CONSUMER RECEIVABLES RECOVERY • CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering unpaid customer balances — on pure contingency

Prepared for **Mitlyng Electric, HVAC & Plumbing** • July 2026

A recovery partner for the customers who stopped paying

To Abhi and the Mitlyng Electric, HVAC & Plumbing team — you're carrying significant residential-trade receivables — electric, HVAC and plumbing work aging past 90 days — and figuring out how to chase homeowners in-house is pulling your team off the job. That consumer-balance recovery is exactly what we run on pure contingency.

An unpaid customer balance isn't a write-off — it's revenue you've already earned.

Once your own reminders stop working, every month that passes cools the customer's contact data and makes the balance harder to collect.

Southwest Recovery Services works consumer receivables on **pure contingency since 2004** — \$0 upfront, no minimums, recovery reach across all 50 states. You place accounts through a secure portal, and we work them with a firm, FDCPA / Reg F-compliant process. No recovery, no fee.

Two decades of recovery — nationwide

A documented, professional process behind \$975M+ in placements — the same engine whether you place a handful of accounts or hundreds.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked
52% of placed accounts see a recovery	50 states — nationwide recovery reach	4.9★ Google client rating	\$0 upfront — no recovery, no fee

- Commercial & B2B collections since 2004
- Nationwide — all 50 states
- 12 offices across 7 states
- Skip tracing on businesses & principals
- Contingency — no recovery, no fee

The questions owners ask — answered

How the fee works, what happens when a customer goes silent or moves, how we stay compliant, and how to hand it over.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. How does the fee work?	Pure contingency — \$0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we recover. Rates are tiered by the age and size of the balances; we quote once we see a representative sample. There's no minimum to place.
2. The customer went silent — now what?	The core of what we do: persistent, professional multi-channel outreach across mail, phone, email and text, plus skip tracing to locate residential customers who have moved or changed numbers — so the demand actually reaches them.
3. How do you stay compliant?	Every account is worked inside an FDCPA / Reg F-disciplined process — these are consumer balances, so compliance isn't optional. Firm, professional contact that never uses threats or misrepresentation, and never puts your name at risk.
4. Does credit reporting help?	Yes — where appropriate we report to Equifax and Experian . A reported balance follows a consumer onto their credit file, which is one of the strongest lawful motivators to resolve an old account.
5. How do we hand it over?	Fast and low-lift. Place the account through our secure portal with the invoice/agreement and the contact details you have; we map your fields, no re-keying. Outreach begins within 24–48 hours of a documented placement, and you track every account 24/7.

Documented placement and full visibility, on demand

Every placement is managed through our secure portal — built to take the account detail you already have and give your team live, self-service visibility throughout recovery.

LOW-LIFT PLACEMENT

Upload the account with its invoice or agreement and the customer's contact details — we map your fields, no re-keying.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — a live view of your recovery any time.

SECURE FILE EXCHANGE

Invoices, signed agreements and the communication trail move safely inside the portal — the documentation that resolves disputes fast.

DIRECT-PAYMENT REPORTING

Log any payment a customer makes directly to you, so balances stay accurate and no one is over-contacted.

SWRS Recovery Case Studies

Actual placed-versus-recovered results from Southwest Recovery’s book, anonymized by sector.

Anonymized by sector from Southwest Recovery’s book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE COST OF WAITING

Why fresh customer balances recover best

A consumer balance is most collectible while it's fresh, before contact data goes stale. Research from the Commercial Collection Agencies of America puts collectability at **under 25% once a balance passes a year old**. The highest-leverage change isn't chasing harder — it's placing sooner.

THE AGE CURVE

Fresh balances (under ~90–120 days) resolve fastest — the customer is findable and the balance is fresh in their mind.

THE STANDING RULE

A fixed “place at 90 days” policy recovers materially more than chasing case-by-case — and on contingency there's no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on your accounts before anything is worked.

05 — BUILT FOR CONSUMER RECEIVABLES

We speak your customer ledger

A balance owed by an individual customer has its own recovery profile — consumer-debt rules, customers who move, and a brand worth protecting. Our playbook is built for exactly that.

Residential customers who go silent

Persistent, professional multi-channel demand for a customer who's stopped responding to your own reminders.

Customers who move on

Skip tracing built to locate individuals across state lines — so the demand actually lands.

Credit reporting that motivates

Where appropriate, Equifax and Experian reporting — a reported balance follows the customer and is a strong lawful motivator to pay.

Compliance that protects your brand

FDCPA / Reg F guardrails on every consumer account — firm recovery that never risks your reputation.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer,
Southwest Recovery Services

A customer who owes you today may cross your path again tomorrow. Firm recovery that stays professional protects the relationship, your brand, and you from the liability sloppy collections create.
