESTIVE HEALTH ASSOCIATES** · October 2026

01 — INTRODUCTION

# A recovery partner for the balances that go quiet after care

Prepared for Digestive Health Associates — a Morris, Illinois gastroenterology practice that asked about early-out support for patient collections. Here is how SWRS would approach recent patient balances without adding cost or workload to your front office.

**Patient balances are a recovery problem, not a billing problem.** Every balance that sits after the visit erodes toward write-off while your front desk carries the follow-up.

Southwest Recovery Services recovers patient and payer balances on **pure contingency since 2004**, under a Business Associate Agreement, nationwide. Place accounts through a secure portal that takes your practice-management export, and we work them with dignity and discretion. No recovery, no fee.

02 — AT A GLANCE

# Two decades of recovery — nationwide

A quick look at how an early-out program could fit a small, referral-driven specialty practice like yours.

03 — YOUR QUESTIONS, ANSWERED

# What a practice asks us first

These are the questions we would want to walk through with you so the program matches how your practice already handles patient balances.

| YOUR QUESTION | SOUTHWEST RECOVERY SERVICES |
|---|---|
| **How patients are treated** | Dignity and discretion first. Every contact is scripted for a patient, not a debtor: no pressure, clear options, payment plans, and a person to talk to. The practice's reputation is protected on every call. |
| **Fee structure** | Pure contingency — $0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover; the rate scales with the age, balance and volume of placements. We quote against a representative sample. |
| **Compliance & privacy** | We operate under a Business Associate Agreement, with staff trained on HIPAA, FDCPA and Regulation F. Credit reporting to Equifax and Experian only where state law allows. |
| **Timing & aging** | Recovery falls sharply with age. Outreach begins within 24–48 hours of placement; a standing "place at 90 days" rule recovers materially more than letting balances sit. |
| **Disputed balances & insurance** | A dispute pauses recovery, it doesn't end it: we validate against the itemized statement and EOB and resolve it professionally. Insurance follow-up is available as an additional service. |
| **Onboarding & placement** | Fast and low-lift — bulk-upload a patient-balance export through our portal; we map your columns, so there's no re-keying. |

THE SWRS CLIENT PORTAL

## Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

### PM-SYSTEM-READY PLACEMENT

Bulk-upload a patient-balance export from your practice-management or billing system — we map your columns, no re-keying.

### SECURE, HIPAA-AWARE FILE EXCHANGE

Send statements, itemized bills and supporting records inside the portal under our Business Associate Agreement.

### REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

### DIRECT-PAYMENT REPORTING

Log payments a patient makes directly to the practice, so balances stay accurate and no one is over-contacted.

of ~$101K placed

**10% recovered**

*Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.*

WHY TIMING MATTERS

## Why fresh balances recover best

A patient balance is most recoverable while the visit is recent; every month it ages, contact data goes stale and the relationship cools.

### THE AGE CURVE

Fresh balances (under ~90 days) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

### THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more than letting balances drift — and on contingency there’s no cost to placing.

*Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.*

05 — BUILT FOR MEDICAL PRACTICES

# Recovery that protects the patient relationship

SWRS has worked with medical, dental, veterinary and other service practices since 2004, so early-out on patient balances is familiar ground. Our approach is built for small teams that need results without adding staff or fixed cost.

### Self-pay & residual balances

Deductibles, co-insurance and balances after insurance, worked with payment plans and clear options.

### Disputed & insurance-tangled accounts

Validation against the itemized statement and EOB, with insurance follow-up available as an additional service.

### Every balance type

Self-pay, no-show and cancellation fees, plan balances and aged write-offs — one partner, one portal.

### Nationwide, HIPAA-aware

Recovery across all 50 states from 12 offices in 7 states, under a Business Associate Agreement.

06 — AI-POWERED COLLECTIONS

# Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

### AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

### Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

### Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

### Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

### API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

### Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier, more respectful contact and fewer disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

# Built by a collector with 30 years on the phones — not a CEO with zero collection experience

**Steven Dietz**

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
