FUNERAL HOME & DEATHCARE RECEIVABLES · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering unpaid service balances for funeral homes — respectfully, and on pure contingency

Prepared for **Reid's New Golden Gate Funeral Home** · August 2026

A recovery partner for the balances your staff shouldn't have to chase

To the team at Reid's New Golden Gate Funeral Home — you told us you're looking for help with funeral home collections. The hardest dollars in deathcare are the ones already earned: the service performed on trust, the balance a family promised to settle once insurance paid or the estate closed, and the account that goes quiet three months later. Your directors are the people that family will see at the next service in the neighborhood — which is exactly why they are the wrong people to be making collection calls.

An unpaid service balance isn't a staffing problem — it's a cash-flow problem with a reputation attached. Casket and vault costs, transport, staff hours and cemetery fees are already spent before the invoice ages. Every month it drifts, contact information goes stale, the assignment or estate goes cold, and leverage erodes — while your own people carry the awkwardness of asking.

Southwest Recovery Services has worked receivables on **pure contingency since 2004**, with recovery reach across all 50 states. We've collected millions of dollars in industries just like yours since 2004. You place accounts through a secure portal that takes your export, and we work them — compliantly, and in a tone your families and your community will not hold against you. No recovery, no fee.

Two decades of receivables recovery — nationwide

A track record built on high-volume consumer and commercial receivables and a documented, compliant process — the collections function a family-owned firm gets to use without hiring for it.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked

What a funeral home owner asks us first

Direct answers on cost, tone, insurance assignments and how placement actually works.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. What does it cost?	Pure contingency — \$0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. The rate is quoted once we see a representative sample of your past-due accounts, and it scales with the age, balance and volume you place.
2. How will my families be treated?	This is the part we care most about. Recovery is firm but respectful — no threats, no misrepresentation, no pressure tactics. FDCPA and Reg F requirements are enforced inside the workflow, every contact is documented, and disputes and complaints are handled on the record. Your name is on the letterhead of your community, and we work accordingly.
3. Insurance assignments & estates	A balance waiting on a life-insurance assignment, a probate estate or a Title 19 determination is not the same as a family that won't pay, and we don't work it the same way. We verify where the money actually sits, keep the account current while a legitimate payer is pending, and escalate only the balances that have no payer behind them.
4. Getting started	Fast and low-lift. Bulk-upload an aging export from your funeral management or accounting system through our portal — we map your columns, so there's no re-keying and no new workflow for your directors. Outreach begins within 24–48 hours of a documented placement. We also handle ongoing AR management and insurance follow-up if you want balances worked before they ever reach placement.

THE SWRS CLIENT PORTAL**Simple intake and full visibility, on demand**

Every placement is managed through our secure portal — built to take your aging export and give a small office live, self-service access throughout recovery.

UPLOAD-AND-GO PLACEMENT

Send an aging export from your funeral management or accounting system — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send contracts, statements of goods and services, insurance assignments and correspondence safely inside the portal — the documentation that resolves disputes fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand across both locations — a live dashboard instead of a monthly PDF.

DIRECT-PAYMENT REPORTING

Log payments a family makes directly to your office, so balances stay accurate and no one is contacted about money they already paid.

THE AGE CURVE

Why recently past-due balances recover best

A balance is most collectible while the service is still recent and the contact information is still good. Every month it ages, families move, phone numbers change, estates close and leverage erodes. The highest-leverage change most offices make isn't chasing harder — it's placing sooner.

THE AGE CURVE

Recently past-due accounts often resolve in 30–60 days; balances that sit a year collect a fraction of that.

THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more than letting balances drift toward write-off — and on contingency there's no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

We understand what you're asking us to handle

A funeral home's receivables carry something most books don't: grief, family dynamics, and a name that has to stay good in the neighborhood. Our approach is built for exactly that.

Respect is the method, not a caveat

Empathy-first, documented contact. Firm on the balance, careful with the person — because the family on that account lives in the community you serve.

Insurance assignments & estates

We verify whether a life-insurance assignment, probate estate or Title 19 determination is actually behind a balance before it is ever treated as a delinquency.

Skip tracing that finds the responsible party

Families relocate and phone numbers change. We locate the person who signed the statement of goods and services, not just the last address on file.

Both locations, one relationship

Milwaukee and Racine accounts worked under one agreement, one portal and one point of contact — no duplicated effort for a small office.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right family first, without manual queue-picking.

Omnichannel outreach

Coordinated email, voice and mailed notices, timed to when a person is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention on the balances most likely to be paid.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
