Receivables Recovery for Property Managers

Recovering former-tenant balances for DFW Property Management — on pure contingency

Prepared for **DFW Property Management.com** · October 2026

Private & confidential

01 — INTRODUCTION

A recovery partner for the balances left behind at move-out

Prepared for DFW Property Management — you asked how we would handle former-tenant balances, so this overview shows how SWRS recovers them for residential property managers. It covers how we work, what we report, and how a small team can get started.

Move-out balances are recoverable — if they're worked while the trail is warm. Final ledgers, unpaid rent and damages age fast once a resident is gone.

Southwest Recovery Services is a property-management and multifamily recovery specialist working post-eviction and unpaid-rent balances on **pure contingency since 2004**,. Place accounts through a secure portal that takes your ledger export, and we work them. No recovery, no fee.

02 — AT A GLANCE

Two decades of recovery — since 2004

SWRS is built to give a lean property management office recovery results without added headcount or upfront cost.

2004 Recovering receivables since	**$1.0B+** Receivables placed (all industries)	**$79M+** Recovered for clients	**880K+** Accounts worked
52% of placed accounts see a recovery	**12** offices across 7 states	**4.9★** Google client rating	**$0** upfront — no recovery, no fee

- Property & multifamily recovery since 2004
- Texas-based — 12 offices across 7 states
- Experian RentBureau reporting on rental accounts
- Unparalleled legal research gateway
- Contingency — no recovery, no fee
- Free case review

03 — YOUR QUESTIONS, ANSWERED

Your five questions — answered directly

Exactly what you asked, in order. Anything that needs your actual files or our documents is called out rather than guessed.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Rate & account age	Pure contingency — $0 upfront, no retainer. You pay a pre-agreed percentage only of what we actually recover. The rate reflects the age and size of the balances, so we quote it once we have seen a representative sample of your former-tenant accounts.
2. Credit reporting & skip tracing	Qualifying accounts are furnished to Equifax and Experian, plus Experian RentBureau for rental accounts. Skip tracing and persistent multi-channel outreach are built for people who have moved; judgments are worked through our legal-forwarding network case by case.
3. How accounts are placed	Through our secure client portal: bulk-upload a final-ledger or aging export (Excel or CSV) from your property-management software and we map your columns, so there is no re-keying. We will walk through a Rentvine export together on the call.
4. Minimums, set-up & term	No retainer and no monthly minimum. Minimum balance or account age, set-up and contract terms are confirmed in writing before any account is placed.
5. Texas bond & reporting back	SWRS is Texas-based (Addison) and works Texas accounts under Texas Finance Code ch. 392. We send our current surety bond and registration documents on request. Placement status and recovery reports are available on demand in the portal.

THE SWRS CLIENT PORTAL

Low-lift intake and full visibility, on demand

Every placement is managed through our secure portal — built to take your exports and give your team live, self-service access throughout recovery, backed by a dedicated account manager.

LEDGER-READY PLACEMENT

Upload a move-out / final-ledger export from your property-management software — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send leases, final account statements, move-out inspections and judgments safely inside the portal.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live dashboard, not a monthly summary.

DIRECT-PAYMENT REPORTING

Log payments a customer makes directly to you, so balances stay accurate and no one is over-contacted.

04 — CASE STUDIES

SWRS Property Recovery Case Studies

Actual placed-versus-recovered results from SWRS's residential property-management clients, anonymized by sector. Former-tenant balances are among the hardest to recover: results run from single digits to about a fifth of dollars placed, driven by account age and file quality.

APARTMENT COMMUNITY

Garden-style residential

$26K recovered

of ~$702K placed

4% recovered

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

WHY TIMING MATTERS

Why fresh move-out balances recover best

A balance is most collectible while it's fresh; every month it ages, contact data goes stale and leverage erodes. The highest-leverage change most teams make isn't chasing harder — it's placing sooner.

THE AGE CURVE

Fresh accounts (under ~90 days past due) often resolve in 30–60 days; balances that sit a year collect a fraction of that.

THE STANDING RULE

A fixed "place at 90 days" policy recovers materially more than letting balances drift toward write-off — and on contingency there's no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

05 — BUILT FOR PROPERTY & MULTIFAMILY RECOVERY

Turning move-out ledgers back into cash

SWRS has recovered rental and property balances for managers and landlords since 2004. We fit an owner-led office that wants former-tenant accounts handled professionally without taking on the work itself.

Former residents & guarantors

Skip tracing built for people who have moved, plus persistent multi-channel outreach.

Judgments & evictions

Post-eviction balances and judgments worked through our legal-forwarding network case by case.

Every ledger balance

Unpaid rent, damages beyond deposit, fees and utilities — one partner, one portal.

Bureau reporting

Equifax, Experian and Experian RentBureau reporting on qualifying accounts.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
